ESOLA HITS HOME RUN UNDER FENCE

Eddie Fay Plays in Place of Shortstop Shinn, Who Has Run Away—Pitcher Schimpff Covers Center Field in Grand Style.

YESTERDAY'S RESULTS. San Francisco 4, Portland 1. Oakland 5, Los Angeles 1.

Eddie Quick, San Francisco's tall, blonde twirler, had the Beavers buffaloed for nine innings yesterday and though the game was spiritedly contested, there never was a time when Portland looked a winner.

Just to make things safe, Quick did not allow a single batter to reach the first base until the fifth inning. Then, the score being three to nothing, Eddie took it a little easier. Twice after that Portland got two or three men on bases, but the blonde twirler shut down on the hitting, apparently whenever he felt like it. He shut the home batters out until the ninth, when McCredie made the circuit on a hit apiece by himself and Mott and a very fast throw ball by Stree.

A very fast ball and then a muffed slow one was Quick's medicine, and its effect was very quick. Instead of lining them out, the Portland batters showed the sphere up into the cloudy sky, where it was gathered in with ease by the fielders.

The Seals scored three runs in the third, beginning with a homer by Esola. It did not go over the fence, but under it. McCredie, who had not yet reached after it and thrown it in the big catcher had made the circuit. Singles by Quick and Morarity and an error by Fay scored the other two.

The visitors' other run was made in the seventh, on a two-out by Shaughnessy, followed by a single by Esola. The ball which put the runner in was handled by McCredie. Moore, Schimpff and Mott, the runner finally being caught at third. McCredie made the throw to Moore in an attempt to cut off Shaughnessy, Moore returned it to second in an attempt to catch Esola, who had not stopped at first. The throw was wild and Esola ran on to Schimpff got the sphere and shot it to third in time to catch the runner.

NOTES OF THE GAME

These five errors of Shortstop Shinn's Sunday turned his stomach against baseball and yesterday he did not show up. McCredie, however, was in the lineup without telling his manager good-byes and not even applying for his Sunday's wages—payday is today. Esola has said he has left for his home in Healdsburg, California. While his five errors were inexcusable, the boys should have taken it so hard. He should have stayed and tried to live down the record. It is doubtful, however, if the Portland team will win any game off with Shinn. While in any time he should make a great ball player, he was in a bit too fast company for his years and experience.

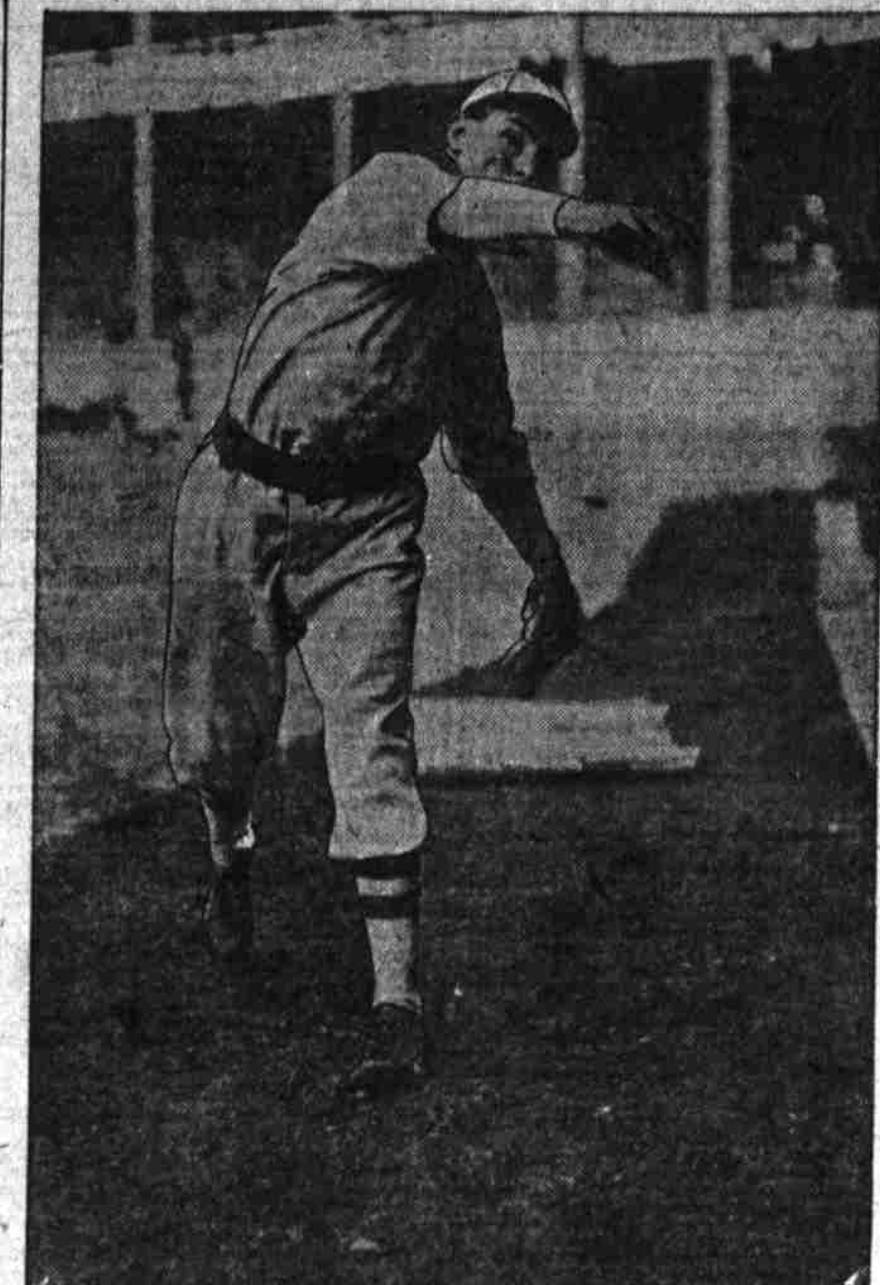

Joe Fay, at present shortstop for the Frakes nine of the Tri-City league, and a well-known ball player, filled in at shortstop for the Beavers yesterday. Fay has had many years experience and had no reason to be nervous. He had had luck, however, Portland's only two errors being charged against him. Fay led off in batting and scored one of the five safe singles allowed by Pitcher Quick.

Fay will probably fill in at short until the arrival of Billy Statton, who is due here toward the end of the week. Manager McCredie received a wire last night to the effect that Statton had left Chicago for Portland. The shortstop went to Chicago some time ago on account of the illness of his mother.

Casey executed a great play in the third inning yesterday. After Esola had hit his home run under the center field fence, Quick singled. Mott followed with a grounder to Fay. The latter had a good chance for a double play, but he hurried to center field, driving him back, then put out at first.

Donahue is temporarily laid up with a sprained knee. This alone cripples the team. Few players put as much ginger into their game as Donahue. He is stronger at the bat than Moore, a better thrower and is a winder at gathering in foul.

Lovett broke a finger during preliminary practice yesterday and his finger was filled with plaster. The writer wishes right here to retract

SQUIRES ABLE TO WHIP BURNS IN CLUB RACES

So Says Ex-Champion Jimmy Britt After Friendly Go With the Australian.

Names of Horses and Riders in All But One Event Are Announced.

By James Edward Britt. Whoever sizes Bill Squires up as a lemon has missed his guess. He is no Plackie; in other words, he is not a soft thing by any means.

Squires is a fighter. Every inch of him, every ounce of him, every nerve and muscle is fighting material. Squires has fought through the ranks of the fighters in Australia. He has whipped everything on two legs that is worth whipping in the continent across the Pacific.

That he has not licked better men is because there were no better men to lick. Had there been he would have licked them, or tried to.

They say he ran away from Jack Johnson, that charge is ridiculous. His passage had been booked and his engagements all made before there was even a whisper of Johnson's going to Australia.

For White Man Only. Now, this fellow Squires has a chance at the world's championship, and he would be foolish and wrong according to the ethics of the ring, to allow a negro a chance to win the world's championship from him. John L. Sullivan, Jim Corbett, Jim Jeffries all refused to fight negroes after winning their championship honors, and it is one of the unwritten laws of the heavyweight crowd that it shall be held by a white man.

Squires is a cool, level-headed, determined fighter. He is aggressive, strong, uses his feet, and has an awful wallop in either hand. His smashes start low and travel upward. He hits a kind of round uppercut that lands with all the lift of his body under it and if you want to know, I believe it is one of the wickedest blows I have run across in many years.

Unlike the English fighters who spar at long range, this fellow likes to get in close and hammer away at short range. He can stand a wallop that would stagger most men without batting an eyelid, and that short, ramming jolt of his, that starts up from the region of his hips and lands in the belly or the face, is good for the count almost any time they connect.

He tells me he has stilled in nearly all his fights to give the crowd a run for their money, promoting, objecting to his short, sharp fights in which he puts his man away in a few quick smashes, but he says it is hard for him to do this, and he does not like to stall. I believe him, because he is modest and not a braggart.

Would Beat Burns. I should say on what I have seen of him and my knowledge of Burns that he would be likely to whip Burns. As to Jeff I cannot say. Jeff is a wonderful man. He is so far above the ordinary fighter that there is no line of comparison between him and any other man in the ring.

Jeff has told me several times that never in his ring career after he mastered the art of hitting did he put his whole strength into a blow. He has told me several times for fear of inflicting a mortal injury on his adversary. His best fights have shown him a master of cleverness, the fastest man in the world of his weight, a good ring general and a marvelous hitter. A giant in size and strength. What can you do in boxing as well as that but admit that if he is good no man has a chance with him. There is a possibility that he may have gone back so fast that a clever, fast fellow could wear him down, like Corbett did John L., but Jeff is anything but a physical wreck and should train down all right for this battle.

Figure it out for yourself. Squires is awfully good, however, so do not make any mistake on that.

nearly everything he even said derogatory to Schimpff as a ball player. The Shrimp starred yesterday. He covered several acres of garden and gathered in five flies, two of them as pretty runs as have often been on a baseball field. Then he threw a man out at third, gaining an assist. He also batted .355.

Bobby Groom is a poor batter, but when he does hit the leather he ought to be compelled to run until he is put out. In the eighth inning Groom knocked a ball to the shortstop which was not handled clean and which he could have run to first had he not nearly stopped after he had run a couple of strides.
