

### OUTLOOK GOOD FOR HOP CROP

#### Independence Man Thinks Everything Is Favorable for Large Returns.

A. L. Pritchard, a large hop grower of Independence, Oregon, is at the Imperial hotel and said today that the crop outlook for the coming season is very favorable. Mr. Pritchard said that the yards planted in the past two years were doing fine and even up for the shortages in the old yards. He said: "The season has been very dry thus far but in the last few weeks the crops have sprung ahead wonderfully. Past experience has taught us that the best hops are those that grow in June and for that reason I am optimistic for the growing crop. I expect the output to be about the same as last year when Oregon raised about 158,000 bales." Mr. Pritchard is also interested in timber and said that he had been informed that the timber lands sold by George T. Hall of Eugene and others last year for about \$30,000 were sold last week to eastern parties for a little more than \$70,000. Mr. Pritchard owns

a tract of 873 acres on Beaver creek which has been cruised and shows about 40,000,000 feet. His tract is so located that it could be cut and sent down Beaver creek into Muddy river and then into the Willamette.

### HIGH HONOR WAS ENTIRELY UNSOUGHT

#### Alma Mater of Rev. Sharp Confers Doctor of Divinity Degree on Him.

Rev. E. M. Sharp, pastor of the Mount Tabor Presbyterian church, received notification yesterday that his alma mater—Parsons college, at Fairfield, Iowa—had conferred upon him the degree of doctor of divinity. The honor came entirely without the solicitation and without the knowledge of Dr. Sharp, but was the result of his personal friends in Portland, who recognizing the value of his work here and his eminent fitness for the degree, suggested to the trustees of Parsons college that the degree be conferred. Dr. Sharp is a graduate at this institution, which is said to be one of the best Presbyterian colleges in the country. He has a splendid endowment and a fine history, and is doing excellent work in the training of Presbyterian ministers. Dr. Sharp is stated clerk of the Portland Presbyterian church and was recently elected president of the Portland Ministerial association to succeed Rev. J. Whitcomb Brougher. He is also senior

pastor in point of occupancy in the Portland Presbyterian and is, therefore, dean of the Presbyterian ministers in Portland and vicinity.

### BOTH AUDIENCES WELL SATISFIED

#### Henry Lawrence Southwick, Gave "Richelleu" and "The Rivals" Before Appreciative Listeners.

Henry Lawrence Southwick entertained two audiences yesterday in the most satisfactory way. In the afternoon he gave "Richelleu" at St. Helen's hall and his interpretation of the aged cardinal was most subtle. The contrast between the feeble old man broken in health and the astute which imbued the cardinal when patriotism and power fired his mind was clearly and masterfully presented. The closing scenes were intensely dramatic. In the evening to an appreciative handful of people Dean Southwick presented "The Rivals" and the charming old comedy became very real under his handling. As the irascible and hearty old Sir Anthony, Mr. Southwick was imitable and yet no one of the characters of the comedy was less distinctness. Perhaps the most difficult thing that was done was the scene in which the double identity of Beverley and Captain Absolute is disclosed, where the humor of the situation appeals to Sir Anthony and he roars with laughter, where Mrs. Malaprop enters into the fun until she thinks of the letters which have so incensed her and where Lydia with her whims and the captain who has been the plotter are all portrayed at once with consummate skill.

### GYMNASIUM WILL BE ADDED TO CHURCH

Rev. Paul Rader, who was recently called to the pastorate of the Hasall-Street Congregational church, is preparing to have the church building remodeled at a cost of about \$5,000. The plans call for an addition to be built to the back of the church, 80 by 100 feet which will contain a Sunday school room and gymnasium for the young men and boys. The old building will be repaired and decorated for temporary use only, but the intention is to replace it within a few years with a modern church. The gymnasium will be fitted up with apparatus for physical development and other necessary features. Dr. Rader's idea is that more attention must hereafter be devoted to providing suitable amusement and entertainment for the boys. About half the money to make the improvements has been subscribed, and no trouble is anticipated in securing the remainder.

Bells and Carbuncles Cured by "THE HOUSEHOLD SUBSONOR," Druggists refund money if Dr. Porter's Antiseptic Healing Oil fails. 25c.

### Dalles Diamond Flour MAKES DELICIOUS BREAD.

Because in its making every possible means are used to make it the best and most wholesome. It has the flavor only the best flour possesses. Eating is the proof of the pudding. Try it. If your dealers will not supply you send to

Dalles Diamond Flour Mills PORTLAND, ORE.

## HERRICK REFRIGERATORS

### NEW DRY AIR SYSTEM OF CIRCULATION

Onions and milk can be put in the same refrigerator. Saves ice; no mold; never sweats; no stale odors. Pure, sweet and healthful; white spruce, enamel and opal glass lined. Such is the brief description of the Herrick Dry Air Refrigerator. It is doubtless the best seller on the American market today because it is the best refrigerator. It is a long step in advance of the usual ice box that is turned out and called a refrigerator, while the price is by far the most reasonable quality considered. "An examination of our refrigerators will convince even the most skeptical of their merit in workmanship, material, finish and high efficiency. A trial will

prove the value of our principle economical and highly sanitary features," said J. J. Kaddery, this morning. "Owing to our perfected system, made up of open center draft pans, air ducts and other scientific construction, our refrigerators have a cold, dry air circulation, which keeps the interior dry, sweet and clean, and the articles stored highly sanitary. "We had a choice in selecting refrigerators," continued J. J. Kaddery, as he sat in his salesrooms at 126 First street, next door to the depot of the Portland Railway, Light & Power company, "and we selected the best, the best looking and the most economical. All we ask is a call from all interested parties."

## Sweet Juicy Roasts

Such as cut by us are always far superior and more nutritious than those bought elsewhere. All our meats are fresh and wholesome, and your Sunday dinner will be made more delicious and appetizing when you eat our meats, because we make a specialty of fresh high-grade meats and know how to cut them to make them more palatable.

## FREE Pictorial Royal Bakery Adv. No. IX. FREE

Are you clipping this series of advertisements? Remember the beautiful Royal Cook Book—illustrated and full of new recipes—that will be given every woman who saves the entire series of 13, one appearing each Friday.

**"TABLE QUEEN" BREAD IS MOLDED BY MACHINERY**  
TABLE QUEEN BREAD Divides and weighs our good "Table Queen." There's little handling of bread from dough to pan. As made by the Royal Bakery plan. "This bread," say all, "fairly melts in the mouth; No one could beat it, West, East, North or South!"  
All Grocers.  
TABLE QUEEN'S "DOUGH DIVIDER" focused the interest of all bakers when it first reached Portland; many people crowded about to see this wonderful machine—the only one in the northwest—that divides and moulds the dough into symmetrical loaves, all weighing exactly the same to the fraction of an ounce—2,400 loaves moulded each hour! We are pleased to show you its picture today, giving you a fair idea of the cleanly, scientific way in which our experts are assisted by the greatest mechanical inventions to make this perfect "TABLE QUEEN" bread for your use. Your grocer can readily get it for you—insist that he deliver what you order, and look for the word "ROYAL" in the bottom of each loaf.  
TABLE QUEEN BREAD Look for "ROYAL" in bottom of loaf.  
Lemon Syrup for Lemon Tea. Every One Ought to Have.  
ROYAL RECIPE NO. 3—2 1/2 lbs. sugar, 1 lb. butter, 3 eggs, lemon flavoring, 2 1/2 lbs. flour, 1/2 tsp. ammonia. Cream the sugar and butter, add the eggs and flavoring and mix in the flour sifted together with the ammonia. Knead well. Roll thin and cut with biscuit cutter; placed on slightly greased baking sheets and bake in a slow oven.

Home Series No. 3  
**Bridget, the cook, who's always jolly, Says ill health's from thoughtless folly. "My mistress and all the children," says she, "Are healthy and happy as they can be. I make it my business to order their meat, And follow this tip for the food they eat—**

## "MEATS GOVERNMENT INSPECTED ARE NEVER INFECTED"

Yes, and if Bridget were in her own home, cooking for her husband, she could afford to give him the same pure, Government-inspected meats, because it costs not a cent more than that which is not inspected. All our meats carry the Government stamp, which means that we have complied absolutely with the United States Meat Inspection and Pure Food laws—that our meats are fresh, pure, clean and nutritious—meats to rely on the year round. To secure them for your own table you have only to insist that your dealer bring your Government-inspected meats. Take an interest in your family's welfare to this practical extent. And for tasty summer breakfasts, use Columbia brand bacon—sweet, appetizing, home-grown, home-cured. Union Meat Company.
