WEATHER REPORT.

The barometer is relatively low between the Rocky mountains and the Mississippi river, and shallow low pressure areas are central over Kannas and Montana respectively. The barometer is rising in the north Pacific atates, and a weak high pressure area extends from the lake region south to Florida. Light rains have occurred at scattered places in all the northern states west of the Mississippi river, and light rains also fallen in New York and New England. Nearly normal temperatures prevail on the Pacific alopa, and except in Nevada, where it is much cooler, the changes since yesterday have been small and unimportant.

The indications are for fair and warmer weather in this district Saturday.

Senator's Boom Has Hall Marks of Executive Favor and Is to Be Counted.

WON FIRST POINT IN ANTI-TRUST CAMPAIGN

Six Live Candidates for Highest Office in United States Are in Field and Situation in Republican Politics Is Becoming Badly Mixed.

(Washington Bureau of The Journal.) Washington, June 7.—Philander C. Knox's presidential boom which the Pennsylvania state Republican convention has launched marks the entrance into the national campaign of a factor which must be reckoned with in figuring on the possible outcomes. Although it was announced a few weeks ago that the president would frown on any favorits son booms excepting that of Secreite son booms excepting that of Secretary Tatt in Ohio, it has transpired
that Senator Knox's boom now has the
hall mark of presidential favor on it,
and goes forth into the country to take
its place among the substantialities.
It is not to be expected that the Knox
boomers will succeed in landing their
man without some struggling with immensely powerful opponents, for they
will advance the theory that he has
been employed by trust corporations,
and is too close to the steel trust in
his political relations.

Ener Won Point

Knox Won Point, It will be difficult on the other hand for the ultra-anti-Knox people to maintain their ground in the face of the contention that Senator Knox as attorney-general won the Northern Securities merger case, thus gaining the first point for the president in his anti-corporation campaign.

Still further to mix the situation, the LaFellette becomers have begun in dead earnest to bring their man to the front, and seem to be determined to take him into the coming national convention as a candidate. The LaFellete supporters will advance the theory that he was the

revelt forces to take up.

There will be an element of antagonism for the Taft candidacy inasmuch as the LaFoliette supporters will allege that Secretary Taft stands for no distinctive theory of economics, and has not been sponsor for any particular measure, so that the country must take him on trust from his chief manager, the president.

is at least division of sentiment on the question.

That Secretary Taft today is the atrongest candidate before the people by reason of the president's support, all concede; but some question his ability to hold his present strength, when the favorite son booms get into full swing in Wisconsin for LaFollette, New York for Hughes, Illinois for Cannon and Indiana for Fairbanks.

But that both Knox and LaFollette will be in the game, seems now to be assured, giving six real candidates for the Republican nomination before the people.

Experienced guessers here are beginning to grow reticent on the situation. They are not disposed to do much guessing just now,

KESTER ON STAND IN

(Special Dispatch to The Journal.) Moscow, Idaho, June 7.—Testifying in the land fraud cases, Jay Woodworth, quest, to her timber claim, conveying it to Mrs. Dwyer, wife of one of the defendants in the present conspiracy trial. The effort of the defense to show why J. M. Molloy was dismissed from the Lewiston land office was defeated by the courts sustaining the district atterney's objection. Ruick threatened to show why Molloy was dismissed, and the defense desisted.

The effort of the defense to show

he defense desisted.
The effort of the defense to show

that the 15 contests initiated by Dwyer were not against bona fide settlers was also ruled out.

Mrs. Dwyer testified for her husband. George H. Kester, one, of the defendants, fiatly denied anything incriminating. On cross-examination it was elicited from him that the fact of Dwyer's not holding any lands, of which the defense has undertaken to make much, was explainable from Dwyer's being insolvent, he doing business in his wite's name. Kester denied ownership of timber lands, even of three claims, transfers of which were recorded in his name in Shoshone county. He denied having asked any entryman to take land to transfer it to him, but in nearly all cases as to which entrymen have testified against him it has been shown that the claims eventually came to Kester.

KILLINGSWORTH AUTO RIDE

was published during the Lewis & Clark Exposition, 1905, showing the doom of the "calamity howlers," as the wheels of progress passed over their bodies, crushing them to NOTHINGNESS. A number of these SUPPOSED wise men prophesied a stoppage in the growth of Portland—that a BOOM was on, that values were

This class of men have always had my sympathy, from the fact of their impaired mental vision. This class does not only live in Portland. You will find them in New York, Chicago, and all large commercial centers and so it will ever be. They are a class of men commercial centers and so it will ever be. They are a class of men to be greatly pitied; especially is it true in regard to those located in Portland, for they fail to grasp the FACT of Portland's matchless location, where fresh water, ocean and rail meet, where three states deposit all their wealth at her docks. Seemingly they were afraid to allow the thinking world to visit us and to enjoy for a short period our magnificent climate, our scenery, for grandeur and beauty unsurpassed on EARTH, little dreaming that this attractive city with its roses, hidden as well as revealed treasures, would not induce them its roses, hidden as well as revealed treasures, would not induce them to build their homes here, as well as to populate the entire State of Oregon.

I never had a doubt but that the Lewis & Clark fair would be the dawn of the beginning of development. For nowhere on Earth do the stars shine brighter, or the sun shine loveller, or the rainbow of promise with greater brilliancy than it does on Portland, Oregon, the coming New York of the Pacific.

And it affords me pleasure at this time, after more than 20 years a resident of Portland, that I can now offer the public the best investment that I have ever offered in my 20 years' experience.

Speculators, Attention! Best bargain ever offered in Portland. Acreage between the rivers adjoining the O. R. & N. Co.'s terminal and Swift & Co.'s property. Become wise by carefully investigating this extraordinary bargain. Only a few acres left. Each acre a fortune. Price, \$1,000.
