## LARGE AUDIENCE WAS WELL PLEASED

### Pupils of St. Francis Academy Won Applause in "Elizabeth of Thuringia."

The play, "Elizabeth of Thuringia," presented at the Empire theatre last night by the pupils of St. Francis academy, was well received by a large audience. The success of the event was even much better than anticipated by the sisters. Everone expressed satisfaction and surprise at the talent displayed by those who took leading parts. All deserve mention for the work performed, but the ones having more prominent parts were of course more noticeable. Johnnie Urcuhart as the Castellan did well and the dignity of the empress, Miss Dorothy Hawkins, was favorably commented upon.

Miss Ethel Crab in the leading role of Elizabeth carried her part exceedingly well. Her rendition of the part was considered quite well performed for the short time in which the entertainment was under preparation. Miss Nellie Daly as Sophia also deserves special mention. The two boys, M. Early and M. Phelan, made a hit with the audience because of their size and good work.

The closing exercises of the academy will be held Wednesday next. There was the observance of the annual entertainment given by pupils and graduates of the school.

## DR. VAN TASSELL LEAVES HOSPITAL

### Physician Whose Mind Was Clouded by Thug's Blow Departs for Berkeley Home.

Dr. F. H. Van Tassel, of Berkeley, California, whose strange case of loss of memory has attracted wide attention, left St. Vincent's hospital at 4 o'clock yesterday afternoon in the company of his brother-in-law, D. W. Burns. He was his intention to start for home this morning. Yesterday Dr. Van Tassel said:

"I am feeling nearly all right now. Things are rapidly clearing up in my mind as the effects of the blow wears off. I cannot speak too highly of the kindness and intelligence of Dr. Mackenzie, who understood my case and is the one more than all others who has brought me out of this trouble. And I want to thank the hospital for its excellent care. "I could not have been treated better in my own home than I have been by strangers right here in Portland. Of course I shall be mighty glad to get home again, but I regret to have to leave Portland after all it has done for me, a sick unknown stranger. I shall never forget it."

## Man Killed Was Red Wilson.

(Special Dispatch to The Journal.) Astoria, Or., June 11.—The man killed at Clifton by the overturning of the steam shovel was "Red" Wilson. He recently served a term in the penitentiary. He was a veteran of the Spanish-American war, and lost a portion of his left hand. He was awarded a pension and also received considerable back-pay.

## RAILROAD COAL OUT OF MARKET

### Northern Pacific's President Advises Public to Note Fact and Buy Elsewhere and Do It Early.

(Special Dispatch to The Journal.) Olympia, Wash., June 11.—Governor Mead today gave out for publication the following letter which he has received from Howard Elliott, president of the Northern Pacific Railway company. The letter was written at St. Paul under date of June 8:

"My Dear Governor: You will remember last winter there was considerable agitation throughout the state of Washington because there did not seem to be fuel enough to go around. "The railroad business is growing so that the amount of fuel required by the railroads is increasing all the time. The mines in which this company is interested are pretty well taxed to produce coal enough to run the trains needed in the state of Washington. Such being the case, we are going out of the commercial business as rapidly as we can and are asking people to buy fuel elsewhere.

"It occurs to me that you and other state officers could do some good by calling the attention of the people generally to the importance of making arrangements for next winter's fuel early, and that all state institutions needing fuel ought to begin now to look ahead and make arrangements for their winter's supply."

## FOREIGN COUNTRIES RAISE LIVING COST

Washington, D. C., June 11.—The department of commerce and labor is responsible for the statement that prices of necessities of life in foreign countries are advancing materially, as they are in this country. No explanation is offered, and it is not affirmed or denied whether the apparent advances as indicated by the import values marked on the goods at the ports of entry of this nation are due to change in customs conditions or to something else.

## Gillespie School of Expression.

The annual recital and commencement exercises promise to be of unusual interest. Helig theatre, Wednesday evening, June 12.

**S**TREETCAR service is one of the essential requirements for a convenient residence locality. Without this facility, no neighborhood can ever be particularly attractive, either as a place to live or invest. The transportation facilities afforded to residents in Rose City Park are unusually first class. The cars make the run to the heart of the city within 15 minutes and they run every 15 minutes. During the busy time of the morning and evening they run 10 minutes apart. Of special interest is the fact that the diagonal artery, Sandy Road, provides an airline direct to the city with very few changes of direction. When the line is completed all the way from Rose City Park to the Burnside bridge, the ride will be shorter, both in time and distance. Hence, it is safe to say that Rose City Park has as good streetcar service as any in the city, with the quick prospect of even better service than any other district. At the present time the line ends at

the beginning of the Rose City Park Hill shown in the accompanying pen and ink sketch, made on the spot. It is an ideal ride to Rose City Park—you will enjoy it. We will be pleased to accompany you at any time. This same streetcar service that makes home so convenient to the business section adds incalculably to the investment advantages of Rose City Park
