PROVE ORCHARD'S ATTEMPTS TO ASSASSINATE BRADLEY

MURDERER'S STORY OF POISON AND BOMB CORROBORATED BY WITNESSES

HAYWOOD CHEERED BY FEDERATION

Defendant Has Second Wind and Braces Up When Messages Are Received From Supporters—All Depends on Story Adams Will Tell.

Bradley Refuses to Appear as Witness for State—Tried to Conceal From Family Efforts to Slay Him—Letter From Pettibone.

By Hugh O'Neill, (Special Commissioner for the Denver Post and Oregon Journal.)

Boise, Idaho, June 14.—Man is a gregarious animal. The Western Federation of Miners is in session in Denver and men and many messages reach William D. Haywood, the master mind and directing hand of that organization, here in imprisonment, and he shows the effect.

Ten days ago his friends feared a breakdown. Today he enters court again with that springy step that reminded one of a prizefighter facing the mark. How long will this last no one knows, but his friends say that he has got his prison wind and will come through like one should do who has the blood of revolutionary steel in his veins. It was well advertised, that the Denver convention should have been in session in the house when Orchard was on the witness stand telling again to the jury that record of crime that involved the three men charged with conspiracy.

Son of Quaker Parents.—Orchard, son of Quaker parents, is in the penitentiary, the defense claims an "honored guest," hopeful for the future. "Squire" Adams, son of a Quaker, guerrilla of civil war days, his partner in crime, is downstairs in the county jail, an enigma to prosecution and defense, making no pretense to religion and, although several nooses dangle about his head, neither claiming religion nor caring for a man's freedom whether Haywood hangs or escapes. Mrs. Steve Adams will be the final dictator whether or not the bullet-headed, hooded terror of Colorado's mining camps shall appear for the defendant. He is evidently danger blind.

Scene in San Francisco.—The scene has shifted for the day from Colorado to San Francisco. With a sense of the dramatic possibilities, which the defense fails to expedite, the prosecution picked on the Bradley poisoned milk episode as the one to follow the Orchard revelation. And the testimony was presented with a deftness that belated could not have bettered.

Housemaid, dairymaid, chemist, jolly Swiss groceryman, redoubt of the city by the golden gate, appeared and disappeared and Borah, saying of every word, brought out the terrible story with (Continued on Page Two.)

DIVORCED FROM ANARCHIST

Nellie E. Briggs Informed Court Her Husband Sold Her Property to Go to Mexico to Join Red Colony—Seven Others Secure Freedom.

That her husband was an anarchist and sold her property in order to go to Mexico and join an anarchist colony at Toloban, where the remaining money was contributed to a cooperative scheme, was testified to by Mrs. Nellie E. Briggs before Judge Cleland in the circuit court this morning in seeking a divorce from George H. Briggs. The cooperative plan failed after about 18 months, said Mrs. Briggs, and there was barely enough of her money left to bring them back to Oregon. The trip to Mexico was made in the summer of 1902.

BLIND MAN CHOSEN OKLAHOMA'S SENATOR

Enid, Okla., June 14.—T. P. Gore, who has been nominated by the Democrats of Oklahoma for United States senator, which action is equivalent to election, as the new state is strongly Democratic, has been blind since he was 11 years old, when he accidentally shot his right eye out with an arrow gun. At that time he was a page in the Mississippi senate. Three years before a playmate, while in a boyish passion,

FROM A PHOTOGRAPH TAKEN THIS WEEK AT BOISE.

SAYS HIS VICTIM BROKE UP HOME

J. H. Bowlsby of North Bend Fatally Wounds Cleave Jennings at Astoria.

(Special Dispatch to The Journal.) Astoria, Or., June 14.—J. H. Bowlsby, an undertaker of North Bend, Oregon, at 6 o'clock this morning shot Cleave Jennings, aged 22, also of North Bend, through the body with a 44-caliber revolver, inflicting a wound that will prove fatal. The affair occurred on the steamer Alliance, from Portland by way of Coos Bay, while moored at the Callender dock. The bullet passed entirely through Jennings' body. He was immediately taken to the hospital and operated upon. Dr. Fulton, the hospital surgeon, states that he cannot live the day out. Bowlsby was at once arrested and taken to the county jail. He claims Jennings was the cause of his wife leaving him and coming to Astoria. Mrs. Bowlsby has two brothers living here. Bowlsby and Jennings had threatened each other, to kill on sight. The Bowlsbys have two children, a daughter of 16 and a son of 12. The daughter is a member of the North Bend High school class that is to graduate this evening.

NEMESIS DOGS GORDON'S STEPS

Bertha Lerch Arrested With Wealthy Coos Bay Lumberman and Is Fined.

E. S. Gordon, the wealthy timberman from Coos county, and Bertha E. Lerch, who is said to have lured the old man almost to his financial destruction, were arrested on the charge of drunkenness at an early hour this morning and lodged at police headquarters. They were taken in custody in the vicinity of Sixth and Everett streets.

In police court this morning Gordon himself was permitted to depart without the formality of a trial. The woman, however, was held, found guilty and fined \$5. Gordon claims that he is relentlessly pursued by the woman, from whom he is unable to escape. Those who have followed the strange case, however, declare that he is still madly infatuated with her. Recently Gordon brought suit in Oregon City to quiet title to his property interests, alleging that she interfered with his business by appearing before prospective purchasers and asserting her claims to an interest in the property. She once procured a "dummy" whom she married at Vancouver, Washington, under the name of E. S. Gordon. The woman is well remembered in Portland, for she has created numerous sensations here. At one time she was arrested at the Portland hotel, where what was said to have been a complete counterfeiting outfit was found among her possessions. The pair were arrested by Patrolman Evans last night at the Mount Hood hotel, Sixth and Everett streets.

NO POWER TO CLOSE UP SALOONS

Hotel Men Get Opinion From City Attorney McNary That Their Bars May Be Kept Open Entire Day on Sunday.

Provision in the Charter Declares That Law Governing County Does Not Apply to the Dispensation of Liquor Within the City.

Portland hotel men have asked the opinion of City Attorney McNary regarding the application of the Sunday closing law to Portland and the city attorney has stated in a letter to them that his opinion is that the state law does not apply to the city of Portland. This request and the opinion of the city attorney adverse to the action of District Attorney Manning seems to indicate that the hotel men will make a test case of the law Sunday next by refusing to comply with Mr. Manning's injunction against serving wine or liquors in the dining-rooms. The management of the Imperial hotel and of the Oregon have taken the stand that they will obey the law as interpreted by Mr. Manning and will make no attempt to serve liquor on Sunday. It is thought, however, that either the Portland, the Federal or the Bellevue will continue their present policy and take the question into the courts. The letter written by the city attorney and the answer of the city attorney are as follows: Portland, Or., June 13, L. A. McNary, City Attorney, Portland, Or.—Dear Sir: Through the columns of the daily press, we have recently been advised that John Manning, district attorney of Multnomah county, has issued an order closing all places wherein liquor is sold on Sunday. We note that Mr. Manning quotes a certain section of the law of this state.

"We have gone to considerable trouble to investigate this matter and find that the present city charter was enacted by a vote of the electors of the city of Portland in June, 1902, and on page 28, paragraph No. 48 of this charter, appears the following: "No provision of the law concerning the sale or disposition of any spirituous, vinous, fermented or malted liquors in Multnomah county, shall apply to the sale or disposition of same in the city of Portland." "We therefore ask your opinion as to whether the district attorney has power to close the drinking places of this city on Sunday as he has ordered done. We are not specifically engaged in the sale of liquors, but the hotel business, and we are merely handling liquors as a necessary adjunct to our business. We wish to abide thoroughly by the provisions of the law governing this matter, but we do not wish to deny refreshment to our guests unless the law so provides."

"H. C. BOWERS, IMPERIAL HOTEL CO., HOTEL OREGON, "M. C. DICKINSON, Mgr. HOTEL BELVEDERE, "Theo. Kruse, Proprietor, HOTEL PERKINS, "By Chas. McGrath." Mr. McNary replied as follows: "Dear Sir: I am in receipt of your letter dated June 13, in which you quote from the charter of the city of Portland on the subject of the law applicable to the sale or disposition of liquors, and ask whether or not the officials of Multnomah county have (Continued on Page Two.)

MRS. STEVE ADAMS ON THE LEFT, MRS. PETTIBONE ON RIGHT.

CALLS BERGER CAPITAL'S ALLY

John O'Neill Declares That Wearing Red Necktie Will Not Aid Socialists.

(Journal Special Service.) Denver, June 14.—The miners' convention listened to the opening battle between the two wings of Socialists. The indications are that the Socialists are in the minority and that their faction will withdraw and that the Industrial Workers of the World. Delegates John O'Neill, in his report denounced Daniel De Leon as a "liar," "a stung serpent" and an "ally of capitalism" in reporting his answer to the charge that Victor Berger of Milwaukee had conspired to oust De Leon from the Industrial Workers of the World. O'Neill said that "wearing a red necktie and shouting I'm a revolutionist will never drive the capitalists to the cyclone cellar or throw off the bondage of slavery."

Organizer Petriell of the Iron mines of Minnesota reported inhuman conditions there.

HONORE PALMER JOINED BY FAMILY

Mrs. Palmer and Infant Attended by Retinue of Servants Arrive in City.

Mrs. Honore Palmer of Chicago, infant child, maid and five servants, together with 25 trunks, odds of hand luggage and necessary paraphernalia for housekeeping, are at the Portland hotel, where they were met by Mr. Palmer. The party will leave in a day or two for Eugene, where they have taken the E. C. Smith residence for the summer. Mr. Palmer is the wealthy son of the late Potter Palmer of Chicago. He has come into the Oregon country in the past six months after carefully looking over Seattle and surrounding territory and decided to engage in the timber industry. To that effect he has set up an office at Eugene, is negotiating for several hundred million feet of Oregon lumber, and has laid out plans for a model city that promises to outclass anything in the model city line ever turned out by the Pullmans, Cudahys and other wealthy Chicagoans who were looking for a place to spend money. (Continued on Page Two.)

FIVE MILLION ROSES NEEDED

Fiesta Parade Will Be at Least Two Miles Long and Neighboring Towns Are Asked to Help Supply Gardens for Decorating Automobiles and Floats.

For once in her existence Portland is short of roses. It is estimated by George L. Hutchins, manager of the rose show and fiesta, that at least 5,000,000 roses are needed and that 5,000,000 could be used if they could be obtained. The plans of the fiesta management can hardly keep up with the demand for roses, especially in the rose parade on Friday. The most that was hoped for a week ago was a column two miles long, today enough entries of rose decorated floats, carriages and automobiles have been made, even from cities outside of Portland, to make a solid double column, two abreast, over two miles long. To the surprise of the fiesta people entries have been made from Tacoma, Seattle and one from as far away as San Francisco. But the demand from these enthusiastic friends from afar is for flowers. "Can Portland furnish us the roses?" they all ask, as it is not practical to ship the floats and automobiles decorated beforehand. Every rose within a hundred miles of (Continued on Page Eight.)

TELEGRAPHERS READY TO STRIKE AT ONCE

(Journal Special Service.) New York, June 14.—The National Civic Federation's effort to bring about a conference between the telegraph companies and the complaining operators having failed, President Samuel J. Small of the Commercial Telegraphers' union of America has wired a message to 135 subordinate unions advising them to prepare for a strike. The locals in San Francisco, Houston and Chicago have sent replies urging immediate action and stating that they were ready to strike at a moment's notice. Jacob Schiff, the only director of the Western Union who responded to the Civic Federation's plea for a conference, said there was nothing to arbitrate. President Small and the executive committee have issued a statement saying they have reason to believe the Western Union and Postal have continued to fight the union as well as to increase rates and curtail the number of branches offered in large cities. "The treatment accorded the employees of both companies in their large offices is brutal," they assert.

CARRIERS WILL TAKE CENSUS

Ex-Senator Mulkey Agitating Move for Postal Men to Learn Population.

A letter carriers' census of the population of Portland is being agitated by a number of Portland business men and in all probability will be undertaken by Postmaster Minto if he finds that the department will not place objections in the way of the movement and if it does not interfere with the delivery service of the city. That Portland has a much larger population than is shown by the official census is conceded on every hand. It is also common talk among the postal employees that the Portland carriers individually are delivering mail to a larger number of people than is the case in any other city in the United States. It is being argued, therefore, that such a census would serve the two-fold purpose of more correctly ascertaining the population of Portland and at the same time showing that the Portland carrier force is doing more work than that of any other city. Ex-senator Frederick W. Mulkey is an enthusiastic promoter of the carriers' census. He calls up the experience of Tacoma, where the carriers compiled an accurate and complete census of that city in four weeks' time, discovering that the real population of the city was something like 1,000 more than the fig-

Ex-Senator F. W. Mulkey.

Plan Was Recently Carried Out in Tacoma With Satisfactory Results.

expenses of the work, if there should be extra expense incurred. Postmaster Minto states that he has already been considering the plan for some time and that if he finds it feasible and not contrary to the policy of the department he will be able to cooperate in the work and to direct it. It is the intention of Mr. Minto to take the question up with the office at Tacoma and find from there the method pursued by that office in taking the census of that city. He will ask the Tacoma postmaster all of the details of the census-taking, what the expense was, how the carriers proceeded, whether or not it interfered in any way with the regular discharge of their duties and whether the sanction of the department at Washington was secured. If the result of his inquiries is favorable he will in all probability order that the Portland carriers begin the compilation of the city's population. It is believed the carriers would be able to gather a very fair and conservative estimate of the city's population. They cover every portion of the city and would be able to note practically every person resident here. It is estimated that the work could be done within two months at the outside and that once it was completed the result would be more nearly the real population of the city than any previous cen-
