NORTHERN PACIFIC
 TO SELL BURLINGTON

(Journal Special Service.)
 New York, June 14.—It is understood on good authority that the Hill interests are planning a big move. The report is to the effect that the equity of the Northern Pacific in the Chicago, Burlington & Quincy is to be sold to the Great Northern, the former to receive \$35,000,000 in the deal. The bond issue guaranteed by the stock will stand but the Northern Pacific will have to pay the interest if the Great Northern defaults.

THE HIGHEST GRADES OF COFFEE ROASTED IN THE NORTH-WEST AT YOUR GROCERS.

EDWARDS' DEPENDABLE COFFEE

Mable the School Girl, so Happy and Gay, Says she is always Most Healthy this way, "For Mother is Careful to get Pure Meat, And we at Our House have the Best to Eat. Of All I've Learned, in my Own Estimation, One thing I'll remember Throughout Vacation—

MEATS GOVERNMENT INSPECTED ARE NEVER INFECTED"

Mable is also very fond of hot biscuit, for her mother uses only pure, kettle-rendered "Columbia Brand" Lard, which makes them light, delicious and wholesome. Try our Home-Grown, Home-Cured, Government-Inspected "Columbia Brand" Hams and Bacon. "The Best in the West." Union Meat Company.

The Herrick Dry Air System of Refrigerators

SICKNESS TRACED TO UNSANITARY CONDITIONS

"A marvelous growth each year in the output of the Herrick Refrigerator is perhaps the best evidence we can give of the satisfactory results received by our customers," said J. J. Kaddery, when seen in his salesrooms at 130 First street, alongside the depot of the Portland Railway, Light & Power company.

"By means of our perfected system made up of open center draft pans, air ducts, and other scientific construction, we gain a point which is indeed one of the most important features of the refrigerator. We refer to the circulation. Without circulation the refrigerator would be no better than a common ice box. Without circulation the interior of the refrigerator would be damp and mouldy and the articles would spoil in a very short time. Our system is constructed on thorough scientific principles. The walls are always dry, sweet and clean, and after several years' use, there is positively no mould to be found and no foul smell so common in refrigerators where this circulation is sluggish. The importance of a sanitary receptacle for the storage of perishable goods is recognized by all since it has been found that much sickness is traced directly to unsanitary conditions in connection with the foods, etc., taken into the system. The circulation of our refrigerator is a strong, cold, dry air current which is forced through every square inch of the refrigerator so as to leave no dead air in any part. The construction is such that the air is forced through all the compartments, removing all odors and gases arising from the articles stored and delivering them through a process of nature entirely outside of the refrigerator. In our refrigerator the walls are always dry, sweet and clean, which condition is understood to be absolutely necessary when we use the spruce lining."

AGED SHAKERS BURN TO DEATH IN OHIO

New Haven, O., June 14.—Mary Migints, Julia Bear and Mrs. Sturr, aged and infirm inmates, were burned to death this morning in a fire in a building in the Shaker community. All the large buildings of the community were burned.

Jamaica Earthquake.
 (Journal Special Service.)
 Kingston, Jamaica, June 14.—A severe earthquake early yesterday shook the city. Hundreds left their beds in a panic.

—Stops itching instantly. Cures piles, eczema, salt rheum, tetter, itch, hives, herpes, scabies.—Doan's Ointment. At any drug store.
