

# SCHEME TO FREE LAND OF TYRANT

### Assassination of General Kotlaroff Part of Plot for the Death of the Czar and the Establishment of an Independent Russia.

### Premier Stolypin Demands Arrest of Sixteen Douma Members and Expulsion of Fifty-Five Radicals From Lower House.

(Journal Special Service.)  
St. Petersburg, June 14.—Plots to overthrow the government, assassinate the czar and establish a democratic republic were revealed this morning by Premier Stolypin, following the early-morning assassination of Colonel Kotlaroff, deputy commissioner of St. Petersburg.

# COMMISSION IS WORKING HARD

### State Railroad Board Has Numerous Complaints to Investigate.

(Special Dispatch to The Journal.)  
Salem, Or., June 14.—Hearing on the discriminatory rates maintained by the Coos Bay-Roseburg & Eastern Railway & Navigation company will be arranged after the arrival of the Breakwater at Coos Bay on her first trip down. Complaint was filed by the Schults-Davis company of North Bend some weeks ago. Baker City has need of the state railway commission. Such is the tenor of a letter received here from N. C. Haskell, secretary of the Citizens' league. The communication says: "Data is being prepared for presentation to the commission, and the league would like to know how to proceed in the matter."  
Secretary Goddard informed the league that representations from the league would be given immediate and careful attention.  
There is more trouble ahead, and the Sunset Logging company desires a rehearing of the matter of tariffs on logs, alleging that the Sunset Logging company's plant is to remain shut down for several months, which causes the loss of freight to the Sunset Logging company of approximately 25,000,000 feet per year, and that the rates established by the recent order of the commission are too low, and prays for the restoration of the old rates.

# ARCHBISHOP PASSES FORTY-FIFTH YEAR

(Journal Special Service.)  
St. Louis, Mo., June 14.—Most Rev. J. J. Glennon, archbishop of St. Louis, was 45 years old today and many were the messages of congratulation received at the archiepiscopal residence from all over Missouri and Kansas, which states come under the jurisdiction of the St. Louis prelate.  
Archbishop Glennon has the distinction of being the youngest member of the Roman hierarchy in America. Born in Ireland in 1862, he received his education in Dublin and was ordained a priest in 1884. Immediately after his ordination he came to the United States and became pastor of St. Patrick's church in Kansas City. In 1896 he became coadjutor bishop of Kansas City with the right of succession. In 1903 he came to St. Louis as coadjutor to Archbishop Kain, whom he succeeded on the latter's death.

# LONGSHOREMEN LOSE STRIKE AT NEW YORK

(Journal Special Service.)  
New York, June 14.—The longshoremen's strike, which has been in progress for six weeks, was formally declared off at a meeting of the 19 branches of the Longshoremen's Union Protective society last night.  
About 12,000 strikers will apply for work today at trans-Atlantic piers. The strikers return to work at the wages they were receiving when they struck, now by being forced to give way to Puget Sound traffic and that as the road cannot handle its own business, it should not be forced to attempt to handle that of other territories.

# JOINT RATE DOOMED FOR ONE MORE YEAR

(Journal Special Service.)  
Washington, June 14.—Interstate Commerce Commissioner Prouty has expressed the belief that the joint rate paid for by the Washington millmen will not be granted this year. Commissioner Prouty believes that Portland should not be crippled any more than it has by being forced to give way to Puget Sound traffic and that as the road cannot handle its own business, it should not be forced to attempt to handle that of other territories.

# AOKI CALLED DOWN BY SECRETARY ROOT

Washington, June 14.—When Count Aoki, Japanese ambassador to the United States, left Secretary Root's office yesterday afternoon he was greatly disturbed and it is learned that the secretary gave him a very plain talking to during their conference.  
Aoki went to the secretary to make formal complaint because some small boys broke a few panes of glass in a Japanese gardener's greenhouse at Berkeley, California. Secretary Root, it is learned, was vexed at the way the Japanese have magnified trivial incidents and told the ambassador as much.
