TODAY'S MARKETS

Fight Will Be Made by Portland Fish Dealers Against the Closing of Shad Fishing on the Willamette Slough.

SHAD FISHING TO BE STOPPED

Deputy Warden Mack Will Notify Fishers of Stand Taken by Van Dusen.

oday's market features: and fishing to be stopped. limon supplies very scarce, gg market is advanced. Egg market is advanced.
Poultry is slower and unchanged.
Opening canned values delayed.
Last car navel oranges arrives.
Potatoes break all former records.
Strawberry market in good shape.
Creamery butter shows good tone.

Shad Pishing to Be Stopped.

Acting under instructions received from Master Fish Warden Van Dusen. Deputy Warden Mack left down the river teday to notify all shad fishers in the Willamette slough to stop operations. Mr. Mack's instructions from the fish warden are to strictly enforce the law and confiscate all gears and nets in the Willamette river or its tributaries after today or during the closed season. The law states that it shall be unlawful to fish for salmon in the Willamette river and its tributaries between March 15 noon and April 15 noon, and between June 15 noon and November 15 noon. Gear being used by shad fishers in the Willamette slough is said to be the same as that used in catching salmon and this is strictly prohibted between the dates mentioned.

What Is a Tributary of River?

What Is a Tributary of River?

Just what is a tributary of a river is the most moted question in fishing cricles. The master fish warden contends that the Willamette slough is a tributary of the Willamette slough is a tributary of the Willamette river and that the stream is included in the general law. According to an opinion given Deputy Warden Mack by Judge McBride of St. Helens and later given publicity in a case against George Lynge for fishing without a license, the judge is quoted as saying that the Willamette slough is not only a part or tributary of the Willamette river but that the slough is in reality the Willamette river itself, as what is now called the slough was formerly the main channel of the Willamette.

Fish dealers and fishermen take the opposite view of the matter and contend that the Willamette slough is in reality a part of the Columbia river. On this basis the wholesale, fish men of this city has decided to cooperate with each other and have ordered their fishers to continue to catch shad in the slough in order to test the law, the wholesalers to pay any fine imposed on the men by the court if their view of the matter is not correct as interpreted by the higher courts.

As a result of the close season on What Is a Tributary of River?

As a result of the close season on the Willamette fish supplies in this city are very scarce with prices firmer but anchanged today. Egg Market Advanced Again.

Egg prices are advanced again today, ractically all the sales of candled Practically all the sales of candled stock along the street are now being made at 22c and one or two dealers are talking of 22½c. One local creaming is sale to be asking 24c for strictly fresh eggs but it states that it has no eggs. That, then, does not make the market. It is now confirmed that there are eastern eggs already in this market and that prices are being boosted so fast in order to allow the handlers of this outside stock to make an additional profit. Nevertheless the local egg situation could handly be firmer than at this time. Receipts, while fair, are not up to demand. Northern cities are again in the market. made at 22c and one or two dealers are talking of 22½c. One local creametry is said to be asking 24c for strictly fresh eggs but it states that it has no leggs. That then does not make the market. It is now confirmed that there are eastern eggs already in this market and that prices are being boosted so fast in order to allow the handlers of this outside stock to make an additional profit. Nevertheless the local egg situation could hardly be firmer than at this time. Receipts while fair, are not up to demand. Northern cities are again in the market.

Creamery butter market is well able to hold its own at this time because of the heavy demand, both locally and from the north, for storage purposes.

Chicken market is considerably easier owing to the heavier supplies. No

ewing to the heavier supplies. No change in values.

Dressed meats holding former values, although the tone is fractionally

Potatoes Break All Records.

Again today the potato market went into the record-breaking business. Stocks were sold along the street today in a small way as high as 3½c a pound for best stock. Some sales were made as low as 2½c. Some went at 3@3½c. Strawberry market is in very good shape. Yesterday's heavy purchases by northern people cleaned up the surplus and best berries are moved easily today at 52. This is for fancy.

What is expected to be the last car of navel oranges to arrive in this city the present season came in today. Davenport-Thompson company reported its arrival.

String beans are easier with larger arrivals from The Dalles. Best at 9@ 10c. Some at 8c.

Brief Notes of the Trade.

Brief Notes of the Trade.

Fruit jars are very slow to arrive as a result of labor conditions in the south. Opening values on canned goods are yet unannounced. In ordinary seasons they are named about May 10.

Cantaloupes show a heavy sale with the warmer weather. Price steady. Another cay due from Brawley.

Cherries are arriving in very poor condition and in many instances sacrifice prices are named by receivers in order to unload.

WHAT DEALERS SAY OF LOCAL MARKETS

By Sherk & Graham Co. The egg market has shown decided firmness during the past few days and as the price has . advanced the supplies seem to have fallen off. Most sales at the present time are being made around 21c with an occasional small lot as high as 22c.

**The potato market will take a small amount of stock at the present market until July, I consider the market for potatoes about \$2.75 and no more than \$3. A higher price than the latter is not justified by conditions. There are enough potatoes to go around and there is no need of boosting them higher."—W. H. Dryer of Dryer, Bollam & Co.

"We are not going to charge the outrageous prices now being asked in some quarters for old potatoes. I think it is a holdup game. They are not worth the money."—George Davenport of Davenport Bros.

strengthening tone. Receipts of late
have not been encouraging to the advocates of lower prices. But 194 head
came into the yards today as against
2,500 head a week ago. This is a most
romarkable falling off in arrivals for so
short a period and the trade is feeling
its effect. The recent advance made in
the price has been very easily maintained—all arrivals moving readily at
the quoted figures. For best wethers
sales are made as high as \$4.75, but
some sales of off-quality have been
made at a fractional decline from that
figure.

Mogs Holding but Will Drop. While temporarily the hog market ems well able to hold its own at \$6.75 seems well able to hold its own at \$6.75 for best stuff on account of the not over liberal arrivals, there is every indication at this time that values will drop to \$6 before so very long. A special Russian cable

Chicago says that in the southwest the weather is very hot and further rains are needed. In the south center and Caucasus region rains are falling. Arrivals at the port of Odessa. are very poor. Elsewhere they are moderate to poor.

American trade continues to receive many complaints of damage to oats by green bugs in the middle west. Samples just received from Indiana show that the plant is in bad shape.

ing the handsome vessel this afternoon, but it is believed that immense crowds will go on board Sunday.

Barress were towed alongside this afternoon and launches from shore will have to observe the strictest care in having passengers embark or disembark there. No crowding will be permitted and violators of the stringent rules will simply be ordered away from the barges and barred from returning.

The Charleston is worth a visit. She is the handsomest warship ever visiting this harbor and carries a crew of 740. Her guns are of the latest type and everything is new and up-to-date. To see the Charleston is to view the latest type of fighting machine.

The flagship arrived in the harbor at about 4 o'clock yesterday afternoon. Instead of going through the steel bridge draw the flagship was anchored directly north of the structure in 72 feet of water. She lies so near shore that the band concerts held morning and evening can be enjoyed by those who line the high river bank on the cast side. Hundreds of people occupied positions of vantage there this morning.

BAKER HAS FINE NEW TELEPHONE SYSTEM

(Special Dispatch to The Journal.) Baker City, Or., June 19.—What doubtless the finest, most complete and most modern telephone exchange on the Pacific coast is now in operation in this city, installed by the Pacific States Telephone company in its new building on First street. When the plant is in full operation

under the new plans all of the power used on the lines will be generated at the central office, thus establishing a complete central energy system with no batteries at the patron's end of the

no batteries at the patron's end of the line.

The safety devices, to guard against excessive current or lightning strokes, are considered perfect. The switchboard is large enough to accommodate a city of 50,000 inhabitants.

The Leading Specialist

I make no misleading propositions, promise no impossibilities, but perform all I promise. Fair dealing, moderate fees, faithful service and speedy cures have won for me the confidence and patronage of the afflicted everywhere.

I HAVE CURED THOUSANDS

I have no specific or cure-all preparations, but treat each case separately and scientifically according to its particular requirements, closely watching it and carefully following its symptoms with varied remedies through every stage, and stake my reputation on the result.

MY FEE

Be sure your cure is thorough. Not one of my patients has ever had a relapse after being discharged as cured, and I cure in less time than the ordinary forms of treatment require.

"Weakness" is merely a symptom of chronic inflammation in the prostrate gland, brought on by early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is therefore, a question of restoring the prostrate gland to its normal state, and this I accomplish promptly and completely without the use of internal remedies. My treatment is a local one entirely. It is original and scientific, and has been proven absolutely effective by thousands of tests. I am convinced that by no other methods can full and personnent restoration of strength and vigor be accomplished. treatment require. THE DR. TAYLOR CO.

OUR FEE

IN MOST CASES

WE CURE MEN

SEE US FIRST AND YOU WILL NOT HAVE SO MANY MEDICAL FRES TO PAY.

We are curing more men than any two specialists in Portland. Our small fee enables us to cure for less money than many selfstyled specialists ask for their worthless services. Our advice to you will be worth much in your case if you need the services of a skilled reliable specialist.

No Pay Unless Cured

If you have a disease or weakness peculiar to men your condition calls promptly for the best treatment the medical profession affords. We have long studied and thoroughly mastered infirmities of this character. Our business and professional methods are clean. While we are naturally ambitious to cure as many men as possible, yet we want to do so on a fair and square basis, with mutual confidence between physician and patient. Our object is not so much to do the work that other doctors can do, but rather to do that which they cannot do. What we solicit in particular is obstinate cases; cases which have been made worse by all kinds of interior treatment. The knowledge, skill and experience of years are at your service.

By the latest and best methods we cure to remain cured, VARICOSE OR ENOTTED VELHS, BLOOD POISON, MERVO-VITAL DEBLITY, BLADDER and KIDSET Troubles, and all associate diseases and weaknesses with their reflex complications.

We make no misleading statements, deceptive or unbusiness-like propositions to the affiliated, asither do we promise to cure them in a few days, nor offer cheap, worthless treatment in order to secure their patronage. Honest doctors of recognised ability do not resort to such methods.

We Cure Nervous Debility

This is to men who lack courage, whose nerves are shaky, whose eyes have lost the sparkle, when brains are muddled, ideas confused, sleep restless, confidence cone, spirits low and easily depressed, who are backward, hesitating, unable to venture because they are afraid of failure, who want somebody to decide for them, who are weak, run down and restless. Is is to men who have part or all of these symptoms and want new life, new energy. We especially solicit those cases in which many so-called treatments have failed, or where money has been wasted on other methods of treatment. Don't experiment when our direct method offers a certain means of ours.

COMBULTATION FREE AND INVITED—Our reputation and work are not a mushroom growth. We have been curing men for 27 years.
