

## ASSEMBLAGE WAS BRILLIANT ONE

Portland Honors Rear Admiral Swinburne and Other Officers.

ELITE OF ROSE CITY MADE UP THE GUESTS

Portland Hotel Transformed Into a Veritable Fairy Land for Occasion—Rememberance Will Long Linger in Minds of Those Who Attended.

Portland paid its respects to Rear Admiral William T. Swinburne last night with one of the most splendid receptions ever held in the Rose City. The affair was given by the Rose Fiesta and Carnival association and 2,500 invited guests attended to meet the distinguished visitor and officers of the Charleston and John Paul Jones.

The hotel was transformed into a veritable fairy land under the direction of Manager Bowers. Myriads of electric lights, Japanese lanterns, flags of the nation and many other decorations that would add to the attractiveness of the occasion were used in decorating. The hotel court was a blaze of light. The electric canopy suspended over the entrance to the hall was a feature with a great American flag studded with electric lights. Beneath the American flag was Rear Admiral Swinburne's flag.

Lovish Decorations.

In the grass plot flowers and lanterns were added for last night's reception and the entire court was artistically decorated with pretty decorations. De Caprio's band played throughout the evening and iced punch and lemonade were served to guests.

Within the decorations were on even more decorations. Large vases containing bouquets of roses were placed about the corridors and parlors, while sweet peas, carnations, bell flowers, marigolds and other flowers were scattered about in great profusion.

The American flag formed one of the chief decorations and hundreds of them from tiny pieces of the red, white and blue to others that reached from the ceiling to the floor.

In the main parlor the guests were met by General Charles F. Beebe, and Dr. Ulrich Gardner, and passed on to Lieutenant Compton, flag-lieutenant and aid to Admiral Swinburne, and officers who were in line, including Commander Beatty, Ensign Poteet, Pay Inspector Ryan, Lieutenant-Commander Nichols, Captain in Hopkin, U. S. M. C., Lieutenant White, Dr. Foster and Midshipmen Glover, Collins, Kenyon and Woodward.

While the guests were greeting the officers, the hotel orchestra played national and international airs and operas.

The guests passed from the main parlor through the reception room

out into the court where they passed

beautiful Persian rugs and carpets had been placed about the court, while brilliant Navajo blankets formed part of the decoration.

### Dainty Supper Served.

At 10 o'clock the doors of the great dining-room were thrown open and the guests were seated with a dainty supper until after midnight.

Perhaps never before has there been such a brilliant assemblage in Portland as last night. Handsome young men in uniform and many officers in gay uniforms and the evening dress of private citizens, made the occasion one of beautiful effects and its remembrance will stay long with those who were fortunate enough to attend.

The committee in charge consisted of the following: Henry C. Bowers, J. C. Alsworth, S. Mears, W. D. Wheelwright, General Charles F. Beebe, Dr. Kenneth A. J. Mackenzie and S. G. Reed.

### FLATTERING REPORTS

Come From the Properties of the Champion Group Mining Co.

The reports from the mines in northern California of the Champion Group Mining company are the most flattering in every way.

The property consists of the following mineral claims: McKinley quartz mine, Mount Shasta quartz mine, Hannah quartz mine, Teddy quartz mine, Le Clair quartz mine, New Discovery placer mine, Champion quartz mine, Port-wicket quartz mine, Electric quartz mine, Quartz Creek, Foothills quartz mine, Fairchild placer mine, together with water rights and personal property on same more fully described below.

The mine is located in Shasta County, California, about six miles in a direct line west of Yreka, California, the county seat, on one of the tributaries of the Klamath river, and situated in the Shasta River forest reservation. From the creek bottoms,

tributaries of the Klamath river, over which the mine has been developed.

Nearby, adjoining, are the Mono mine, which has just been sold for \$150,000; the Spencer mine, which has one of the largest vein producers in California; the Granite, the Boyle, the Spangler, the Hegler, the Uncle Sam and several others.

In speaking of the property yesterday A. L. Clegg, the secretary, said: "The Mono vein outcrops for 3,000 feet across the Electric Light and Champion claims. The quartz is from one to seven feet wide and vein matter between veins is in some places very wide. Very rich veins are taken from the surface of this vein in the 60s by branching. Three crosscut tunnels have been cut, No. 1 being short and giving about 20 feet long and No. 2 drift about 40 feet long has been run from this tunnel. No. 3 is 200 feet, with a drift of 200 feet. This drift has cut the top of a very rich ore shoot, as shown by the assay and running about \$24,000 to the ton."

"Our president, who is a very conservative man, is greatly enthused over recent developments on the properties of the Champion Group mining company. He is not in the market for millions than a limited number of shares for development purposes."

The managers of the company think so much of Portland and the prospects that they have opened their headquarters here in the new Couch building on Fourth street near Washington.

Above all things, don't fall into a home of Government inspected meat. There you will find the riff-raff of the Beef Trust's packing house; the odds and ends that nobody else wants. When other markets have meat which they cannot sell to their customers, they make it down to the level of the Government inspected meat to GET RIDE OF IT. You must see how care a man for Government inspected meat and all this scrap about it is the work of the Beef Trust, the concerted effort of the Big Four to drive out the small packers.
