HORNBY'S FAVORS

Are not so carelessly distributed as some people try to think. Investigate the career of any successful man and you will find that luck had very little to do with his prosperity.

You will discover that he had probably been saving a part of his income for several years, and that when an opportunity to make a good investment appeared he had the ready money to take advantage of it.

A growing bank account is the best preparation for financial success. Don't wait on DAME FORTUNE but get busy yourself and open a bank account at once. It will bring you in contact with business men and gain you their respect.

One dollar will open a savings account on which we pay 3 per cent interest compounded twice each year.
