

GOVERNMENT HELP ASKED

Pacific Coast Cities Want Uncle Sam to Carry More Freight on Panama Road to Give Better Service Between East and West.

(Special Service.)
Washington, June 28.—President Roosevelt has been asked by the commercial prisms of Seattle, Los Angeles and various other cities and towns on the Pacific slope to increase the facilities of the Panama Railroad company in order that the government might give quicker transcontinental freight service than is now provided by transcontinental railroads.

PENDLETON MERCURY HITS TOP OF TUBE

(Special Dispatch to The Journal.)
Pendleton, Or., June 28.—Yesterday was the hottest day of the year here, the thermometer registering 98 degrees. A thunderstorm last night cleared the air and it is cooler today.

GREAT GROWTH OF DISCIPLES FREES CONVICTS

No Greater Anywhere Than in Northwest—The Turner Convention.

(Special Dispatch to The Journal.)
Turner, Or., June 28.—The sessions of the Oregon Christian Missionary convention have been of a most encouraging nature thus far. The attendance is good. Interest and enthusiasm are running high.

The disciples of Christ are making a remarkable growth. From a mere handful 100 years ago they have grown until they now number 1,300,000.

The huge tabernacle at Turner was erected in 1837. At that time the city had only 40 congregations in this state with a membership of 2,694. They now have 97 congregations, with a total membership of 19,560. The total number of accessions in this state for the year is 1,810. About \$5,000 was raised for state missions. The convention closes its year of work out of debt and with money in the treasury.

PEACOCK WATER CASE CONTINUED

(Special Dispatch to The Journal.)
Milton, Or., June 28.—The case of the Peacock Mill company vs. Milton City et al., which is pending in the circuit court of Umatilla county, has been continued to July 8, on account of the inability of Judge Halley to be here.

FISHERMEN'S NARROW ESCAPE

(Special Dispatch to The Journal.)
Astoria, Or., June 28.—A fishboat of the Union Cooperative Fishermen's Packing company, manned by Captain Everett Munton and his boat puller, Samuel Patula, capsized in the breakers two miles south of Fort Canby. As several fishing boats were in the vicinity the men were rescued, though with great difficulty. The life-saving crew of Fort Canby were quickly on the scene and towed the boat and net ashore.

NEW LEVEE ORDERED BY PENDLETON CITY

(Special Dispatch to The Journal.)
Pendleton, Or., June 28.—The city council has authorized the immediate hire of an engineer to make arrangements for extending and strengthening the levee on the Umatilla river at an expense of several thousand dollars.

GIRL SENDS WIRELESS CALL FOR AID FROM FIRE TUGS

(Special Dispatch to The Journal.)
Bausalito, Cal., June 28.—A wireless message sent by a young woman prevented the destruction of many fine homes here yesterday. Fire broke out in the home of W. L. Beattie on the hill about 1 o'clock in the afternoon. The flames spread quickly to the home of A. A. Watkins of the San Francisco board of trade. Before the fire department arrived both houses were completely destroyed. The loss is estimated at \$20,000.

No Matter What You Build—

Whether you use brick, stone or wood—you'll need nails, bolts, screws and, of course, tools. Builders, owners, contractors, carpenters, masons and other mechanics will benefit by making an investigation of our builders' hardware and asking for quotations. What we haven't in stock at the moment we can get.

Danderine

BEAUTIFUL HAIR AT SMALL COST.

WITHIN the last decade great and rapid strides have been made in Materia Medica. Many diseases that were considered incurable fifteen years ago are now cured in a few days, and in many cases prevented altogether. The scientists of late years have been delving for the cause, the foundation, the reason and the starting point of disease, fully realizing that the actual and true cause must be ascertained before the remedy can be located.

MISS J. CARROLL
3907 Irving Ave., Chicago

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment, and when baldness occurs the scalp has simply lost all of its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions).

The natural and logical thing to do in either case is, feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Dr. Knowlton's DANDERINE

is the only remedy for the hair ever discovered that is identical with the natural hair foods or liquids of the scalp. It feeds and nourishes the hair and does all the work originally carried on by the natural nutrients or life-giving juices generated by the scalp itself. It penetrates the pores of the scalp quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One twenty-five-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself. Now on sale at every drug and toilet store in the land. Three sizes, 25c, 50c and \$1.00.

FREE To show how quickly Danderine acts we will send a large sample free by return mail to any one who sends this advertisement to the Knowlton Danderine Co., Chicago, with their name and address and 10 cents in silver or stamps to pay postage.

SCORCHERS RIDE IN FLAMING CAR

California Autoists Rush Over Country Roads in a Blazing Chug Wagon.

(Special Dispatch to The Journal.)
Fresno, Cal., June 28.—Farmers living in the vicinity of Tipton, some 30 miles south of here, were excited last night by the sight of a large touring car all ablaze and two occupants gripping the machine and appearing almost unconscious of their peril. Al Ehemann, formerly of an automobile firm of this city, was driving the car, and had with him Charles Furber, editor of the Pacific Motor Magazine.

The car was a big touring car, going from Los Angeles to Fresno. The car left Bakersfield yesterday afternoon, and a few miles south of Tipton the road lay through a lot of straw. It is thought some of the straw collected in the muffler and heat from the engine caused ignition.

DALLAS' TWO DAYS' FOURTH OF JULY

(Special Dispatch to The Journal.)
Dallas, Or., June 28.—The Fourth of July executive committee and the various sub-committees are fast getting things in readiness for the big two days celebration to be held here on July 3 and 4. Incandescent electric lights will be strung on the principal streets, and the two nights of celebration will take on a carnival appearance.

LUCKEY'S INVENTIONS TO GO ON MARKET

(Special Dispatch to The Journal.)
Hood River, Or., June 28.—The nutlock, which was recently invented by J. J. Luckey of Hood River, will be manufactured by a company organized here yesterday with a capital stock of \$200,000, at a par value of \$1 per share. Articles of incorporation have been filed, naming the following as officers and directors: President, J. J. Luckey; vice-president, R. Reed; treasurer, R. W. Pratt of the Hood River Banking & Trust company; secretary, W. L. Clark; directors, W. L. Clark, H. H. Osborne, William Vogt, R. Reed and L. Reed. The company will also manufacture a ball-bearing hub, an invention of Mr. Luckey's.
