

# MARSHAL SHOTS FIGHTING FINN

Prisoner Makes a Vicious Attack on Officer Ellis at Jail Door.

(Special Dispatch to The Journal.)  
 Kennewick, Wash., July 1.—Night Marshal Ellis was compelled in self defense yesterday to shoot a prisoner who had made a vicious attack on him with a dirk. The prisoner, a Finnlander, had been arrested for creating a disturbance on the streets. He went peacefully to the door of the jail and was being searched when he suddenly drew a dirk and struck the marshal several times, slashing his clothing to ribbons. His thrusts were glancing, however, and did no serious damage.  
 The Finnlander followed up the attack with a heavy piece of two-by-four timber and the marshal to protect himself had to shoot. The bullet entered the prisoner's breast and came out at his neck, narrowly missing the spine. He is in a critical condition.  
 This is the first shooting scrape since last November, when four men lost their lives in a battle near the Northern Pacific bridge.

# OLYMPIA JUDGE'S RULES ON BUBBLES

Justice Root Hands Down Decision and Tells How Cars Should Be Run.

(Journal Special Service.)  
 Olympia, July 1.—In the case of A. G. Lampe, respondent, vs. Anthony Jacobson, appellant, from King county, the supreme court today laid down a rule for the guidance of automobiles in the cities of this state.  
 Lampe was run down by Jacobson's automobile while crossing First avenue at the corner of Marion street in Seattle, brought suit for damages for personal injuries, and was awarded judgment for \$1,000. The evidence in the case was very conflicting, but several witnesses corroborated the story of the plaintiff that the automobile gave no warning blast before it struck him. The supreme court affirms the judgment of the lower court. The opinion of the court is written by Justice Root, who says:

"The operation of an automobile upon the crowded streets of a city necessitates exceeding carefulness on the part of the driver. Moving quietly as it does, without the noise which accompanies the movement of a streetcar or other ordinary heavy vehicle, it is necessary that caution should be continuously exercised to avoid collision with pedestrians, unwarned of its approach. The speed should be limited, warnings of approach given, and skill and care in its management so exercised as to anticipate such collisions as the nature of the machine and the locality might suggest as liable to occur in the absence of such precautions. The pedestrian, also, must use such care as an ordinarily prudent man would use under like circumstances."

**Explosive Fourth at Hermiston.**  
 (Special Dispatch to The Journal.)  
 Hermiston, Or., July 1.—A big celebration will be held at the dam on the Umatilla project, a few miles from Hermiston, on July 4. At noon the largest blast ever heard in Umatilla county will be struck off, when a high cliff of 8,000 yards of earth will be thrown over. All the employes along the project and many from Umatilla county people will be in attendance.

# CATHERINE COUNTISS WEDS MANAGER

Miss Catherine Countiss, formerly leading woman of the Columbia and Baker stock companies of this city, was married at Mt. Vernon, New York, yesterday to E. D. Price, a theatrical manager of prominence. The wedding was a complete surprise to friends of both the bride and groom.

They left New York in an automobile and, accompanied by W. H. Clendennen, treasurer of the New York theatre, and another friend, went to Mt. Vernon, where arrangements for the wedding had been planned for a week. Companions on the trip were not aware of the

contemplated wedding until the car stopped in front of a church in Mt. Vernon.  
 The romance dates from the actors' fund fair last month, where Miss Countiss was in charge of the racing wheel. Price patronized the place and lost his heart.

# TARIFF LEAGUE TO FIGHT CONCESSIONS

Test Suits Are to Be Brought to Test the President's Power in the Matter.

(Journal Special Service.)  
 Washington, July 1.—Aroused by the concessions granted Germany in the new trade convention with the United States, which becomes effective today, the American Protective Tariff league is

laying plans for an active campaign against the enactment of a permanent treaty while the changes made in the administrative features of the customs regulations by Secretary Root will be attacked in both congress and the federal courts.  
 The plan of campaign, so far as it has been developed up to the present time, calls for bringing test suits in the United States courts to determine whether the president has the right to alter the customs administrative act, a creation of congress, without first having received the assent of the congress. The chief allegation against the president is that he has, in the German agreement, provided that "export" prices shall rule for purposes of duty, thereby modifying the requirements of the customs administrative act, which require "foreign market values" to rule in the

levying of duties. Inasmuch as export values are lower than the foreign market values, it is expected that American manufacturers in many lines will interpose objections to the continuance of the treaty beyond the limited time specified in the treaty.  
**Teachers in Union Schools.**  
 (Special Dispatch to The Journal.)  
 Union, Or., July 1.—The following teachers have been employed for the ensuing year in the Union schools: Principal, Omen Bishop; eighth grade, Miss Mary E. Buxton, Miss Effie Billings, Miss Pearl Leigh, Miss Lelia Gillilan, Mrs. Nora Webb, Miss Francis Heritage, Miss Hannah Reeves, Miss Elma Thompson, Miss Olive Jones. Two positions are yet to be filled.

# NO MORE SPECIAL DELIVERY STAMPS

From Now on Ten Cents in Any Kind of Stamps Sufficient.

(Journal Special Service.)  
 Washington, July 1.—By virtue of a new postoffice regulation put into effect today the special delivery stamp, with its familiar but unnatural picture of a fleet-footed messenger boy on the run, is relegated to the list of obsolete institutions, useful in their day but now no longer needed.  
 From this date it will no longer be necessary to buy a special stamp to insure special delivery. Ten cents in stamps of any denomination, in addition to the ordinary postage, is all that will be necessary to insure the transmission of letters and packages for special delivery. The change is made for the convenience of the public. Persons desiring to mail a special delivery letter oftentimes found it impossible to buy the special delivery stamps at stores and other places where the ordinary postage stamps were on sale and hence were obliged to go out of their way to the postoffice or sub-stations.

**Trout Barbecue at Bend.**  
 Bend, Or., July 1.—Bend is to have a trout barbecue on the Fourth this year. About 2,000 fish will be caught for the feast and kept in cold storage until Thursday. Many people will be here from the surrounding country for this occasion.

**Old Reliable Alaska Refrigerator**  
 THE ALASKA, known everywhere as one of the very best and most sanitary refrigerator made, is sold in Portland Exclusively by Gevurtz & Sons  
 The qualities sought for in a refrigerator are preservation of perishable food and an economical use of ice. The principal causes of decay in meats and fruits are dampness and varying temperature, causing the expansion and contraction of tissues. Thus a DRY ATMOSPHERE and UNIFORM TEMPERATURE are conducive to preservation. These results can only be obtained by a perfect circulation of air in a refrigerator, and condensation in ice chamber. Low temperature and dryness of air are naturally and inevitably obtained in the ALASKA. Its provision chamber is free from odor. It is FILLED WITH CHARCOAL, THE ONLY SANITARY FILLING.

**\$1.00 Down, \$1.00 a Week**
