Railroad Contends That Board of Equalization Used Arbitrary Methods—Visiting Lawyer Says Wheat Crop Will Be Large.

Otto B. Rupp, prosecuting attorney of Walla Walla county, Washington, is at the Oregon hotel in regard to his fight against the O. R. & N. company.

"The board of equalization," said Mr. Rupp, "has raised the valuation of the O. R. & N. company several times, commencing at \$100 a mile in 1915 and at present the road is assessed at the rate of \$12,000 a mile."

"I believe that the increased taxation was proper and according to the law," he intended to pay the taxes to Walla Walla county by indicting 10 prominent citizens of his city who had been holding away for years.

"Of the gamblers who were indicted I have filed with the exception of one, who will be tried in the Oregon court. The new state law provides that any person convicted of gambling shall be sentenced to serve time in the state penitentiary. There is no fine connected with the penalty, and if a gambler is proved guilty he will have to serve time in the prison to at least a year."

"Aside from the city election in Walla Walla Monday, there is little of interest save the great wheat crop to be harvested this year."

"Never before have I seen the wheat looking so well. It drove 20 miles through the wheat belt yesterday and found the grain in splendid condition. It has reached its height, and much of it has turned yellow. The harvest will commence in about 10 days, and the crop is confident that they will have enough hands to cut the immense yield. There are good prospects looking forward to one of the most prosperous years ever known in the inland Empire."

Mr. Rupp was in Portland several days, leaving Monday for Seattle to attend the Washington State Bar association.

year. It carries a pension, however, whose yearly amount of about 100 marks of this sum, \$3,200. A handsome suite of apartments in the opera house constitutes the only perquisite which the veteran receives. The orders and decorations, both Austrian and foreign, which are invariably conferred upon the director in due course. But the Vienna opera is in many respects the greatest in the world. The building itself is magnificent, the orchestra is undoubtedly the very best and the best performances cannot be excelled anywhere. To be at the head of such a world-famous opera is considered to be a distinction enough for the greatest musician.

(Journal Special Service.) Berlin, July 4.—As a last effort to put an end to the bitter feeling between the German and English nations the kaiser and kaiserin will visit King Edward and Queen Alexandra in England this fall.

That this is a great sacrifice on the part of both monarchs, who, though uncle and nephew, dislike each other most cordially, every one knows; but now that the visit has been decided upon the kaiser wants to make sure that its effects shall not be lost and has given his orders to the official and semi-official press accordingly. These papers therefore are full of information concerning the visit to such an extent that it borders on the ridiculous. The Kaiser's subjects are told that their sovereign received a real written invitation from his uncle, Edward, and that it was worded in such a manner that it could not be refused.

(Journal Special Service.) London, July 4.—In spite of all the official attempts to make light of the matter, there is little doubt that an agrarian agitation, as virulent and as well organized as the disastrous campaign of the early eighties, has broken out in the west of Ireland.

The anti-grazing movement has assumed serious proportions and the farmers of the Irish hill have stimulated peasants to recklessness. Details took place some days ago near Athlone, the police intervened and were met by showers of stones from the cattle raiders. Several constables were injured and their comrades fired on the crowd. The police were returning to another attack from an armed party in ambush made the police retreat. The raiders were then able to carry out their project unscathed.

MRS. BIGELOW'S SISTER MARRIES YOUNG MAN

Miss Jean Reid is Terribly Bored by London Society and Longs to Find Quiet and Rest in the Solitude of the Country.

(Journal Special Service.) London, July 4.—The king is going to Ireland from a strict sense of duty, because he feels that his presence may soothe the Irish people, who are in a far more dangerous mood at present than any, one in this country dream about.

The king is anxious, too, to give some encouragement to the Dublin exhibition, which is being sadly neglected by English tourists. It is known in court circles, however, that Queen Alexandra is dreading the short visit which she is to make to the "put his foot down firmly" when her majesty pleaded to be left behind.

The queen is so accustomed to treatment which is so different from the coldly by the citizens of Dublin. On the royal yacht the queen was as firm as the king; she insisted on sleeping aboard the yacht on each night of the visit and in this matter the king gave way.

At the races both the king and queen are assured of a splendid welcome, as the Irish love a good sportsman, and the king will be king of England or any one else.

An Amazing Marriage. The amazing marriage of Mrs. M. Vickar to H. Patrick Tappe, who is young enough to be her father, has had a rather remarkable sequel.

Mr. and Mrs. Tappe, although very little blessed with this world's goods, have been married for several years. The hotel as a sort of last fling, but a few weeks hence they sail for New York, where they will joinly set up a hat and millinery shop. Mrs. Tappe was one of the Jafrays of New York and is a sister of Mrs. Foulty Bigelow.

Anyhow, the Tappes have laid in an enormous stock of the latest creations from the millinery world. In their New York shop and in spite of Jafray protestations they are likely to do well.

Miss Reid is Bored. Miss Jean Reid, who enjoyed herself immensely when she first came to London, does not now attempt to conceal her present feelings. She is bored and tired with the perpetual entertainments given by her father and mother at Dorchester house.

She now goes for long walks in the park in the morning to try and escape from the social whirl, but in the afternoon her mother always insists on her being present to receive the countless callers, who come in a stream until they have almost to be turned out.

Miss Reid told one of her girl friends recently that she was bored and that she longed to go into the country again.

The ambassador and Mrs. Reid have, contrary to expectations, decided not to give another ball this season, but they will give a number of parties.

Present Break News. The giving of wedding presents is becoming a greater tax upon the impoverished aristocracy every year. Silver and jewelry are expected by brides as a matter of course, and several well-known people, including the Duchess of Devonshire, lay in a stock of presents to the value of £10,000.

Each year one firm at the beginning of each year and obtain a big discount in that way.

Lily, Duchess of Marlborough, (Lady Willoughby) has now set the fashion of giving joint presents. A sensible scheme, which will cut down expenses all around. For Lord Guernsey and Mrs. Willoughby, the other day, she got 20 of her very handsome ruby and diamond collar.

"Joint weddings" will be a feature of all future society weddings.

QUIET CELEBRATION AT SUMMER CAPITAL

(Journal Special Service.) Oyster Bay, July 4.—Several big boxes of fireworks delivered at the state this morning marked "Theodore Roosevelt, Oyster Bay," relieved a load of anxiety from the minds of the president's youngsters. There were no fireworks tonight at Sagamore Hill when the president, his family and friends will be celebrating the centennial.

An employe of the fireworks concern came down with the boxes to superintend the display. This is an unenviable job. In the village compared with former years when the president took part in a public celebration.
