# DAY'S MARKETS

#### Dealers Anxious to Sell at Twenty-Four Cents-Some Quoting Lower Range.

Today's market features: Loganberries are steadier. Eggs are offered lower. Oregon potatoes better than others. Bananas come in good shape. Bananas come in good shape.
Oregon tomatoes are down.
Peaches are selling lower.
Many views in cheese market.
Creamery butter holds well.
Early close for fish men.
Another car "cants" arrives.
Poultry continues good tone.
Chittim bark comes in slowly.
Hop market exceedingly quiet.

#### Eggs Are Offered Lower.

Eggs are being offered in round lots along Front street as low as 23c a dozen, 🌢 along Front street as low as 23c a dozen, despite the very firm tone quoted by a local report. The market is gathering weakness every day and there is not a single legitimate dealer along Front single legitimate dealer along Front single legitimate dealer along Front seek and closed 2 points was a feature of note, the common being quite active and closed 2 points higher than Friday.

Official New York prices by Overa local report. The market is gathering weakness every day and there is not a single legitimate dealer along Front street that would not be very willing to sell strictly fresh Oregon eggs at 24c a dozen even in single case lots. This much has been verified by a personal examination of the books of the leading dealers by The Journal. Eastern eggs have been in the market for some time, and although the arrivals are now increasing, former receipts hurt values instead of boosting them as per a local report. The arrivals of local eggs are increasing daily, while with warmer weather the trade does not buy so heavily as the quality deteriorates sooner than in cooler weather. While the eastern eggs thus far have been of good quality, they are not as good as the locals, especially when the latter are candled properly.

Chicken market remains very firm along the street with receipts very light.

Creamery butter is firm with prices maintained, Cheese easy to steady with no change in values.

Locanberries Are Steadier.

no change in values.

#### Loganberries Are Steadier.

#### Although the season is still very

young for Oregon potatoes, home stocks are fast capturing the trade. Quality is much improved over the arrivals of a week ago and sizes are much better than those from California. In boxes the buyers are paying 2½c and 2½c a pound, while the jobbing price is ½c

pound, while the jobbing price is 42c higher than this.

Hothouse cucumber from local point continue to drug the market and sales of fancy lots are made as low as 40c a dozen. California stock in boxes far

#### Brief Motes of the Trade.

The following notice has been issued by local wholesale fish dealers: "During the months of July and August the undersigned wholesale fish dealers will close at 1 p. m. on Saturdays. All orders for delivery on said days must be in by 12 o'clock. Chlopeck Fish company, Maiarkey & Co., Portland Fish company, Maiarkey & Co., Portland Fish company."

Chittim bark peel continues small and receipts of new bark thus far this season have been very light. Trade paying 5c.

With only an occasional sale of a small lot of hops at low figures the market is duller than ever.

Dressed veal continues to show strong tone with arrivals very light.

Cherry market shows a very wide range in values. Bings are steady, likewise Lamberts, but other varieties are slow.

Loganberries Are Steadier.

With a better canning demand ruling there is a much improved tone in the fruit market for loganberries foday, as sales of select stock are being made as high as \$1.25 a crate for 24s. Some cheaper quality is selling down to 75c and \$1 a crate.

Several cars of bananas came in yesterday from Central America. Very fine shape.

Another car of cantaloupes reported in this morning from Brawley. This is the only section now shipping "cants" regularly to this city, the trade finding the quality from other districts not so good. Price therefore holds well.

Oregon tomatoes are about 25c a box lower with the more liberal supplies from The Dalles.

Peaches are about 10c a box lower today. Very liberal supplies from California. Decline helped by receipts of good quality from eastern Oregon.

#### DROVE FOR LINCOLN

ansan's Recollections of Boyhood Days in Illinois.

"Abraham Lincoln was the best man ever saw," said Wichita's oldest auconeer the other day. J. A. Benne 72 years of age and probably the idest successful auctioneer in the state

It is known among the friends ne old auctioneer, says the Wichita agle, that he and Abraham Lincoln ere warm friends along in the early s. When Mr. Benner was waiting a sale the other day he came over and sat on the curbing in front of the Eagle office and some of the boys got

and sat on the curbing in front of the Eagle office and some of the boys got to talking about Lincoln. "Did you consider Mr. Lincoln a very good man?" asked a young man who had evidently read of the martyred president in his school history.

The plucky old auctioneer seemed to be horrified at the question. He wondered that anybody should ask such a question. His chin dropped and he spread out his hands palm upward like one in the presence of what he considered some great sacrilege, and said: "Oh, he was the very best man I ever saw, and he was as courageous as he was good. In his treatment of men he was good. In his treatment of men he was a prince, and his every action forced the conviction that he thought the man with an apron cutting stone or the man with an apron cutting stone or the man with overalls carrying brick as good as the president of the United States. He was great by nature and the assumed greatness of small men failed to impress him.

"My father used to own a livery barn at Urbana in Champaign county. W. W. Davis was judge of that judicial district and Leonard Sweat was state attorney. He and Judge Davis were great friends of Abraham Lincoln, and when Mr. Lincoln was elected president he appointed Judge Davis a judge of

Woman Ranch Owner.

Mrs. Agnes M. Hart of Denver has refused an offer of \$3,500 for her ranch near Fort DuChesne, Utah, in the Uin-tah reservation. Mrs. Hart almost alone and unaided

has made the ranch what it is, says the Denver Post. In the summer of 1905, when the drawing of homesteaders took place, her name was among the first to come out—the exact number was 129. In a few weeks she went to Vernal. Utsh, to file on her claim. She selected a quarter section about seven miles from Fort DuChesne, a few miles from Myton.

Caterpillars, Bugs, Flies and Cockroaches Among Popular Adornments.

(Journal Special Service.)

London, July 5 .- A spirit of daring has infected the modern woman. She still shrinks from a caterpillar or an still shrinks from a caterpillar or an earwig, but her jewelry must be made to imitate them, though they are among her deadliest foes. The most up-to-date brooch is such a clever replica of a moth that a careful housewife might be excused for peppering her furs and jiannels. Lace pins, which used to be set with pearls and diamonds, are now decorated with a fearsome wasp or a gigantic daddy-longlegs.

"Creepy" sets are offered by some of the west end jewelers. They comprise a spider's web necklet made of fine gold wire, in the center of which a hungry spider waits for the fly hovering on the outskirts. A spider brooch and a fly bangle complete the set.

tive in a hat trimmed with flowers and foliage, but the spirit of daring has been best exemplified in the "cockroach" safety pin. The cockroach ranks as the "creepiest" in woman's category of insects, and the jeweled representation is so accurate that even its owner is calculated to mistake her latest purchase for the original and scream.

# THE LEADING SPECIALIST IN MEN'S DISEAS

There is no ailment peculiar to men that I cannot cure. For sixteen years I have devoted my entire time and energy to the treatment of men's diseases.

My methods have been perfected by actual experience, with a thorough theoretical knowledge as a basis. I am the only physician thoroughly and permanently curing those functional derangements commonly classed as "Weakness" and my success in overcoming such cases has placed me foremost among specialists treating men's diseases and has brought me the largest practice of its kind in the west.

# You Pay When Cured My Fee in Any Un-

So-called "Weakness" in men is curable—fully curable. It has not been cured by those measures commonly employed, for they are methods based upon supposition and not upon fact. Prematureness and loss of power in men is due to a chronic state of inflammation to the prostate gland, and not to a disorded nervous condition, as has been supposed. I treat the inflammation by local process that does not fail to accomplish its purpose, and with this condition corrected full and complete strength and vigor returns.

STRICTURE—My treatment is absolutely painless, and perfect results can be depended upon in every instance. I do no cutting or dilating whatever.

Contracted Disorders

Every case of contracted disease I treat is thoroughly cured; my particle of infection or inflammation to a particle of infection or inflammation will return in its original form or work its way into the general system. No contracted disease trivial as to warrant uncertain methods of treatment, and I especially solicit those cases that other doctors have been unable to cure. I have the largest procuse because I invariably fulfill my promises.
