

THE LIFTER WAS A WONDER, BUT PAPA WAS CARELESS

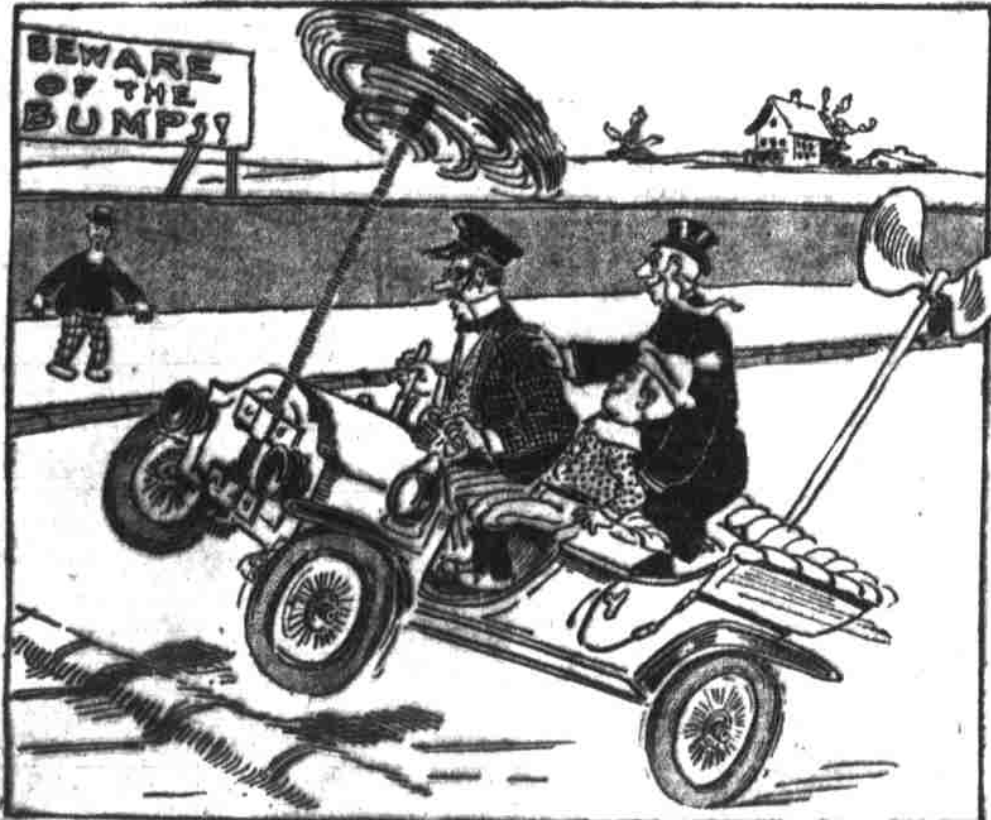

Dear Tommy—Papa and I got an awful shaking up the other day, going over a bump.

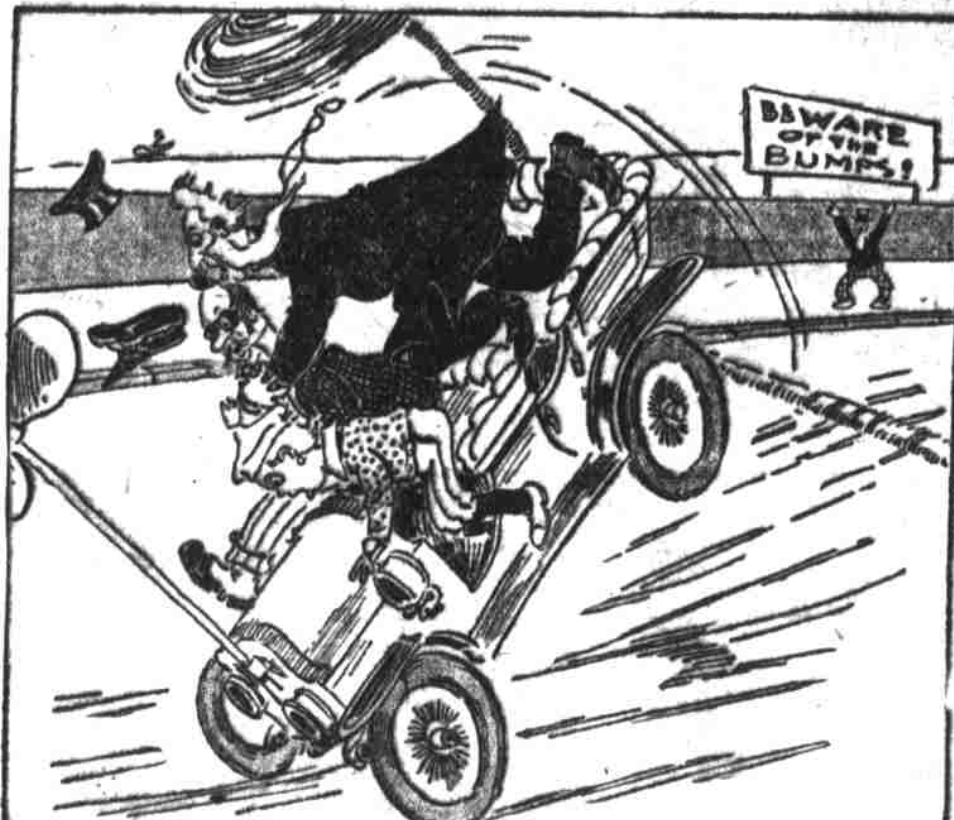

Then I got busy and made an attachment for the machine like this.

When we went out for a trial trip we took the Minister along.

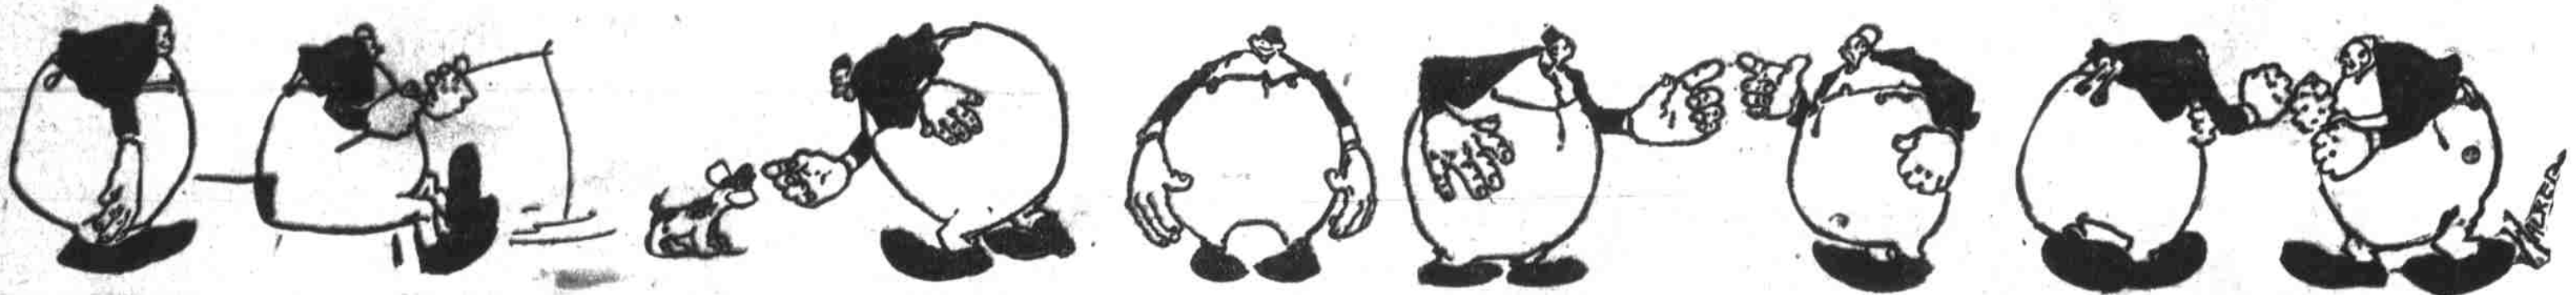

The first bump we came to Papa pulled over the lever—

But he neglected to let go and the rear of the machine went about 6 feet high.

Then it came down with a thud that about wrecked the whole outfit. Yours, Willie.
