

WILLER TO PUNISH MEN

Assistant Superintendent of Western Union Says Men Would Not Be Given Old Positions Even If They Did Surrender.

(Hearst News by Longest Leased Wire.)
San Francisco, July 6.—Assistant General Superintendent Miller of the Western Union Telegraph company stated today that even if the strike of the operators ended tomorrow in a complete surrender of the men, he would refuse to renege all of them to their former positions.

"There are some operators," he declared, "who have been particularly active in the present trouble and who left nothing undone to inflame the others against the company. These will not be taken back under any circumstances."

Makes Final Visit.
W. W. Allen, the Oakland attorney, paid Miller a final visit today in order to determine whether the assistant superintendent was unalterably determined not to consent to an arbitration of the differences at issue. The summary of the telegraphers' union was informed that no arbitration was possible and that no meeting, even for the purpose of submitting grievances, would be entertained save it was attended by the operators as "individuals."

Allen declared that he would submit the ultimatum to the union at a meeting for formal disposition. It is positively announced that there will be a conference along the lines suggested by Miller.

Decide Cases Singly.
"We are quite willing to take back the majority of the operators," Mr. Miller said. "They may come here alone or in a body and apply for their old positions. Each request will, if they come, be considered upon its merits. No questions will be asked of any of the men whether they still belong to the union or not. They will be received entirely in the manner as were applicants before the walkout."

In the meanwhile the striking men are making a holiday of their enforced idleness. All the members of the organization participated in an outing today. An additional \$2,000 will be received from International Treasurer Russell Friday and a similar amount will be diverted each week for the support of the strikers until the fight is either won or lost.

GLASS GOES ON TRIAL MONDAY

General Manager of Pacific Telephone Company Is Next Defendant.

(Hearst News by Longest Leased Wire.)
San Francisco, July 6.—Louis Glass, general manager of the Pacific Telephone and Telegraph companies, indicted as a briber of supervisors, goes on trial Monday morning before Judge Lawrence on the indictment which charges that he bribed supervisor Boxton. W. A. Eugene Schmitt, a convict in the county jail, and Abe Ruef, confessed briber, also in custody, awaiting sentence, are named as accessories.

Glass' part in the bribery is alleged to be that he drew the check which Theodore V. Halsey drew the money used to bribe the municipal officials, and that his knowledge of the criminal use to be made of the money was shown by his ordering the original check returned to him so that he might destroy it.

The forces of the prosecution are confident of a conviction in this case, and it was hinted about District Attorney Langdon's office that much more evidence than that on which the indictment was based will be presented to the grand jury.

BANDIT BECOMING AN INTERNATIONAL BORE

Powers Are Said to Be Considering An Abatement of the Nuisance.

(Hearst News by Longest Leased Wire.)
London, July 6.—Rasul is becoming an international nuisance. He is now demanding that he be appointed commander of the police force created under the Algerian convention which is under the jurisdiction of the powers, jointly and his kidnapping of Sir Harry Maclean is said to have been principally to that end.

The other conditions imposed by Rasul are conditions precedent to the release of the unlucky and hoodwinked Camille de Monville, a French nobleman, from the custody of the sultan; but the command of the gendarmes concerns all the powers signatory to the pact following the Moroccan conference. Germany recently has indicated that the Sultan of Morocco cannot count on Berlin to support him in a truculent opposition of Europe in Africa. This is thought here to forecast a more reasonable policy on the part of Germany in the conduct of affairs in the west of Africa, in line with the agreement made in Algiers.

Belgium is said, is conciliatory enough to think he can force the acceptance of his stipulations on terms that would secure an international guarantee. However, the powers are said to be considering an early abatement of the nuisance.

Belgium is a land of low wages. In Ghent the minimum pay an hour for printers, roofers, glaziers, painters and boiler-makers is 1 cent—50 cents for 10 hours of work. Blacksmiths, locksmiths, carpenters, masons, plumbers and electricians 80 cents.

BELMONT SAYS ROCKEFELLER IS ABLE TO CARE FOR SELF

(Hearst News by Longest Leased Wire.)
New York, July 6.—August Belmont returned from Europe on the Cunarder Campania after an absence of several weeks abroad. His son, Morgan Belmont, was on the pier to meet the banker.

When asked if he had returned to help John D. Rockefeller in his present troubles, Mr. Belmont smiled and replied: "I don't see how I can be of any assistance to Mr. Rockefeller. I guess he will be able to take care of himself."

WOMAN BETRAYS MAN SHE RUINED

Laura Carter Says Chester Is Easiest Mark She Ever Encountered.

DESERTED WIFE MAY DIE FROM THE SHOCK

Defaulting Teller of Windsor Trust Company Confesses to Theft and Is Cast Into Prison With His Companion.

(Hearst News by Longest Leased Wire.)
New York, July 6.—Chester B. Runyan, the paying teller who stole \$98,315 from the Windsor Trust company, was held for the grand jury today in bonds of \$15,000, after he had made a complete confession. Laura B. Carter, the woman for whom he stole and deserted his wife, also went to the Tombs in default of \$10,000 bail. She is held on a charge of receiving stolen goods.

Of the amount of stolen goods still missing, Runyan says he lost \$10,000 in speculation, gave the woman \$15,000 and spent \$750 furnishing a flat for her, and that either she or someone else stole \$10,000 from him yesterday. The woman boasted that her share of the loot is safely hidden away.

Wife May Die.
Mrs. Runyan, the deserted wife, may die of grief and the shock. With brazen indifference to the purpose of her words, Laura Carter, the woman of the tenderloin who betrayed Runyan to the police, admitted that she had her share of the money he took from the bank.

"Runyan gave me the money," she informed the detectives. "I have put it in a bank where I have a private account, and it will stay there."

"Why, if I had wanted to take it, I could have had all the money Runyan brought to me," she said. "I am not a crook. He was about the easiest mark I ever saw in my life, and it was almost a shame to take the money from him."

Made Coin Try.
"And say, I certainly did make the coin fly while the flying was good. I bought everything in sight and the sucker stood for it. I just played him for all he was worth. I am not a crook. If I had been the police would have never found a dollar of that bankroll."

"I'm sorry for Runyan's wife. It's a shame to think that she must be an innocent sufferer for a scab like him. His was the scurviest trick I ever heard of. For several days I had been wondering whether to go to the police first or go and tell that poor woman all about her worthless husband."

PLAGUE ALMOST AT
DOORS OF ASTORIA

But Infected Ship Was Wrecked and Rescued Crew Carried Back to Frisco.

(Special Dispatch to The Journal.)
Astoria, Or., July 6.—Dr. Holt, federal quarantine officer of this port, told today how close this port recently came to being under suspicion of being infected with the bubonic plague. Some time ago the tug Wizard left San Francisco for Coos Bay with a vessel in tow and before leaving one of her crew was sent to the hospital suffering with some unknown disease that in a couple of days developed into the first case of bubonic plague that had been in that city in three years. The quarantine officer notified the quarantine officer at Coos Bay by wire to place the Wizard in quarantine immediately upon her arrival and notify Dr. Holt in Astoria, as Coos Bay is in his district. The intention was to send the Wizard to the Columbia river quarantine station and there have it fumigated and the crew kept there for the usual period and during this the Columbia would have been kept in quarantine. Before reaching Coos Bay the Wizard was wrecked and her crew picked up by a passing vessel and nine days later they were landed back in Frisco. As all were well and there was nothing to fumigate they were permitted to go without being quarantined.

ELLIS IS IN LINE FOR RE-ELECTION

Congressman W. R. Ellis is at the Imperial hotel and last night announced that he would be a candidate for reelection next year. Furthermore, Judge Ellis announced that he expects to be reelected. He accompanied Senator Fulton on the latter's visit to southeastern Oregon several weeks ago when both found their political fences in good condition and capable of withstanding another campaign. Judge Ellis said he found the citizens in the section visited more interested in the development of the country than in politics. (Usually prosperous conditions left them little time to engage in political discussions, said Judge Ellis, who leaves tonight for his home in Pendleton.)

MULTNOMAH MEMBERS ENJOY LOW JINKS

Between 300 and 400 members of Multnomah club will leave on the steamer Beaver at 9 o'clock this morning to enjoy the annual jinks. This time it is a low jink.

The party will be carried down the Columbia and up Lewis river where the feast will be spent in outdoor sports, feasting on a bountiful supply of refreshments and enjoying a fun-proving program. The members will return to the city this evening.

WAREHOUSE FIRES RAGE AT ASTORIA

(Special Dispatch to The Journal.)
Astoria, Or., July 6.—Fire broke out in Warren's cold storage warehouse on the waterfront at midnight. It is now under control, but the place is entirely gutted. Landenberg's cold storage establishment suffered considerable damage by water. The total loss is \$15,000, with insurance at this time unknown.

THREE CAPTAINS ARE MADE REAR ADMIRALS

(Hearst News by Longest Leased Wire.)
Washington, July 6.—Owing to the retirement today of Rear Admirals Reiter, Brownson and Sands, the navy department announced that Captains H. C. Lewis, now commander of the Washington navy yard; U. Z. Zebur, secretary of the lighthouse board; and A. R. Couder, commander of the battleship Louisiana, have been appointed rear admirals.

The third annual state convention of postoffice clerks, held at Sacramento, adopted resolutions recommending the passage of the \$1,200-a-year bill for clerks and an eight-hour day. The convention also endorsed the pension bill for superannuated.

CHURCH LEADERS OF AMERICA

Rev. William Henry Roberts, D. D.

It did not require the formal action of the Presbyterian general assembly to stamp the Rev. Dr. William H. Roberts as the leading Presbyterian of the present time. But when the assembly elected Dr. Roberts its moderator, at the meeting just held in Columbus, Ohio, it bestowed on him the highest honor in its gift, making him officially the head of the Presbyterian church, north, a place which many are willing to concede he has filled, unofficially, for a number of years past.

For over 30 years Dr. Roberts has been "stated clerk" of the Presbyterian general assembly. As such he has had charge of all the records of the denomination, legislative and statistical, and has been the right-hand man of every moderator of the general assembly for over a decade. It has been said that the commissioners who gather annually at the general assembly, representing Presbyterian churches all over the country, have frequently shown the disposition to follow the stated clerk in their legislative action. If this is true, it is but an evidence of the personal force of the man, whose influence and leadership have been held the progress and prosperity of the Presbyterian church as his guiding power.

World Wide All Branches.
It is this very purpose which has earned for Dr. Roberts the ill-will of some leaders in American Presbyterianism who are not affiliated with the modern church. He was the guiding spirit in the union of the Cumberland and the Northern Presbyterian churches, and he unhesitatingly expresses his conviction that all Presbyterians of America should be united in one great

FRENCH WOMEN TEDDY'S FOE

Strike Against Motherhood Has Been Declared in Normandy and Brittany

(Journal Special Service.)
Paris, July 6.—In Normandy and Brittany publicity is just being given for the first time to one of the strangest agitations in the history of France. It is an appeal to the women of the nation to "strike" against motherhood.

The agitation has been three years in breaking out. A half dozen women started a league in the little town of Roubaix, in northern France, and year by year it has grown until now the membership runs into the thousands and the league is strong enough to make its pronouncements public. The propaganda is centered in the towns of Lille, Tourcoing and Mouscron. The walls of these towns and the villages and hamlets near by are covered with flaming sheets proclaiming a general strike against the bearing and rearing of children. The population and begging women to refrain from motherhood.

Bands of women, apostles of the movement, are also traveling through the country holding meetings for male and female audiences and distributing pamphlets and leaflets. They are directed to the working class, as the league asserts that the aristocracy are practically all members of its organization and that the noble women and wealthy of France are already pledged to suppress maternity. The placards and leaflets urge the working classes to limit the number, since to bring into the world large families is only the work of fools and idiots and filletate people.

The champion of large families, Senator Plot, has started an opposition league and has issued some Rooseveltian addresses. He is not receiving much support. The names signed to the manifesto of the Anti-Maternity league are local and not known to fame outside their immediate locality.

AMERICAN FLEET IS WORRYING ALL EUROPE

(Hearst News by Longest Leased Wire.)
Vienna, July 6.—At the headquarters here of the Austro-Hungarian navy, which Vice Admiral Count Montecucoli is the head, the opinion was expressed today that there can be no doubt that the sending of the United States battleship fleet to the Pacific is in reality a serious question. The proposed understanding is regarded as one of the utmost importance and to naval experts it means that it cannot be counted within the limits of naval maneuvers, very nearly the whole American fleet will be engaged.

Salerno, Or., July 6.—A trusty convict, William Williams, serving a three-year term for larceny committed at Portland, escaped from the penitentiary this evening. He was observed as a pale man, a new building near the prison and ran away about 6 o'clock. He is a man of about 30 years of age, light complexion, smooth shaven, and has a badly-swollen neck as a result of some disease. He had served one year of his term.

PORTLAND LARCENER ESCAPES FROM PEN

(Special Dispatch to The Journal.)
Salerno, Or., July 6.—A trusty convict, William Williams, serving a three-year term for larceny committed at Portland, escaped from the penitentiary this evening. He was observed as a pale man, a new building near the prison and ran away about 6 o'clock. He is a man of about 30 years of age, light complexion, smooth shaven, and has a badly-swollen neck as a result of some disease. He had served one year of his term.

ESPERANTO USED TO CONCEAL DEN

(Journal Special Service.)
Paris, July 6.—Studying Esperanto is not a thrilling occupation. So reflected the police of Paris and accordingly became suspicious of a few score women who spent many and late hours on the third floor of a handsome building on the Boulevard Clichy.

Apparently these women were students of Esperanto. They were members of a club ostensibly for the learning of the universal language. This club had the high-sounding name of "The Republican Association of the Metropolis and the Colonies." The principal was Madame Mathilde Beaulon. Its prospectus stated that it was formed in order to gather together people for the study of Esperanto and to further the use of this language in Paris, the colonies and the whole world. There were many rules, the strictest of which was that neither religion nor politics were to be discussed on the club premises.

The police for several weeks noticed that a large number of fashionably-dressed women visited the club and that they kept long hours. When some dozen or so well-known members of the demi-monde were seen entering and leaving, the police suspected that the learning of Esperanto was scarcely their object.

So a few evenings ago a half dozen detectives quietly forced their way into the club and were not over surprised at what they discovered. In a very large and handsome apartment were scattered about tables around which crowds of women were gathered. All were gambling furiously. Not one of the women was under 40 years of age. Three or four old men were also present. There were found in another room some roulette tables presided over by women at which a few score of old women were also playing. Madame Beaulon and some assistants were distributing cakes and tea, sandwiches and wine gratis.

This Esperanto "school" is now no more. The police took charge and Madame Mathilde is now passing two months in jail after paying a fine of \$100.

SCHOONER RUN DOWN BY BIG OCEAN LINER

(Hearst News by Longest Leased Wire.)
San Francisco, July 6.—The steamer Constar, which arrived in port late this evening, brought news of a collision between the Pacific Coast Steamship company's chartered steamer Sonoma and the three-masted schooner Advent, off Cape Mendocino, at 2 o'clock in the morning of July 5.

The sailing vessel was run down by the big liner and the bowsprit, foremast and mainmast, of the vessel were carried away. The Sonoma is towing the schooner and will probably take her to Eureka, which is the nearest port. The coaster reported that when off Cape Mendocino on her voyage to this port she heard the distress signals of the Sonoma, and when she bore down on the vessel in response to the signals, the dismasted schooner Advent was sighted.

Captain Cousins of the Sonoma reported that the vessel had been run down. A hawser was secured from the Constar, and the big steamship took the schooner and will probably take her to Eureka, which is the nearest port. The coaster reported that when off Cape Mendocino on her voyage to this port she heard the distress signals of the Sonoma, and when she bore down on the vessel in response to the signals, the dismasted schooner Advent was sighted.

Auction Sales By J. T. WILSON AUCTIONEER.

Monday, Wednesday, Friday
At 10 a. m. each day at Sale room, 208 First Street.

Logging Firm Changes Name.

(Special Dispatch to The Journal.)
Astoria, Or., July 6.—Supplementary articles of incorporation of the Frye-Ryan Logging company were filed in the county clerk's office today. The papers show the company's name is changed to the Peterson-Frye Logging company, with O. I. Peterson, John Frye and Annette Peterson as stockholders.

One hundred and forty laborers employed by the Frye-Ryan Logging company on the construction of fortifications at Cushing and Diamond Islands, Maine, struck recently for increased wages.

Out of \$1 bill in the Oregon legislature framed in the interest of labor, 12 passed both houses.
