

TEACHERS HEAR BISHOP GONZA

Open Meeting of Extraordinary Interest Will Be Held Tonight.

FLETCHER DRESSLAR ON MANUAL TRAINING

Berkeley University Professor Says That Learning and Doing Must Not Be Made Separate and Isolate Things.

(Special Service.)

Los Angeles, July 9.—No general session was held by the National Educational association today, but a program of extraordinary interest has been arranged for the open meeting this evening, and it is predicted that the great auditorium, spacious though it is, will be unable to accommodate the thousands who will seek admittance to hear the address of Bishop Conaty, President Thompson of Ohio State University, Senator Justo Sierra, Mexican minister of public instruction, and other men of wide prominence who are on the program.

Numerous department meetings are being held in various parts of the city today at which papers are to be read by the following members:

- Kindergarten—Miss Grace E. Barnard, Oakland, California; Margaret E. Schallenberg, San Jose, California.
- Higher Education—Joseph H. Hill, president of Kansas State Normal school; Reuben Post Halleck, Louisville, Kentucky; Alexis Frederick Lange, University of California.
- Manual Training—George W. Eggers, Chicago; Fletcher B. Dresslar, University of California; Charles H. Keyes, Hartford, Connecticut; Thomas A. Mott, Richmond, Indiana.
- Music—Hamilton E. Cogswell, Indiana; Pennsylvania; Stephen E. Penrose, president of Whitman college, Walla Walla, Washington; William McK. Vance, Delaware, Ohio; Miss Kathryn Stone, Los Angeles; Frederic H. Ripley, Boston, and Dr. Frank R. Ris, New York City.

Business—H. M. Rowe, Baltimore; James J. Sheppard, New York City; James Ferguson, San Francisco; H. B. Brown, president of Alparaiso university, Valparaiso, Indiana; and F. C. Weber, Los Angeles.

Child Study—K. Stablotin, Bloomington, Illinois; Jessie E. Allen, Los Angeles, and C. C. Van Liew, president of State Normal school, Chico, California.

Science—H. A. Senter, Omaha, Nebraska; and Clifton H. Hodge, Clark university.

Physical Training—E. H. Arnold, New Haven, Connecticut; W. F. Snow, Springfield, Massachusetts; W. F. Snow, Leland, Stanford Junior university; Clark W. Hetherington, University of Missouri; and E. J. Milne, Salt Lake City.

Penary—D. B. Johnson, Rock Hill, South Carolina; Albert Halliburton, president of State Normal school, Whitefish, Wisconsin.

Indian Education—Elmer E. Brown, commissioner of education of the United States.

On the subject, "Manual Training in Its Relation to Mental Development," Fletcher B. Dresslar, associate professor of California, Berkeley, California, said:

"Manual training in its larger and wider sense means a way to enter into organized activity with the hands and how to come into active participation with all those fundamental and useful occupations necessary for modern life and society. This law of mental development demands that manual training be broadened. It requires that all our school work be adjusted from the point of view of the organization of body and mind, to the end that learning and doing are not isolated, separate things. One of the most urgent needs of our schools is better equipment for playgrounds, for free play is one of the highest forms of manual training. Play ball and tennis are better organized agents for the larger and more fundamental adjustments than any sort of work which is not the child's own, but in a very direct and practical way he should consist not only of shop work, but of many kinds of field work and abundance of regular playground experience."

CARVING MATCH ON STEAMER HASSALO

(Special Dispatch to The Journal.)

Astoria, Or., July 9.—Scott Anderson, a waiter, and John Scott, a cook, on the steamer Hassalo, got into an altercation Sunday evening and during the row Anderson slashed Scott with a butcher-knife, cutting his right hand and inflicting severe wounds in his side. Scott was taken to the hospital, where the injuries were found to be severe, though not dangerous. Scott was arraigned in justice court yesterday afternoon charged with an assault with a dangerous weapon. He waived examination and was committed to the county jail in default of \$750 bail, to await action of the circuit court. Both men are negroes.

LIGHTNING STRIKES CREW OF HAYMAKERS

(Special Dispatch to The Journal.)

Butte, Mont., July 8.—Lightning struck a hayrack crew near Cascade yesterday afternoon, killing one man and injuring five. The dead man, Theodore Anderson, was buried in the afternoon, the air lighting on top of a load of hay.

You Can't Enjoy YOUR VACATION

If you find that the strange eating and drinking upsets your stomach and liver and causes you to suffer from an attack of Orange, Biliousness or Biliousness on the safe side and take along a bottle of

A dose at the first symptom will save you much unnecessary suffering. For it never fails to keep the Stomach, Liver and Kidneys in a healthy condition. It also cures

**FOOD APPETITE

COIC TYPERS
HEADACHE OR
MALARIAL FEVER**

Try a bottle. We guarantee its purity.

NERVOUS COLLAPSE

IS OFTEN PREVENTED BY DR. WILLIAMS' PINK PILLS.

Taken When the First Warning Symptoms Are Noticed Which Needless Suffering May Be Avoided.

Are you troubled with pallor, loss of spirits, waves of heat passing over the body, shortness of breath after slight exertion, a peculiar shivering of the heart beat, poor digestion, cold extremities or a feeling of weight and fullness? Do not make the mistake of thinking that these are diseases in themselves and be satisfied with temporary relief. This is the way the nerves give warning that they are breaking down. It simply means that the blood has become impure and cannot carry enough nourishment to the nerves, and that the nerves are unable to do their work.

Rest, alone, will sometimes give the needed relief. The tonic treatment by Dr. Williams' Pink Pills, however, prevents the final breakdown of the nerves and the more serious diseases which follow, because the pills act directly upon the impure blood, making it rich, red and pure.

Mr. Bradley of 103 Parsells avenue, Rochester, New York, says: "I was never very healthy and some years ago, when in a run-down condition, I suffered a nervous shock caused by a misfortune to a friend. It was so great that I was unfit for work."

"I was so weak, low-spirited and nervous, I could hardly walk and could not bear the least noise. My appetite was poor and I did not care for food. I couldn't sleep well and once for two weeks got scarcely an hour's sleep. I had severe headaches most of the time and pains in the back and spine."

"I was treated by two doctors, being under the care of one of them for six months. I got no relief and then decided to try Dr. Williams' Pink Pills. I soon began to feel better and the improvement was so rapid that I became hearty and my sleep better. The headaches all left and also the pains in my back. A few more boxes entirely cured me and I was able to go back to work. I felt splendid and as though I had never been sick."

Dr. Williams' Pink Pills are invaluable in such diseases as rheumatism, after-effects of the grip and fever, neuralgia, St. Vitus' dance, and even cardiac paralysis and locomotor ataxia.

Dr. Williams' Pink Pills are sold by all druggists or will be sent on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine company, Schenectady, N. Y.

BISHOP SCADDING ON CITIZENSHIP

Views of Greatest Breadth in His Oration on July Fourth.

NOW ON MISSION IN COOS BAY COUNTRY

Declares Oregon Spirit Animates Portland Instead of Alleged Portland Spirit—Makes Friends for His Church and Church in General.

(Special Correspondence to The Journal.)

Bandon, Or., July 4.—Ranchers, farmers and loggers for miles around have assembled with the townspeople today in a grove on the seaside to celebrate the glorious Fourth. The procession from town was headed by the Bandon brass band. The oration was delivered by Bishop Scadding of the Episcopal church in Oregon. The Bishop was introduced by Colonel Ross, and spoke with fervor on the subject of good citizenship. He said that the Oregon spirit is not the provincial, and cordial support. Let us look for the best in men, and believe there is a good side to every man.

He deprecated the tendency on the part of some citizens to criticize and disparage any aggressively and constructive movement for the betterment of the nation, state, or local town. While there is much corruption and evil in the country he branded the popular theory that "every man has his price" as false as the accusation that "every man in Oregon is web-footed."

"There are," he said, "hundreds of honest and upright men, and they should have our sympathy, approval, and cordial support. Let us look for the best in men, and believe there is a good side to every man."

He corrected a local impression that Portlanders have no interest in Oregon outside the city. He said the Portland newspapers are not provincial, and are giving their best to create an Oregon spirit, and that while his headquarters are in Portland he is as much interested in the remote and isolated missions in Oregon as in the missions in the city.

"Oregon will go forward in its development with great rapidity when the farmers, ranchers and villagers loosen up, and give liberally of their means, interest and energy to their criticism, to all public spirited movements which tend to build up a community," said the bishop. "We get good by giving it; they gain by giving—so, give sympathy and cheerful loyalty to the cause of the church, and the community to which you belong. So long as you reside in a community, or are a member of an institution, give your sympathy and commendation, or disapproval. Not that you disparage the institution, but when you disparage the concerns of which you are a part, you disparage yourself. In the words of Elbert Hubbard, 'Get out or get in.'"

Grows Over Oregon's Future.

The bishop spoke in glowing terms of Oregon, and its future; and particularly of the prospects for the Coos Bay country. He said he had come to live in this state, and to identify himself with it and help forward every good movement.

He spoke earnestly, as a citizen of the United States, and not merely as the head of the Episcopal church in Oregon, and this kindly attitude, and manifest desire to take a foremost part in every movement for the good of Oregon, has won many friends in the Coos Bay country for the Episcopal church, and those who listen to the bishop's sermons Sundays and week days, also have a clearer understanding of his position.

LID FITS NEVER SO SNUG AT CANBY

(Special Dispatch to The Journal.)

Canby, Or., July 9.—Canby has celebrated a dry Sunday, the first in many years. Marshal Dick, under instructions from Mayor Mack, ordered all saloons tightly closed, and those who obeyed. The usual throng crowded from Portland was on hand, but nothing was doing.

It is said that the saloon men will endeavor to have all other business places, such as drug stores, candy and cigar stores, and soft drink establishments, closed also.

Stop Drugging

Don't Ruin Your Stomach With Poisons.

You know drugs haven't helped you and that they have weakened your stomach and nerves. You would like to quit but you are afraid you would be neglecting your condition if you didn't take some kind of "dose."

Ever since you can remember you have understood that the only way to cure pain or disease was to take a dose of some drug. Your father before you took drugs for every little ailment, and you think you must do the same. That's a foolish notion.

You don't seem to realize the danger in drugs. Why, most of all drugs contain poison in large quantities. And it is this poison that's so destructive to the nerves and vitals. Of course poison will ease pain for a short time by stupefying the nerves, but the pain comes back as soon as the stupor wears off.

What your body needs is not drugs, but nourishment—something to build up, not to tear down. That nourishment is electricity. Feed it to your nerves and they will absorb it, just as a sponge absorbs water, and carry it to every organ and tissue of your body, where it gives energy and strength to all weak parts.

Your body is run by electricity. It's the lack of electricity that causes sickness and disease. When you carry a full supply of electric energy you are healthy and strong. Electricity is the power Nature uses to restore health, so can't you see that drugs won't give you this force?

Human electricity comes from the food you eat. The digestive juices of the stomach burn the food, and produce this energy, which is forced through the nerves to run the human machine.

When you eat your food, your stomach with drugs you weaken the supply of electric energy, the drugs

set the stomach, rendering it unable to generate this force.

Help Nature cure by restoring electricity where it is needed. My Electro-Vigor does this while you sleep. It saturates the nerves with this glowing power and these conduct the force to the part that is ailing and quickly restore health.

Electro-Vigor is a relief from the old system of drugging. It removes the cause of disease, and when that is done no pain or sickness can exist.

Electro-Vigor is not an electric belt. It is a dry cell battery and makes its own power continuously. There is no charging to do—just put it on and turn on the current.

Electro-Vigor cured me of digestive trouble and restored my strength after I had tried many other methods without benefit.

THOS. KELSEY, Smith, Oregon.
