

TEACHERS HEAR BISHOP CONATY

Open Meeting of Extraordinary Interest Will Be Held Tonight.

FLETCHER DRESSLAR ON MANUAL TRAINING

Berkeley University Professor Says That Learning and Doing Must Not Be Made Separate and Isolate Things.

(Journal Special Service.)
Los Angeles, July 8.—No general session was held by the National Educational association today, but a program of extraordinary interest has been arranged for the open meeting this evening, and it is predicted that the great auditorium, spacious though it is, will be unable to accommodate the thousands who will seek admittance to hear the addresses of Bishop Conaty, President Thompson of Ohio State university, Senator J. M. Stewart, Mexican minister of public instruction, and other men of wide prominence who are on the program.

Numerous department meetings are being held in various parts of the city today at which papers are to be read by the following members:
Kindergarten—Miss Grace E. Barnard, Oakland, California; Margaret E. Schaller, San Jose, California; H. Hill, president of Kansas State Normal school; Reuben Post Halleck, Louisville, Kentucky; Alois Frederick Lange, University of California.

Manual Training—George W. Eggers, Chicago; Fletcher B. Dresslar, University of California; W. H. Penrose, Hartford, Connecticut; Thomas A. Mott, Richmond, Indiana.
Music—Hamil E. Cogswell, Indiana; Pennsylvania; Stephen H. Penrose, president of Whitman college, Walla Walla, Washington; William McK. Vance, Delaware, Ohio; Miss Kathryn Stone, Los Angeles; Frederic H. Ripley, Boston, and Dr. Frank R. Rix, New York City.

BISHOP SCADDING ON CITIZENSHIP

Views of Greatest Breadth in His Oration on July Fourth.

NOW ON MISSION IN COOS BAY COUNTRY

Declares Oregon Spirit Animates Portland Instead of Alleged Portland Spirit—Makes Friends for His Church and Church in General.

(Special Correspondence to The Journal.)
Bangdon, Or., July 4.—Ranchers, farmers and loggers from miles around have assembled with the townspeople today in a grove on the seaside to celebrate the glorious Fourth. The procession from town was headed by the Bandon brass band. The oration was delivered by Bishop Scadding of the Episcopal church in Oregon. The Bishop was introduced by Colonel Rosa, and spoke with fervor on the subject of good citizenship. He neither twisted the lion's tail nor made the eagle scream, but in a very direct and practical way he showed the moral force of true patriotism in the nation, the state and the home.

CARVING MATCH ON STEAMER HASSALO

(Special Dispatch to The Journal.)
Astoria, Or., July 8.—Scott Anderson, a waiter, and John Scott, a cook, on the steamer Hassalo, got into an altercation Sunday evening and during the row Anderson slashed Scott with a butcher-knife, cutting his right hand and inflicting a severe wound in his side. Scott was taken to the hospital, where the injuries were found to be severe, though not dangerous. Yesterday was arranged for a justice court yesterday afternoon with an assault with a dangerous weapon. He waived examination and was committed to the county jail in default of \$750 bail, to await action of the circuit court. Both men are negroes.

LIGHTNING STRIKES CREW OF HAYMAKERS

(Special Dispatch to The Journal.)
Butte, Mont., July 8.—Lightning struck a haymaking crew near Cascade yesterday afternoon, killing one man and injuring five. The dead man, Theodore Anderson, was hurled 30 feet in the air, lighting on top of a load of hay.

NERVOUS COLLAPSE

IS OFTEN PREVENTED BY DR. WILLIAMS' PINK PILLS.

Taken When the First Warning Symptoms Are Noticed Much Needless Suffering May Be Saved.

Are you troubled with pallor, loss of spirits, waves of heat passing over the body, shortness of breath after slight exertion, a peculiar skipping of the heart beat, poor digestion, cold extremities or a feeling of weight and fullness? Do not make the mistake of thinking that these are diseases in themselves and be satisfied with temporary relief. This is the way the nerves give warning that they are breaking down. It simply means that the blood has become impure and cannot carry enough nourishment to the nerves to keep them healthy and able to do their work.

Best, alone, will sometimes give the needed relief. The tonic treatment by Dr. Williams' Pink Pills, however, prevents the final breakdown of the nerves and the more serious diseases which follow, because the pills act directly upon the impure blood, making it rich, red and pure.

Mrs. E. C. Bradley of 103 Paralels avenue, Rochester, New York, says: "I was never very healthy and some years ago, when in a run-down condition, I suffered a nervous shock, caused by a misfortune to a friend. It was so great that I was unfitted to work."

"I was just weak, low-spirited and nervous. I could hardly walk and could not bear the least noise. My appetite was poor and I did not care for food. I couldn't sleep well and once for two weeks got scarcely an hour's sleep. I had severe headaches most of the time and pains in the back and spine."

"I was treated by two doctors, being under the care of one of them for six months. I got no relief and then decided to try Dr. Williams' Pink Pills. I soon began to feel better and the improvement was general. My appetite became hearty and my sleep better. My headaches all left and also the pains in my back. A few more boxes entirely cured me and I was able to go back to work. I felt splendid and as though I had never been sick."

Dr. Williams' Pink Pills are invaluable in such diseases as rheumatism, after-effects of the grip and influenza, St. Vitus' dance and even partial paralysis and locomotor ataxia.

Dr. Williams' Pink Pills are sold by all druggists or will be sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

Stop Drugging

Don't Ruin Your Stomach With Poisons.

You know drugs haven't helped you and that they have weakened your stomach and nerves. You would like to quit but you are afraid you would be neglecting your condition if you didn't take some kind of "dose."

Ever since you can remember you have understood that the only way to cure pain or disease was to fill your stomach with drugs. Your father before you took drugs for every little ailment, and you think you must do the same. That's a foolish notion.

You don't seem to realize the danger in drugs. Why, most all drugs contain poison in large quantities, and it is this poison that's so destructive to the nerves.

Of course poison will ease pain for a short time by stupefying the nerves, but the pain comes back as soon as the stupor wears off. What your body needs is not drugs, but nourishment—something to build up, not to tear down. That nourishment is electricity. Feed it to your nerves and they will absorb it, just as a sponge absorbs water, and carry it to every organ and tissue of your body, where it gives energy and strength to all weak parts.

Your body is run by electricity. It's the lack of electricity that causes sickness and disease. When you have a full supply of electric energy you are healthy and strong. Electricity is the power. Nature uses to restore health, so can't you see that drugs won't give you this force?

Human electricity comes from the food you eat. The digestive juices of the stomach burn the food and produce this power, which is forced through the nerves to run the human machine.

When you dope your stomach with drugs you decrease your supply of electric energy, for drugs
