NO FUNDS AVAILABLE

Water Board Renders Statement Showing It Is Powerless to Provide Residents With Bull Run Water and Fire Protection

That Portland is handicapped in its efforts to provide residents with Bull Run water developed at the meeting of the water board yesterday afternoon when a score of water users from different parts of the city appeared and asked for an improvement in their condition. Lack of funds in carrying out contemplated extensions is responsible for this condition, and a detailed statement of expenditures as shown in the report of Superintendent Dodge seemed to satisfy petitioners that the board could give no immediate relief. Most of the people who appeared before the board wanted pipes laid in their districts, so that they might connect, while the remainder wanted the present pipe lines in their districts replaced with

larger mains, thus affording better fire protection. Superintendent Dodge's report showed an unexpended balance from last year's estimate of \$79,188.70, and this, with last December's estimate of \$202,500 for main extensions, leaves the water system a yearly working fund of \$382,688.70. The report shows that of the fund \$66,580.85 has been spent for extensions of mains, \$7,862.11 for reservoirs, \$15,131.18 for water meters, \$25,000 for the purchase of the Mount Labor water works and \$20,110 for the purchase of the Piedmont water works. There still remains in the water fund as running expenses for the next six months the sum of \$237,981.46. An expense of \$170,456.98 has been contracted from this fund, and when \$19,980 worth of mains recently ordered by the board are paid for there will remain for improvement purposes until the first of next year the sum of \$47,535.83. Councilman Vaughn appeared before the board and asked for the laying of an eight-inch main on Dekum avenue which will also serve the residents of Piedmont Park and Woodlawn. An objection to this was made by H. Kubik, owner of the reservoir and pumping station, who said that if this was done the residents would all connect with the city mains and leave him without patronage. Kubik had been offered \$2,400 for his plant by the city, but the offer has been withdrawn and the members of the board will visit it for the purpose of fixing a valuation and submitting another offer. No action will be taken on the petition until the inspection can be made. Councilman Annand also appeared before the board in behalf of residents of Portland Heights to urge that the reservoir be repaired and the pumping station project be carried out as planned. Better rates for domestic use and fire protection is what they are asking for, and they said it must come through the medium of the reservoir and pumping station. This matter is already undergoing investigation from other committees and a report will probably soon be made. Half past seven. See tomorrow night's Journal.

NO PROSECUTION FOR HARRIMAN

President and Commission Content With Publicity Given Chief's Acts.

(Journal Special Service.) Washington, July 11.—The interstate commerce commission's report on examination into the Harriman railroads has been completed and sent to the printer and will be made public within a few days. It was written by Commissioner Franklin K. Lane and it is understood that it contains caustic denunciations of Harriman's acts in connection with the watering of stock of the Chicago & Alton and the San Pedro & Salt Lake railroads, and the throttling of competition on other lines. As the commission has jurisdiction only in cases coming under the interstate commerce laws, its report as to violations of the Sherman anti-trust act does not necessarily make it imperative for the government to begin prosecutions. The department of justice may take cognizance of these portions of the report, and it may not, as it pleases. It is not known whether the commission has certified any charge to the department of justice involving violations of the interstate commerce laws. The impression is general, however, that no prosecution of Harriman is intended and that President Roosevelt and the commission are contented for the present with the publicity that will be given to Harriman's acts.

SOCIETY LEADER SUES FOR DIVORCE

Mrs. Preston Gibson, Friend of President's Daughter, Seeks Separation.

(Journal Special Service.) Chicago, July 11.—Society circles here and in eastern cities are deeply stirred by the divorce suit filed by Mrs. Preston Gibson against her husband. The utmost efforts have been made to keep the matter secret and actual charges in the bill are not yet known. Domestic difficulties of the couple have been the subject of much comment for a long time, however. Preston Gibson is an author and wealthy clubman and his family has been prominent for years. When President Roosevelt went to Washington Mrs. Gibson and the president's daughter, Mrs. Nicholas Longworth, of Cincinnati, then Miss Alice Roosevelt, became great chums. Upon coming to Chicago the Gibsons opened their beautiful home and entertained lavishly. One social success followed another. Mrs. Gibson appeared at all the horse shows of Chicago and suburbs as an exhibitor and nearly as often was the winner of ribbons. Frequently she appeared at horse shows in New York and other cities. In the last two years she has taken ribbons at the Chevy Chase Country club of Washington and horse shows in Baltimore, New York and Boston. Preferred Stock Canned Goods, Allen & Lewis Best Brand.

MINISTERIAL GUESTS ENJOYED THEMSELVES

Dr. Brougher Entertained Baptist Delegates Visiting Portland Driving About City.

Dr. Brougher escorted Dr. Curtis Lee Laws, pastor of the First Baptist church of Baltimore, Maryland, Dr. John Roach Stratton, pastor of the Second Baptist church of Chicago and Rev. George T. Webb, field secretary of the F. Y. P. U. around the city yesterday to their great delight. After taking in the various points of interest in the city they took an automobile ride out to the Webb farm near Gresham, where the visitors were delighted with the immense cherry orchard, which they say surpasses anything in that line they have ever seen. Dr. Stratton lectures at the Chautauqua this afternoon and evening. Dr. Brougher will be at the Chautauqua with him, but will return in time to conduct his prayer meeting, which will be in the nature of an observation meeting. YAMAMOTO DECLARES WAR IS IMPOSSIBLE (Journal Special Service.) New York, July 11.—That there is no possibility of war between the United States and Japan is the opinion expressed by Admiral Yamamoto of Japan who is here on a visit. Admiral Yamamoto and Admiral Evans held a long friendly visit yesterday afternoon when they discussed the situation at length and both were emphatic in expressing the belief that the war talk is all both. Half past seven. See tomorrow night's Journal.

WITH SQUADRONS COMES MILLIONS

Each Battleship Costs a Fortune to Maintain in Commission.

(Journal Special Service.) Washington, July 11.—It has been figured out that the sending of a big fleet of warships to the Pacific will be of great financial advantage to coast cities. Records in the navy department show that it costs approximately \$1,000,000 annually to maintain a battleship and \$900,000 for the care of an armored cruiser. This includes the cost of repairs, coal and provisions, and the pay of the officers and men. All but the latter must be supplied from the resources of the far west. There will be in the neighborhood of 500 mouths on each ship of the fleet that must be fed three times daily. Millions must be expended for dock facilities, if the fleet remains any length of time. Unheard-of Bargains! Every one who visits the Reed-French Piano company's salesrooms reports to this effect to all her friends and then they go. The crowds keep up, and the pianos go out daily. Half past seven. See tomorrow night's Journal.

HOSTILE FLEET TO MAKE ATTACK

Guardsmen at the Forts at Mouth of Columbia Will Engage in Mimic War.

(Special Dispatch to The Journal.) Fort Stevens, Or., July 11.—Such rapid progress has been made by the Oregon troops learning the handling of the mortar batteries at the fort that target practice with steel projectiles was held yesterday and tomorrow a mimic bombardment will be commenced. The target practice yesterday was by mixed gun crews of regulars and guardsmen and remarkable results were obtained. A certain area was prescribed as a target, and shells after shells were dropped into the proper spot, very few going wide of their mark. The government tug Gray Howard will be sent to sea tomorrow with instructions to run in and out day and night. The forts will be equipped with blank ammunition and will be on guard awaiting her arrival. The tug is to represent a hostile fleet and will attempt to make the entrance to the harbor without being detected and sunk by the guns in the forts. Half past seven. See tomorrow night's Journal.
