Brainard Cubs Defeat East Side Athletic Club by a Score of 12 to 3.

The Tri-City teams playing in Chatauqua are giving the patrons and fans a clean class of ball, and as every team is playing to win the interest runs high. Yesterday the Brainard Cubs took another scalp, this time that of the fast East Side Athletic club team.

The game was a beauty for seven innings, Kruger of the Blackbirds holding the heavy hitters on the Cub team down to five hits. He tired in the eighth, and the Cubs lambasted him for doubles and

the Cubs lambasted him for doubles and singles galore.

The Blackbirds put up a great fielding game behind Kruger, Lundberg's work in center field being of star order. Gus Kiser, the ex-Maroon bitcher, officiated for the Cubs, and had the Blackbirds guessing at all times. Rich Parrott at first for the Cubs and Emerick behind the rubber were also there with the goods. The St. Johns team was unable to fill the dates on the schedule, and the East Side Athletic club has taken its place. A big bunch of rooters accompanied the Athletic club. The score:

REAL PLEASURE TO GO TO JAIL AT ABERDEEN

(Special Dispatch to The Journal.) Aberdeen, Wash., July 12.—Ten new steel cells are now being placed at the city jall under the direction of an expert, ten being for men and two for women. They are of the best modern construction, and provided with the best sanitary arrangements. The cells for the women will be separate from the others by a partition, so that at last it will be possible to properly care for women prisoners. Another improvement much needed will be the building of a big ventilator running from the floor to the roof, which is a feature required by law. It will take about three weeks to get things in shape so that prisoners can be placed in the cells. The addition of four more windows will give plenty of air and light, and when the improvements are finished Aberdeen will have a thoroughly up-to-date jail. Aberdeen, Wash., July 12.- Ten new

We Cure Men

HAVE SO MANY MEDICAL FEES TO PAY.

We are curing more men than any two specialists in Portland. Our small fee enables us to cure for less money than many self-styled specialists ask for their services. Our advice to you will be worth much in your case if you

need the services of a skilled, reliable specialist. Do not waste your life consulting irregular "doctors" who possess neither the education, skill nor experience necessary to find out what your allment is, much less to cope with it and make you well.

Things that are not done right never turn out well. Begin right!

Consult us! We are regularly graduated University Trained Specialists, whose original investigations and long study into the cause and cure of special diseases have caused us to be duly recognized as the leading specialists in our line.

We Cure Nervous Debility

This is to men who lack courage, whose nerves are shaky, whose eyes have lost the sparkle, whose brains are muddled, ideas confused, sleep restless, confidence gone, spirits low and easily depressed, who are backward, hesitating, unable to venture because they are afraid of failure; who want somebody to decide for them, who are weak, run down and restless. It is to men who have part or all of these symptoms and want new life, new energy. We especially solicit those cases in which many so-called treatments have failed, or where money has been wasted on other methods of treatment. Don't experiment when our direct method offers a certain means of cure by local treatment.

We Cure Varicocele

Varicocele causes congestion of the blood in some of the most vital blood vessels of man. It causes a dull, heavy, listless feeling, which is often mistaken for nervous debility or general decline. Varicocele results from partial paralysis of the delicate nerve fibers that control local circulation of the blood. The muscular coating of the veins is deprived of nervous control and becomes mactive, weakens and relaxes. The blood vessels expand from the pressure within. The circulation becomes sluggish and clots form in little nooks and pockets that constantly enlarge as the relaxation continues.

has always been my rule to promise nothing that I am not absolutely certain of accomplishing. Realizing that no one physician can successfully undertake to cure all diseases, I entered special courses of study in preparation for my present work. For 16 years I have been proving my ability and building my suc-cess. I have mastered, first the simpler diseases, then the serious complex and stubborn ones that others neither cure

nor comprehend. I have confined my efforts to diseases of men exclusively and there is no ailment belonging to this class that I cannot fully conquer. I make broad and definite claims. I tell men that I can cure them, even though others have failed. Jealous doctors have charged me with claiming too much. But, I ask, wherein have I failed to fulfill a promise? My practice is now fully twice that of any other specialist upon the Pacific coast treating men's diseases. It has grown to these dimensions because I have made promises and fulfilled them. Each cure I have effected is a triumph and a manifestation of skill that has had its part in the making of my success. Each day new cures are completed, and my present growth of practice is more rapid than ever before.

To produce temporary activity of the functions in cases of so-called weakness is a simple matter, but to permanently restore strength and vigor is a problem that but few physicians have solved. I never treat for temporary effects. Under my system of treatment, every bit of improvement is a part of a permanent cure. Though other physicians have, through my success in effecting permanent cures, been convinced of the fact that prematureness, loss of power, etc., are but symptems resulting from chronic inflammation or congestion in the prostate gland, none have as yet been able to duplicate my cures. My system of local treatment is the only effective means yet known for restoring the prostate to its normal state, which always results in full and complete return of strength and vigor. Such a cure is absolutely permanent, because the condition responsible for the functional disorder is entirely removed. It is the only kind of a cure a patient desires, and is the only kind of cure I will treat for.

CONSULTATION PRES. I state nothing in my announcements but the straight, square truth. It will cost you nothing to call and talk over your case. You can find out all about your trouble and you can later arrange to begin treatment any time you like. My offices, comprising ten rooms, are the largest, most elegant and best equipped in the west.
