Came With a Horse and Wagon Left Station With Gallery for Explosions

over the office of the Busse Coal com-

Fred Busse did not remain long in chool, says the Review of Reviews. His boyhood was spent in various occupa-tions, much of the time helping his

The young man's kindness of hear The young man's kindness of heart brought him an opportunity, through another's misfortune, to go into business for himself in a small way.

One day an old expressman whom he had befriended was found hanging to a rafter in his stable. In the pocket of the dead man was this note: "I want Fred Busse to have my horse and wason."

With this outfit Mr. Busse went into the express business, which rapidly broadened into a general teaming business. Later the sale of coal was added and today the Busse Coal company is among the largest retail dealers in that

Mr. Busse is a man of large frame and rotund figure, but notwithstanding his size he is quick of action physically. and mentally is alert. As postmaster at Chicago he has given an efficient administration. When he wanted anything at Washington he did not write.

He went.

During his year and a quarter of service as postmaster he had been to Washington 12 times, never taking more than three or four days for each trip. He has succeeded in having 500 employes added to the postoffice force in Chicago. Various improvements in local Chicago. Various improvements in local office management have also been made by him. Discipline has been wall main-

tained.

The campaign that brought him into office is notable for the fact that during it the successful candidate never once appeared in public nor made a speech. On the evening of February 22, when he was returning from Washington, Mr. Busse was seriously injured in the wreck of the fast Pennsylvania train near Altoona. It was several days before he could return to Chicago, and when there he did not once leave his home until election day, when he hob-

Strange Bequests.

From the Grand Magazine.

In his will Stephen Swain of the parish of St. Olave, Southwark, gave to John Abbot and Mary, his wife, sixpence each, "to buy for each of them a halter, for fear the sheriffs should not be provided."

John Aylett Stow left the sum of five guineas for the purchase of the picture of a viper biting the hand of his rescuer, to be presented to an eminent K. C. as a reminder of "his ingratitude and insolence."

is going to begin experiments, probably at Pittsburg.

A station is to be established, says Discovery, consisting of an explosive gallery, rescue room, observation house, lamp testing rooms, and explosives laboratory. The gallery is to be made of boiler plate and will be in the form of a cylinder 100 feet long and six feet in diameter. A series of safety valves on hinges will be arranged along the top to allow the escape of gas following an explosion.

top to allow the escape of gas following an explosion.

Port holes along the sides, covered with half-inch plate glass, will allow those in the observation house to see whether an explosion has taken place in the gailery during the tests. The cylinder will be filled with firedamp and air or coaldust and air and the explosives will be hurled into the gailery by means of a steel mortar fired by electricity from an observation house 60 feet away. The maximum quantity

WeCure Men

\$10 Our Fee

See Us First and You Will Not Have So Many Doctor's Fees to Pay

Get our advice free; you will be satisfied with our thorough examination of your case. Nervo-Vital Debility Our cure for weak men stops every drain nervous system, purifies and enriches the blood, cleanses and heals the bladder and kidneys, invigorates the liver, revives the spirits and brightens the intellect.

BLOOD POISON Our special form of treatment for blood poison is the result of a life work, and is indorsed by the best physicians of this and foreign countries. It contains no dangerous drugs or injurious medicines of any kind. It goes to the very bottom of the disease and forces out every particle of impurity. The blood, the tissues, the flesh, the bones and the whole system are cleansed, purified and restored to perfect health.

Stricture

Our cure dissolves the stricture completely and removes every obstruction from the urinary passage, allays all inflammation, stops every unnatural discharge, reduces the prostate gland, cleanses and heals the bladder and kidneys, invigorates health and soundness to every part of the body affected by the disease.

Chronic Diseases We solicit the most stubborn and long-standing where others have failed that has gained us our reputation. Our offort where others have falled that has gained us our reputation. Our offort is to effect a cure which shall be immediately beneficial, and lasting for the remainder of your life. Many men incur diseases peculiar to their sex through lack of education upon the subject. We are able to help you regain your powers and retain them. We charge you nothing for the advice, only for the cure.

Varicocele

When neglected varicocele undermines the strength, deranges the functions, racks the nervous system and often produces an obliteration of the vital powers. We cure the most aggravated cases of Varicocele without pain, suffering or inconvenience. Not only do we give internal constitutional remedies, but we also employ a local treatment which restores the perfect circulation of the blood and regenerates the secretions, while the glands are enlarged and vigor and vitality are renewed. You will acquire from this cure a sense of well being which accompanies good, healthy and robust manhood.

CONSULTATION FREE

WRITE if you cannot call. All correspondence strictly confidential and all replies sent in plain envelopes.

TO AMERICAN AND EUROPEAN INVESTORS: Buy Mines in Siskiyou Co., Cal.

Fortunes Have and Will Be Made Out of Mining in Siskiyou County

are receiving only 4 per cent annual interest.

After careful study of existing conditions in mining sections of which you have read so much, the many fortunes which have been made, and that will be made (out of the most indepnedent enter- millionaires who are investing in prise), which can only be applied and uncovering mining fields. The to the mining industry, which is known to give millions in return for thousands invested.

You hear of Nevada mines, Utah Oregon and Arizona, and you have as well heard of the California mines, out of which millions have been produced.

BUT YOU MAY NOT HAVE HEARD ABOUT SISKIYOU COUNTY MINING.

That has produced over \$150,000,-000 in gold. While that vast amount of wealth has been divided among the mining operators, the county has been modest about telling the world what it has in the way of mines. It has mined for a great number of years, producing gold, and there are today as great mines in Siskiyou county, which will become as great mines as are in Nevada, Utah or Arizona.

IT IS A COUNTY THAT IS HOLDING OUT AS GREAT OPPORTUNITIES TO-DAY AS NEVADA.

There are mines in that county today that with comparatively a few thousand dollars would develop producing mines.

INVESTORS

It will pay you to investigate the mines that are held out today to the investing public. With the proper method of mining applied to these mines, they would yield to the owners great profits, much greater than one could gain from any other investment on the market today. Siskiyou county is modest in let-

ting the public know what they

hands for a price of a few thousand dollars, and a few months ago the same mines have brought hundreds of thousands. There are mines there today which could be had from individual owners, who are operating indi- have once been considered worth-

ing the latest approved machinery to such enterprise. YOU HAVE HEARD RE-

MARKED OFTEN By the ones entirely ignorant of IN SISKIYOU COUNTY. mining that more has been lost in

made? It is mines that have pro- of thousands in a few years. duced the millions and billions of dollars. It is mining that has made the great millionaires whom you hear so much about. It is these great financiers of this country have made the greater part of their fortunes in mining.

MORE MONEY IS BEING IN-VESTED BY NEW YORK FI-NANCIERS IN NEWLY DIS-COVERED MINES THAN FROM ANY OTHER PART OF THE COUNTRY.

They well know the opportunities in mining are greater than in any other enterprise.

As a matter of fact, let any section be brought to the knowledge of the public and you will immediately find that New York has the greatest number of representatives for the purpose of securing every possible interest in such mining To confirm this all you section. have to do is to take up your Nevada section, and you wil find the most of the sections are owned by New York financiers. You take up the Utah and Arizona sections, and you will find the same thing, and so you will find in every section of the globe where mining is being extensively operated that the eastern financiers are the largest operators in these mines.

IT IS THE GOLD METAL Which you extract from Mother

Earth which gives the gold. IT IS THE MOST INTER-ESTING ENTERPRISE THAT ANY ONE CAN BE INTEREST.

ED IN. A mine should pay, if well managed and proper judgment exercised in its operation. It is known that bad management has caused the best of mines to become worth-Mines that have changed less, after which the very same mines have been taken up and conservative management applied and they have become fortune-produc-The same is the case of hundreds of mines in operation in every section of the country, which vidually mines which are large less, changing hands for a few enough to make fortunes if oper- thousand dollars, and the same ated in a miner-like manner, apply- mines today would bring millions.

A word with you, who have ac- That is entirely false. You only any of the mining sections yet cumulated savings, upon which you have to ask yourself the question mentioned. What you can do in from which source of enterprise this section today with a few thouhave the greatest fortunes been sand dollars will bring hundreds You can secure mines there to-

day which are worth four or five times what they are asked for. By applying the most improved machinery and economic methods it would bring great results to its owner, and you will find investments there that could not be found elsewhere in the country.

NOTHING BUT WILLFUL MISJUDGMENT

Could interfere with producing great fortunes out of the Siskiyou county mines.

To assist you in your decision, we refer you to the Chamber of Commerce of Siskiyou County, Yreka, California, who will tell you the opportunities better than we have attempted to do. We ask no one to follow our advice, but to

investigate for yourself. Any one with the least knowledge of mining will at once recog-nize what the mines are holding out to the investing public.

WE HAVE NOTHING TO SELL IN THE WAY OF MIN-ING. WE URGE NO ONE TO BUY ANY OF OUR MINES.

But what we would suggest is for you to investigate Siskiyou county mines, and allow the Chamber of Commerce to tell you all about it, and if you have any knowledge concerning these matters, you cannot help being interested.

If you have any money that is in want of greater returns than you can now earn, you cannot find a better place for it than in the Siskiyou county mines.

This office will be pleased to rive any information concerning the mines in Siskiyou county.

Great copper discoveries are being made in what is known as Happy Camp, in Siskiyou county, which is also rumored to be controlled by eastern financiers. The great Trinity mine is on the same general range as the Siskiyou county mines. And so we could name dozens, if not hundreds, that are quietly in operation and rich in gold, and run in a modest, quiet

and removes the cause. A good specialist has ALL scientific mechanical aids

The specialist goes further

for his specialty. for all ailments.

I have treated hundreds of men who had long suffered a gradual decline of physical and mental energy as a result of private ailments, and have been interested in noting the marked general improvement that follows a thorough cure of the chief disorder. My success in curing difficult cases of long standing has made me the foremost specialist treating men's diseases. This success is due to several things. It is due to the study I have given my specialty; to my having ascertained the exact nature of men's ailments, and

to the original, distinctive and thoroughly scientific methods of treatment I employ. To those in doubt as to their true condition who wish to avoid the serious results that may follow neglect, I offer free consultation and advice, either at my office or through correspondence. If your case is one of the few that has reached an incurable stage, I will not accept it for treatment, nor will I urge my services upon anyone. I treat curable cases only, and cure all cases I treat.

Cured

My Fee in Any Uncomplicated Case

So-called "weakness" in men is curable—fully curable. It has not been cured by those measures commonly employed, for they are methods based upon supposition and not upon fact. Prematureness and loss of power in men is due to a chronic state of inflammation in the prostate gland, and not to a disordered nervous condition, as has been supposed. I treat the inflammation by a local process that does not fail to accomplish its purpose, and with this condition corrected full and complete strength and vigor returns.

STRICTURE—My treatment is absolutely painless, and perfect results can be depended upon in every instance. I do no cutting or dilating whatever.

Weakness

Contracted Disorders

Every case of contracted disease. I treat is thoroughly cured; my patients have no relapses. When I pronounce a case cured there is not a particle of infection or inflammation remaining, and there is not the slightest danger that the disease will return in its original form or work its way into the general system. No contracted disorder is so trivial as to warrant uncertain methods of treatment, and I especially solicit those cases that other doctors have been unable to cura.

Without using knife, ligature or caustic, without pain and without detention from business. I cure Varioscele in one week. If you have sought a cure elsewhere and been disappointed or if you for the harsh methods that most physicians employ in treating this disease, come to me and I will cure you soundly and permanently by a gentic and painless method. Don't delay. Varioscele has its dangers and brings its diseastrous results. If you will call I will be pleased to explain my method of curing.

SPECIFIC BLOOD POSSON—Ne dangerous minerals to drive

Varicocele
