Might have assumed serious proportions were quickly extinguished with trifling damage. At 2:14 p. m. engine 3, truck 3 and hose 6 responded to a telephone alarm for a small blaze in a dwelling at 247 North Sixteenth street. A lighted lamp dropped by one of the members of the household set fire to a lounge, and before finally extinguished the flames entailed a loss of about \$50. The same companies were called out at 5:10 p. m. to the Northern hotel. Twelfth and Marshall streets, for an incipient blaze in a small room on one of the upper floors. The flames were quenched without difficulty, and the loss will not exceed \$100, fully covered by insurance. The structure is a three-story frame, and was formerly occupied by St. Vincent's hospital. The building was guiled by fire last year, necessitating expensive repairs. An alarm from box 52, at Third and Madison streets, at 7:55 p. m. brought out engines 1 and 4, truck 1, chemical 2 and hose 5 for a small fire int an attic room in the boarding-house at 284 Main street, conducted by Mrs. Jenkins. The blaze started in the apartment occupied by Messrs. Olsen and Haywood and was caused by an overheated stove. The fire was extinguished by a chemical stream and the damage was small. cement that formed the bed for the Belgian blocks laid on the street from Madison to Columbia. Bix weeks ago Rankin was dischalt of from the public service by City End neer Taylor when the tearing up of the ement blocks in the center of the street for tracks for the United Rail-ways company revealed the condition of the cement base beneath the stone blocks. Inspector A. L. Powell was one of the first to notice the crumbling ce-ment and immediately called it to the attention of his chief. Yesterday in the meeting of the street committee of the executive board the matter was brought up and given a thorough discussion. Just what action will be taken remains to be worked out this afternoon at the meeting of the board. In all probability suit will be commenced against Contractor Howard and an effort made to compel him to reimburse the city for the money paid out to him. If it can be proven that collusion existed between Howard and Rankin by which the latter winked at violations of the specifications for a consideration, criminal charges will be inded against both of them. Officials state that when the cement at the point inspected is taken up it crumbles to dust and sand, indicating that but one barrel of cement was the stone blocks and \$2.60 per square yard for the blocks themselves. The work was done about a year ago and the poor condition of the cement base for the stone blocks themselves.
