

# Consult Your Wife

and you will surely buy an

## "ECLIPSE"

### STEEL RANGE

When the time arrives to buy a new range your wife should be consulted, for often her judgment in such matters is superior to your own, and it should be. No bright, intelligent woman familiar with household work can fail to note at once the

### Superior Points of the "Eclipse"

She will point out to you the great DAMPER feature of the "Eclipse." This Sliding Damper is an exclusive feature of the "Eclipse." By it you are able to regulate the draft from a wide open flue down to the thinness of a knife blade. She will explain how it SAVES FUEL.

The wife will point out to you the Large Firebox built in the "Eclipse." Every

woman knows that it is very essential to have the firebox of right proportion to the size of the oven to secure good baking. And here is where the "Eclipse" shines—IT DOES BAKE MOST EXCELLENTLY!

The wife will call your attention to the wide and deep air spaces surrounding the oven, also to the TWO STEEL WALLS

and the THIRD or inner wall of asbestos. She will show you the difference between the solid front steel walls of the standard "Eclipse" and the so-called "cheap" ranges with their single sheet-iron wall coated inside with a layer of asbestos. Then you'll quit talking "price" and talk "quality"—and the "Eclipse" stands for highest quality. It will take the woman to discover the

advantages of another exclusive feature of the "Eclipse"—the Broiler Ratchet. This ratchet is fitted to the front section and enables you to broil or toast over any kind of fire. No other range possesses this great improvement.

There are many other superior features of the "Eclipse" ranges that will appeal to the intelligent housewife—the draft con-

troller, the double front draft openings in the front and full length of firebox, the oven thermometer, the extra deep warming oven, the sectional lids, duplex grate (for either wood or coal), the plain nickel trimmings, etc. But best of all is guarantee of QUICK BAKING. The Eclipse oven will bake biscuits to perfection within SEVEN MINUTES after starting the fire.

### Two Heads Are Better Than One.

## Installed in Your Kitchen for One Dollar

### \$1 a week

It costs us about \$5.00 to deliver and install an "Eclipse" Range, but our confidence in the "Eclipse" is so great that we are perfectly willing to entail this trouble and expense for ONE DOLLAR. We know our range and are confident that you will be glad to keep it, once you try it, and pay us a dollar a week.

# GEVURTZ & SONS

### \$1 in cash

As a guarantee of good faith—that you really mean business—we secure one of our great "Eclipse" Steel Ranges. We deliver and install the "Eclipse" in your kitchen for that one dollar; then, if the range proves to be all we claim for it and is perfectly satisfactory to you, then you pay us a dollar a week.

## PARTING PREMONITIONS PAIN THE CHAUTAUQUAN

### One More Workday and Then the Sabbath Day and the Farewells.

### MAGNIFICENT SUNDAY PROGRAM ANNOUNCED

### This Is Yellow Ribbons' Day With Equal Suffragists Out in Strong Force—Great Lectures of Doctors Landrith and Batten.

(Special Dispatch to The Journal.) Oregon City, July 19.—"One more working day and the 1907 Chautauqua season will have passed into history," was the regretful thought uppermost in everybody's mind when they gathered in the various tents this morning, but while the air of finality was perceptible in the drawing to a fitting close of the study courses, the classes were all full and the students more eager than ever to get the most out of the all too short term. The following classes all opened on time: 9 to 10 a. m.—Junior Bible study, Mrs. Alice M. Handaker. 8 to 11 a. m.—Music classes, Dr. R. A. Heritage. 10 to 10 a. m.—Mission study, Professor J. D. Ewing. 9 to 11 a. m.—Physical culture, Professor A. M. Grilley. 9 to 10 a. m.—English literature, Dr. B. J. Hoadley. 9 to 10 a. m.—Elocution, Professor W. Eugene Knox. 10 to 11 a. m.—United States history, Hon. Willis C. Hawley, M. C. 10 to 11 a. m.—Domestic science, Miss Lillian Tingle. 10 to 11 a. m.—Bible study, Rev. James Hoffman Batten. Many compliments are being showered upon Mrs. Eva Emery Dye, whose popular forum grows more in favor every day, and she certainly has been happy in her selection of topics, for each seems to strike the popular fancy, and each day has brought out a goodly number of people for no other purpose than to attend these meetings. This is Yellow Ribbon Day. Today the "yellow ribbon" holds high carnival and the woman that doesn't believe in the equality of her sex will have a hard time excusing herself to the many hundreds of ardent suf-

physical culture. The program tonight will consist of special athletic and musical numbers, which will be given by the young men of the various classes.

### Cool Day Chilled Nobody.

The cool weather yesterday increased rather than diminished the attendance, as was feared when everybody came shivering from their tents in the early morning and greeted each other with the question, "Were you cold last night?" Thursday, in spite of the cold, proved one of the banner days in attendance. At the forum Mr. Arthur A. Greene gave an excellent talk on "The Ideal Play," which was listened to with attention by a good-sized audience. At the last moment President Campbell telegraphed he could not be present and Professor Garry took his place.

### Dr. Batten on Gold Greed.

The large auditorium was well filled at 2 p. m. when Dr. James H. Batten of North Dakota began his lecture on "The Higher Expansion," and although he spoke considerably over an hour he held his audience tense with interest to the close, despite the fact that the shouts from the baseball field began to break upon the air before he finished.

It was an intensely practical lecture and must certainly have found a lodging place in the consciences of some of the many that heard him. Commercialism and the greed for gold Dr. Batten considered the blight of the age and the root of all evil, to come from under its spell was the higher expansion, and the speaker declared himself an optimist in believing it was coming—the kind of an optimist that had the courage to

help it to come. Dr. Batten has a fine delivery and a voice that carried to every part of the building.

### Fine Evening Entertainment.

The evening program, which was in charge of Professor Knox, assisted by Miss Johnson, was a delight to everybody, and after the many lectures which have kept the brain and nerves at tension to keep up with and understand them all, it was pure joy to sit and just be entertained, and so charmingly entertained at that.

The W. C. T. U. round table yesterday was very largely attended, and everyone was well repaid for staying by the very fine papers that were read by several woman writers of Portland, among them being Mrs. LaBarre, Mrs. Stone, Miss Monroe and Mrs. George Pressworth was the topic of the afternoon, and the regular monthly meeting of the Press club was held at the close of the round table.

During the afternoon Mrs. Nina Larow of Portland gave several readings, and some fine music was rendered.

### Reception to Press Women.

At headquarters of the W. C. T. U. an informal reception was tendered the press women and writers who were present. At the Y. W. C. A. round table Miss Isom of the Portland library gave an interesting talk on the work of the Oregon Library commission, and gave much valuable information in regard to how lists of books could be obtained, under what conditions the traveling libraries of the state would be sent out, and answered innumerable questions that were asked by interested listeners.

### Magnificent Sunday Program.

All classes will close with the Saturday morning lessons, and all secular programs will be finished Saturday night, when a grand display of fireworks will end the entertainments and sports. But the curtain does not ring down on the lights go out for the last time until Sunday evening, and a Sunday program has been arranged which will eclipse all other days, it is anticipated. Sacred music of the highest class and of the very best will be one of the great features of the day. Miss Johnson will sing several times, and Dr. Heritage also. The Indian band will give a sacred concert at 4 p. m.

The Chautauqua management feels it especially fortunate in being able to announce that one time during the day Professor C. M. Cady, founder of the department of music in the University of Michigan, his friend of Boston, and who is conducting a summer school of music in Portland, will give a classical concert of sacred music. Several national stremers, four pounds, three pounds, two pounds, one pound, will participate. The exact time and the program will be announced later.

Dr. Batten will preach the morning sermon, and Right Reverend Charles Scadding, bishop of Oregon, will be heard in the evening.

### The Fireworks Saturday Night.

The fireworks tomorrow night will be the finest and most magnificent seen in or around Portland this year and consist of the following pieces: "Ely" Rockets—twelve one-pound colored star, twelve three-pound colored star, six parachute three-pound star, three national streamer, four pounds, three pounds, two pounds, one pound, three bouquets of rockets, three pounds, three peacock plume rockets, four pounds, two the queen's floating peas, eight pounds, six serpents of rockets, four pounds, three prismatic torrent rock-

ets, three whistling rockets, six pounds, twelve floral bombshells, four laches, six floral bombshells, five inches, six serpent mines.

Exhibition Pieces—"Welcome," two-foot letters, flowering aloe, 10x8 feet, true lover knot, 10x10 feet, the silver diamond star, 7x7 liberty tree, 1x1x3 furlions tree, 10x14, transparent wheel with flowers, 8x8, decoration wheel with stars, 10x10, the anchor, 8x5, bouquets of flowers, 8x12, shower of flowers, 10x14, horizontal bouquet wheel, 10x10, the moonshine in the grove, 20x14, the whistling caprice, 10x12, "goodnight," two-foot letters.

### The Program.

Following is today's program in brief: Morning—8 to 11, summer school; 11, Chautauqua forum. Afternoon—1:15, concert, Chemawa Indian school band; 2, contralto solo, Miss Jennie F. W. Johnson; lecture, "Jes' a Lil' Cabin," Dr. Ira Landrith, L. L. D., of Belmont college, Nashville, Tennessee; 3:30, baseball, Trunkmakers vs. Brainard's Cubs.

Evening—7:15, concert, Chemawa Indian school band; 8, grand final concert, eight choruses, by the Chautauqua Choral club, with solos, duets, and quartets by noted musicians from various parts of the country. Miss Johnson of Chicago, Mr. von Jessen and Dr. Heritage will each give a number; 9:30, at the close of the concert a grand display of fireworks will be given by Professor William Kielsing, recently from Germany.

### HERMAN BILLEK IS SENTENCED TO DIE

(Journal Special Service.) Chicago, July 19.—Herman Billek, the hypnotist, was convicted of the murder of six members of the Vyal family and sentenced to death by the jury last night. It was alleged that Billek killed the Vyal children so he might collect the insurance upon their lives.

### Athena's Teaching Corps.

(Special Dispatch to The Journal.) Athens, Or., July 19.—The list of teachers for the Athena public schools is now complete for the ensuing term as follows: Homer I. Watts, principal; A. Scott, assistant principal; Miss Gibbons, Miss Keller, Mrs. Homer Watts and Miss Carrie Sharp. The salaries have been raised over last year, and Athena promises to have a banner school year.

### Doan's Ointment cured me of eczema that had annoyed me a long time. The cure was permanent.—From S. W. Matthews, commissioner of labor statistics, Augusta, Maine.

### THREE LINES AFTER BANNING'S BUSINESS

### Great Rate War in a Small Way About to Center at the Paradise of Avalon.

(Journal Special Service.) Los Angeles, July 19.—Quickly following the decision destroying the Catalina monopoly of the Banning's comes the announcement that three opposition steamer lines will begin service at once to open the port of Avalon and cut the rates. The Wilmington Transportation company, the Meteor Boat company and the Los Angeles Pacific railroad will start the competitive service at \$1 or less for the round trip, which has heretofore cost \$2.75. It is believed that the Bannings will meet any reduction that may be made.

### Wallowa Pythian Officers.

(Special Dispatch to The Journal.) Wallowa, Or., July 19.—The new officers of the Knights of Pythias lodge of this place for the ensuing term are as follows: J. O. Kiddle, C. C.; J. C. Baird, V. C.; Bruce Cox, K. of R. and B.; M. C. Davis, prelate; C. T. McDaniel, M. of E.; R. H. Jones, M. of F.; C. H. Meehan, M. at A.; S. H. Conner, M. of W.; George Hammel, I. G.; Frank Mideke, O. G.

### Astoria's School Population.

Astoria, Or., July 19.—The school census of Astoria, as shown by the report of City Superintendent Clark shows a school population of 2,680, of which 1,351 are males and 1,329 females. Tomorrow positively the last day for discount on east side gas bills.

### TEAMSTERS ENJOY Ghirardelli's Cocoa. They find it strengthens and fortifies them to withstand the trying duties of their occupation, and exposure to all kinds of weather. The ideal preparation for the day's work is to drink

for breakfast a cup of . . .
