The Portland stock exchange has had

The Portland stock exchange has had a varied experience since its organization a year and more ago. Several times it has been on the verge of collapse, but each time has rallied for a little longer. Of late it has been reported that its main object was the sale of stock in the Home Telephone company, but this has been denied by the management of the company.

The Portland stock exchange is no

In its place has come the stock and bond

company. This company has taken

over the business of the old exchange,

but is doing business on a different

plan, according to the statement of the

ment of the company.

Much complaint of the exchange has been made time and again by those who bought stocks and afterwards alleged they had paid more for them than the listed price in the eastern exchanges. The business of the exchange drifted away until when the first week in July came the place was closed, ostensibly for a week.

The board of directors met during that time, however, and decided to close up shop for an indefinite period of time. The exchange was turned over to satisfy foreign indebtedness, but was later taken over by the Roberts company, which reorganized the business on a different line.

The current opinion is that the ex-change will not open for business again and that the stockholders will lose what they invested in the concern, owing to they invested in the concern, owing to the fact that it had practically no assets from which they could realize.

Men's Diseases

I have treated hundreds of men who had long suffered a gradual decline of physical and mental energy as a result of private ailments, and have been interested in noting the marked general improvement that follows a thorough cure of the chief disorder. My success in curing difficult cases of long standing has made me the foremost specialist treating men's diseases. This success is due to several things. It is due to the study I have given my specialty; to my having ascertained the exact nature of men's ailments, and

to the original, distinctive and thoroughly scientific methods of treatment I employ. To those in doubt as to their true condition who wish to avoid the serious results that may follow neglect, I offer free consultation and advice, either at my office or through correspondence. If your case is one of the few that has reached an incurable stage, I will not accept it for treatment, nor will I urge my services upon anyone. I treat curable cases only, and cure all cases I treat.

Pay When Cured My Fee in Any Uncomplicated Case

Weakness So-called "weakness" in men is curable—fully curable. It has not been cured by those measures commonly employed, for they are

commonly employed, for they are methods based upon supposition and not upon fact. Prematureness and loss of power in men is due to a chronic state of inflammation in the prostate gland, and not to a disordered nervous condition, as has been supposed. I treat the inflammation by a local process that does not fail to accomplish its purpose and with complish its purpose and with this condition corrected full and complete strength and vigor re-

turns.
STRICTURE—My treatment is absolutely painless, and perfect results can be depended upon in every instance. I do no cutting or dilating whatever.

Contracted Disorders

Every case of contracted disease treat is thoroughly cured; my pa-ents have no relapses. When I tients have no relapses. When I pronounce a case cured there is not a particle of infection or inflammation remaining, and there is not the slightest danger that the disease will return in its original form or work its way into the general sys-tem. No contracted disorder is so trivial as to warrant uncertain methods of treatment, and I especi-ally solicit those cases that other doctors have been unable to cure.

I have the largest practice be-cause I invariably fulfill my promises.

If you have sought a cure elsewhere and been disappointed or if you fear the harsh methods that most physicians employ in treating this disease, come to me and I will cure you soundly and permanently by a gentle and painless method. Don't delay. Varicocele has its dangers and brings its diseastrous results. If you will caul I will be pleased to explain my method of curing.

German Medical Authorities Find New Remedy for Terrible Disease.

(Journal Special Service.) Berlin, July 20.-Dr. Bier, professor kinds of merchandise and commodities under the class rates now in effect over and on said defendant company's main and branch lines from Portland, Oregon, to points as set forth in the defendant's freight tariff effective January 1, 1907, No. L 525, with supplements amendatory thereof, are excessive, unjust and unreasonable. "That by reason of the premises, defendant has been and is subjecting the merchants, manufacturers and shippers of the said city of Portland and other noints and places in the state of Ore-

> nance and permanent improvements ex-cept dividends upon the common stock, and the greater part of this surplus, its statement on file with this commission shows to be loaned to solvent companies and individuals."

Earnings Steadily Increase.

It is recited by the chamber's peti-tion that during the period from July 16, 1896, to June 30, 1906, the earnings of defendant railroad company both intra state and interstate, including pas-senger as well as freight earnings have steadily increased and the increase o freight and passenger earnings and the decrease in cost of operation and increase in tons per freight train mile during said period, have been as follows:

June 30, 1897. June 30, 1906 Gross earnings from opera-tion\$4,677,924.00 \$11,913,195.00 From other From 50,580.00 783,183.00 sources

Operating expended vast sums of money amounting to many millions of dollars in permanent and lasting improvements and betterments, all of which have been paid

Only Slight Reduction.

In conclusion the petition, asking for a showing of the railroad company's books, asserts that "notwithstanding the great increase in surplus and the decreased cost of operation, the charges exacted for transportation of merchandise and commodities of all kinds under the distributive rates in effect from the city of Portland to points and places within the state of Oregon have been but slightly reduced and have remained substantially the same for a number of years past, and said defendant has long maintained and does now maintain a scale of charges calculated to return an unreasonable, exorbitant and unjust profit upon the capital actually invested in said defendant's lines of railway and other properties.

"That all of said matters and things the plaintiff believes, and therefore avers, will fully appear if the said defendant be ordered and required to produce on the hearing of this case, its books of account, papers, contracts and agreements and other documents

its books of account, papers, contracts and agreements and other documents relating to said defendant's business, for examination by this commission."
