

COLLEGE PEOPLE ASCEND RAINIER

First of the Season and They Have a Very Thrilling Experience.

BOULDER-ALMOST CUTS OFF RETREAT

Besides Just Missing One Member of Party and Bringing Down Fissile of Stones—Another Party Makes Half Circuit—Goat Killer.

(Special Dispatch to The Journal.) Tacoma, Wash., July 23.—The first ascent of Mount Rainier this season was made Saturday by a party of 14 led by Henry C. Cowles, professor of botany of the Chicago university. The party included Professor Cowles, Mrs. Cowles, Henry C. King, president of Oberlin college, Oberlin, Ohio; C. E. St. John, professor of physics of Oberlin college; W. E. Lawrence, of Lansing, Michigan; B. S. Visser of Chicago, the Misses Louise and Betty Haessler of Milwaukee, R. W. Brown of Philadelphia, Miss Emma Dolfinger of Louisville, Miss Emilie Long and Miss Rosemary Mullen, both of New York City; Miss Estelle Fogel of Ames, Iowa; and Miss Nilstine Kildahl of Chicago. The party was guided by Jules Stimpfer, the noted mountain guide. They left Reese's camp in Paradise valley at 1 p. m. Friday, reaching Camp Muir at 7 p. m. The foot of Gibraltar rock was made about 8 a. m. Saturday and the top of the rock was reached without mishap.

Narrow Escape From Death. From the top of the rock to the summit of Crater Peak the party had comparatively smooth sailing, barring occasional crevasses. The crater was reached shortly before noon. They spent two hours investigating and exploring the crater, crossing to the north side and examining the ice formations and investigating superficially the steam jets coming up through the crater rim and the ice field filling the crater cup.

In passing Gibraltar on the descent members of the party had a narrow escape from death. Icicles thawing under the heat of the afternoon sun broke loose and dislodged a large stone. This came thundering down the side of the rock and missed Mrs. Cowles' head by about a foot. The stone started a shower of smaller boulders which struck several of the party. Miss Fogel was struck by one of the stones on the arm and severely bruised. Mr. Lawrence was hit on the hand and painfully injured, and Mrs. Cowles, Professor John and Miss Haessler were struck and injured by flying boulders.

Pathway Almost Cut Off. The large boulder also brought several of the party into imminent peril by blocking the pathway leading across the rock upon which they were walking. This began slowly slipping down towards the precipice dropping off into the chasm. Miss Fogel and Mr. Lawrence quick scrambling on the part of those in peril to reach safety. Reese's camp was reached late Saturday evening.

Professor Cowles says Mount Rainier is richer in its flora than any mountain region he has visited in the United States.

Within a few days the party will go to Alaska from Seattle.

Half Way Around Rainier.

A party consisting of Dr. F. A. Scott, Professor John B. Flett, A. H. Denman and Schuyler Pratt, has just completed a trip half way around Mount Rainier. The culminating event of the trip was at Emmons' glacier, Thursday afternoon they reached the foot of the mountain and with nothing but sleeping bags and a small amount of food climbed straight up Emmons' glacier to an elevation of nearly 11,000 feet. Night overtook them and they made camp on a rocky cleaver, getting into quarters long after dark. During the night a high wind rose, bringing hail and a sleet-like rain, which continued until daybreak. Fog and clouds covered the sides of the mountain the next day and the party remained in camp on the cleaver until late in the afternoon, when the fierce weather conditions continuing, they decided to give up the attempt to reach the top and returned down the mountain.

Goat-Killer at His Work.

All the members of the party are enthusiastic over the beauties of the northern and eastern sides of the mountain.

They say the mountain goats on the northeastern sides of the mountain are being killed off by a miner named Strabo, who has a herd of four men operating near White river glacier. It is against the law to take a gun into the Rainier reserve, and while none of the party saw any guns around Strabo's camp, they heard the reports of rifles and are certain that he is slaughtering goats, marmots, ptarmigan and other game abounding in that region.

Balls and Carbons Used by "THE HOUSEHOLD SURGEON." Druggists have received "THE HOUSEHOLD SURGEON'S" ANTISEPTIC HEALING OIL, 25c.

TWO SLEPT IN BOAT—ONLY ONE RESCUED

(Special Dispatch to The Journal.) Astoria, Or., July 23.—Andrew Basileo, Greek fisherman employed by the Tallent Grand Packing company, was drowned Sunday while fishing in a channel near the Great Pacific wharf. His boat pulled, Chick Nicklas, was saved. They had anchored their boat and both had gone to sleep. They were awakened by the capsizing of the boat in the breakers. Basileo tried to swim ashore but sank exhausted, Nicklas clinging to the upturned boat and was rescued by the Port Canby life saving crew. The boat and the net were lost.

ASK YOURSELF THIS QUESTION

How can people with kidney trouble expect to get well on the ordinary patent medicines when the census deaths from kidney disease show that 30 out of every 100 of them die from a form of kidney trouble that was absolutely incurable up to the discovery of Fulton's Renal Compound. There were 58,000 deaths the last census year from this form of kidney trouble and it is so prevalent that the famous Dr. Loomis of Bellevue Hospital declared that his autopsies show that nine tenths of all people over forty have it. If you have kidney trouble, make no mistake—start right with Fulton's Renal Compound. It is new in this tremendously important particular that it is effective AFTER the disease has fastened as well as before—the first to cure in the chronic fatal stage. That these diseases are now curable by the compounds discovered by Fulton is established here as well as in California. — Buffalo (N. Y.) Daily Times. Fulton's Renal Compound is the only thing in the world that publishes no testimonials except in the supposed incurable forms.

WEIGHT AND HEALTH

THIN, NERVOUS PEOPLE NEED THE TONIC TREATMENT.

This Woman Took Dr. Williams' Pink Pills, Gained Thirty Pounds and Has Been Well Ever Since.

How many women—and men too—are suffering from a general decline in health which the ordinary remedies seem unable to check? How many husbands see their wives wasting away, steadily losing health and beauty, and are powerless to help? Consumption and other germ diseases find in these debilitated systems easy prey, for the lowered vitality is unequal to the task of fighting off the infection of these diseases to which most of us are almost daily exposed.

The symptoms indicating the decline which may have results to fatal could scarcely be better described than in the statement of Mrs. William Manley of 52 Court street, Utica, N. Y. Her case is a typical one. She says: "For six months after the birth of my baby I suffered from sick, dizzy headache, which seemed like a rush of blood to my forehead, just back of my eyes. Some days they twitched so I could hardly see and black spots floated before them. The least exertion brought on this sickness. My appetite was poor and I was often sick to my stomach. "If I tried to work my feet soon became swollen, paining me terribly. I had sinking spells and grew pale and nervous. I was so thin that I weighed only 95 pounds.

"One day when at the drug store to get headache powders I decided to try Dr. Williams' Pink Pills. I soon noticed that my headache was disappearing and my nerves gradually grew stronger. The pills gave me a hearty appetite and I now weigh over 130 pounds. I believe the pills to be the best tonic builder a woman can take, as they certainly helped me when my condition was critical and I have never been seriously ill since.

"The great value of Dr. Williams' Pink Pills lies in the fact that they actually make new blood and this carries health and strength to every portion of the body. The stomach is toned up, the nerves are strengthened, every organ is stimulated to do its work.

"If you are ill and the treatment you are taking does not cure you, write for proof of what Dr. Williams' Pink Pills have done in similar cases. Your druggist sells them or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

COMMISSION MEN DODGERS OF LAW

Allegation the Subject of High Legal Opinion in Washington.

SHIPPER MAY BE AT MERCY OF CONSIGNEE

But Commission Man Only Pretending to Be Principal While Really Remaining Agent Is Liable—The Rake-Off Scheme Explained.

(Special Dispatch to The Journal.) Olympia, Wash., July 23.—Complaints that have reached F. A. Huntley, state commissioner of horticulture, indicate that the commission merchants of the state have decided to ignore the new commission merchant law passed by the last legislature, which was intended to regulate that business. Customers for years past of many of the leading commission houses of the larger cities have received circular letters notifying them that on and after June 12, 1907, they would cease to do a commission business, but would instead buy product outright.

The commissioner of horticulture considers this a technical evasion of the law, and has appealed to the attorney general. Assistant Attorney General Falknor holds that the commission merchant can go out of that business if he desires. He says: "A commission merchant is any person, firm or corporation engaged in the business of selling farm, dairy, orchard or garden produce on commission or that receives or solicits consignments of such produce on commission; that is, are agents. Under the announcements of the firms indicated in your letter they become the buyers and are liable to the shipper as principals. Every person shipping, however, should observe the terms of purchase offered in such announcements. They are considered. It is left to such buyers to fix any value they may see fit upon the goods received, and shipper should accept such terms of sale. If he does the law is unable to protect him. The commission merchant law does not prohibit shippers selling directly to firms where such firms are the purchasers. "If at any time it is discovered that the announcements made in such circulars are subterfuges for the purpose of evading the commission merchant law the courts would disregard the mere form and apply the commission merchant law to them. An attempt to defer the time of fixing the price of such goods in the first instance by such firms until after receipt by such firm, would be good evidence of an attempted evasion of the commission merchant law."

UNVEIL MONUMENT OF FAMOUS WAR GOVERNOR

(Journal Special Service.) Indianapolis, Ind., July 23.—The handsome monument erected in the statehouse grounds in honor of Oliver P. Morton, the famous war governor of Indiana, was unveiled today with interesting exercises conducted in the presence of thousands of spectators. The unveiling was preceded by an imposing military pageant in which the participants included Grand Army veterans from every section of Indiana, several regiments of the state militia and numerous patriotic and other civic organizations. The unveiling ceremony was performed by a granddaughter of Governor Morton, Dr. Warren King of Greenfield, chairman of the monument commission, made the presentation speech, and was followed by Governor Hanly, who delivered the principal address of the day. Occupying places of honor on the speaker's stand were members of Governor Morton's family and a number of those who had been his personal friends and political associates.

Purse Seiners Will Appeal. (Special Dispatch to The Journal.) Astoria, Or., July 23.—Charles Gunderson and Christ Nelson, who were arrested Saturday charged with operating a purse seine, were arraigned in justice court yesterday afternoon and fined \$50 each. An appeal will be taken.
