There is a marked improvement over last year's conditions," said Mr. Delch this morning. "It speaks well for the slight enorts put forth by us last year to see the fruit so clear of blight this season. We will, however, be much stricter than last year and any fruit found, whether on the street or in fruit stands, will be properly confiscated. "In my rounds of the last few days I found but little infected fruit. The place most notable was an Italian market at linion avenue and East Madison street, where they obtain supplies from Japanese and Chinese growers, and also furnish fruit to the hawkers. Here conditions were bad, but have been cleared.

The dumping of wheat by local houses at the close is not easily explained unless a was due to failure to get positive black rust reports as was explained, from the northwest. There was some buying in Minneapons which offset considerably the Chicago sales.
