Sensational Selling of Sample Hose for About Half Regular

Here's a Hosiery sale that will completely overshadow all others that have been held in Portland this season. From one of the largest importers in the business we secured 6,000 pairs of hose in discontinued lines, that is, hose in patterns that will not be made the coming season. On account of them being lines no longer to be carried, the dealer gave them to us at much less than the regular figures, and they come to you in the same way.

CAPTAIN WILL BE HELD TO ACCOUNT

Government Suggests New Rules for Immigration Inspection.

After a quick run of 16 days through dense fogs, the Portland & Astoria Steamship company's liner, Niomeida arrived here this morning from Hongkong and way ports. She has on board about 2,500 tons of freight, consisting mostly of tea and gunnies. Light winds smooth water were encountered nearly all the way but a heavy fog hung over the sea most of the time. Not a vessel of any sort was sighted during the 16 days since the vessel left Yokohama.

of the Chinese crew, in that the duty was left to the ship instead of the immigration inspectors. Heretofore two inspectors have been stationed at the gang plank to see that none of the Chinese went ashore to remain, but from now on the captain will have to attend to the hiring of private watchmen himself and be responsible for the yellow-hued sailors. This will save the government considerable money, since it took six men a day on each vessel to cover the watch. At times two or three vessels would be in port at the same time with the result that a couple dozen men had to be employed. Most of these watchmen were special men appointed temporarily by Inspector Barbour.

The system now being introduced here has been in vogue in the larger ports of the United States for some time and it is upon suggestion from the headquarters in Washington that the change for the better is made here.

While the Niomeida arrived this morning, the liner Alesia practically completed loading for Hongkong and way ports. She will clear tomorrow with a fine cargo of flour for China and Japan.

WRECK FINDS BUYER

Effort Will Be Made to Float the Schooner Solano.

on the rocks, five miles south of Wallapa harbor, and has engaged the services of an expert wrecker to get her out of her bed and bring her to this port. Captain A. T. Stream, who is superintending the building of some steam schooners for the Hart-Wood mill, has gone to the scene of the wreck.

INSPECTORS SAY "NO."

Portland, Or., July 24.—To the Editor of The Journal.—Dear Sir: Will you kindly inform me through your paper if a captain who has his papers for being competent to run a vessel on the Columbia river only could also be a captain on an open sea vessel without passing further examination, and oblige, a constant reader of The Journal.

ALONG THE WATERFRONT

Two steamers, the Alliance and Redondo, will sail from Couch street dock this evening, the former for Coos Bay and the latter for Seattle and Tacoma.

The Norwegian steamer Skogstad reported off the Columbia river bar this morning with a cargo of coal from Mororan. She was ordered to San Pedro to discharge. The Skogstad is reported as under charter to load lumber at this port for the orient.
