A Perfect Man The human body is most wonderfully and perfectly constructed. Each part is built equal to its task. Unless overburdened or attacked by disease, no organ falters. Nature intended that every man should live all his years a perfect man. Few men do. Most

men can.

All men make mistakes. Some make mistakes in youth, Others make mistakes after they have grown to be men. Still others are merely unfortunate. Practically all diseases and disorders are the result of mistakes or misfortune.

The problem of living a perfect man is simple. Undo the injury that mistakes or misfortune have wrought. Then avoid both—live as nature built you to live.

Undoing the Injury

I do not know how many thousands of men I have treated. I have been a specialist in men's diseases for seventeen years. During most of these years my practice has been the largest of its kind upon the Pacific coast. During the several years just past it has been fully double that of any other specialist in the west treating men's diseases. I have met with but few incurable cases. I have failed to cure in still fewer cases. In recent years I have failed in none. This is because I attempt to cure only those cases that I feel confident I can cure, and as my experience has grown I have become able to determine curable and incurable cases with certainty. It is also because my skill in curing has grown and my methods of treatment have been perfected.

The following mention of allments that come through mistakes and misfortune is necessarily brief. I will gladly explain them further and tell of my original, scientific and certain methods of treating them to all who will call or write.

I Am Always, Willing to Wait for My Fee Until a Cure Is Effected

Live All Your Years

Weakness

No matter in what form those functional derangements commonly termed "weakness" may appear, the causative conditions are, in fully 95 per cent of the cause, very similar. I have given the closest possible study to this remarkable prevalent aliment, and find that in practically every case of prematureness, etc., there exists at some vital point of the pelvic system a state of chronic tenderness, inflammation or congestion. My first step is a thorough examination to ascertain the exact location and nature of the disorder, afterwhich, by a system of carefully directed local treatment. I restore the affected part to its normal condition, which promptly results in full and complete return of power. In perhaps less than 5 per cent of the cases do I find general impoverishment, lack of nervous energy or any other condition or complication requiring constitutional treatment. Therefore, I may safely assert that not more than one case in fifty can be permanently benefited by the use of tonics, stimulants, electrical or mechanical appliances, and that fully forty-nine cases in 50 will be aggravated by such methods of treatment. No matter in what form those functional derange methods of treatment.

methods of treatment.

My cures are positive, complete, thorough and permanent, because by my method the real and only cause of the functional weakness is totally removed. The knowledge gained by close study and observation in thousands of cases enables me to recognize the exact requirements and treat accordingly, and in years I have not falled in a single instance to accomplish the

Varicocele

Varicocele affects the weins of the spermatic cord Varicocele affects the veins of the spermatic cord. An average of one man in four suffers from this affliction. The muscular walls of the veins weaken and relax, the valves cease to perform their functions and local stagnation of the blood ensues. The first evidence of varicocele is usually a thickening, dilating, knotting and twisting of the veins on one or both sides, most frequently upon the left side, often accompanied by pains in the back, legs, thighs or chest, and a sense of dragging in the groin. Owing to the impaired circulation, a wasting away of the organs, accompanied by partial or complete loss of power, almost without exception follows in severe cases where treatment is neglected, and even slightly developed cases cannot fail to have a damaging influence upon the organs involved as well as upon the general health. Safety is a disease that increases in severity the longer it is in all instances demands a prompt cure, for varicoccle

neglected.

I cure varicocele without pain and without detaining the patient from business. I have cured over two thousand cases without a single failure or unpleasant result. My treatment is original and has been developed through seventeen years of practical experience. It restores the lost tone and elasticity to the weakened and dilated blood vessels, which results in normal circulation and reestablishes the natural processes of waste and repair throughout the vital system.

My special practice also includes Mydrocele, Stricture, Contracted Diseases, Contagious Blood Poison, Nervous Debility and all Reflex Ailments.

Consultation Free

To men whose years are being lived in physical imperfection as a result of mistakes or misfortune, whose lives are less than full and perfect lives and whose lives are less than full and perfect lives and who yearn to be the men that nature meant them to be, I extend an earnest and sympathetic offer of consultation and advice. My experience among men and in treating men's diseases places me in a position to be helpful to you. In consulting me you will be asked no foolish and embarrassing questions. All information given you will have a direct and vital bearing. If your symptoms are of no consequence I will tell you so. If treatment is needed I will tell you to the time that will be appropriately. formation given you will have a direct and vital bearing. If your symptoms are of no consequence I will tell you so. If treatment is needed I will tell you its cost and the time that will in all probability be required to effect a complete cure. If I feel any doubt as to my ability to cure you, I will not take your case at all. I will not urge my services upon you. If you see fit to place your case in my care, every promise I make shall be fulfilled. If you do not, you will be welcome to the information and suggestions given, and will be invited to call for further consultation absolutely free at any time.

Those finding it inconvenient or impossible to call in person are at liberty to write a full and complete description of their symptoms, and their letters will receive my prompt and careful attention. All consultation strictly confidential.

"When I called at your office I was in a broken-down, debilitated condition, with no ambition for work or anything. "After two months' use of your Electro-Vigor I

DIOGENES SEARCHES FOR

AN HONEST DOCTOR

While walking along the street one day I saw the

While walking along the street one day I saw the sign of "Dr Soakem, Honest Physician," displayed prominently in a doorway. This doctor claimed to cure weak men for \$7.90.

Now, I had suffered for years from weakness and had tried many doctors and a lot of drugs without getting any benefit. My back was weak and painful; my fiead ached, I was nervous and had no energy or ambition.

ambitiou.

In all my experience with doctors I had never found one who did not tell me that he could cure me with drugs, and afterward failed to do so.

Believing that there was at least one honest doctor among the profession, I resolved to investigate this man who proclaimed himself an honest physician. ambitiou.

Dr. Soakem was a fierce-looking individual, with small, piercing eyes and a fiery beard. There were no marks of honesty in his features that I could see. He looked me over and said he could cure me with his imported Boolagerm, which would me \$7.90 for the first two weeks'

I used the dope for the specified

I used the dope for the specified time, and must say it was the rankest stuff I have ever taken. It upset my stomach, caused constipation and digestive troubles, and made me feel worse than ever.

When I went back to Dr. Soakem and complained about his medicine he said that the Boolagerm was probably not the treatment I required. He insisted upon me taking a course of his Stimulanto, which he would guarantee to cure me. This treatment cost me \$11.20, and I went away feeling sure that I would soon be restored to perfect health and strength.

For the first few days every-thing went well. I felt better and was beginning to think that I had at last found a cure and a doctor who told the truth. But after I used the Stimulanto about a week I had

A Grande Ronde valley man will ship 10 tons of cherries to Chicago.

I would advise all sufferers to send for Dr. Hall's free 100-page book, which explains his treatment and his methods. This book is illustrated with pictures of fully developed men and women, showing how Electro-Vigor is applied. It tells in plain language many things you want to know and contains a lot of good, wholesome advice for men. Dr. Hall will send this week, in plain wrapper, closely sealed and prepaid, free if you will mail him this coupon. Cut it out now. to double the dose to get the same effect, and soon it failed even to stimulate.

I could not account for that until I examined the label on the bottle. I found that this stuff contained poison—morphine and alcohol.

All was made clear to me in a minute. The morphine stopped the pain in my back by stupefying the nerves, but the continued use of the dope failed to affect the nerves. The alcohol was what made me feel better at first, by stimulation, but like the morphine, it, too, lost its power. Dr. S. A. Hall, 1439 Fillmore St., San Francisco. S. A. HALL, M. D. lost its power.

I threw the remainder of the dope away and concluded that the doctor who uses drugs can't be honest, but was determined to try something else before I 1439 Fillmore Street, San Francisco gave up.

A few days later, while reading a newspaper, I came upon an advertisement of a doctor who cures by electricity—Nature's way. This was Dr. Hall of San Francisco. I wrote for his free book explaining his methods and treatment.

This book is one of the most interesting works I have ever read, and deals with human ills in a sensible way. It is written in plain language and the information it contains is worth a great deal to any sufferer.

After reading his book I called upon Dr., Hall, whom I found only too willing to give me all the information desired. and allied industries were present to assist in performing the "impressive" rites.

The following "kittens" went "down the flume," "rode on the logging train, were "run through the planers" and carried the "boom sticks up the heights".
