

# OLD SOL'S RAYS LATEST BALDNESS "SURE CURE"

Real Estate Agent Gage Says Nature Has Come to Relief of the Much Maligned Butt of Jokesmiths—Go Bareheaded, He Says.

At last a sure cure for baldness has been found. No longer will the shiny-pated citizens who clamber into the barber shop chairs to have their scalps massaged and rubbed with ointment and the prehistoric "hairoil" need to wander into the tonsorial parlors and give up their 25 cents to the mild-mannered, loose-tongued wielders of the razors and shears.

Nature has come to the relief of the balding butt of the jokesmiths, and all he has to do is to grow a long flowing, curling, hirsute adornment that would make the heads of the seven Sutherland sisters look like a mowed lawn in a walk under the broiling sun hereafter. Old Sol, who was abused and railed at the past few days because of his proximity to the earth's surface is the purveyor of the panacea that makes hair grow when hair refused to grow under the stimulative barbershop tonics and other liquids supposed to work the charm, according to Mr. Gage, a well-known real estate agent of Portland, who has returned from two weeks' outfit with his family at the base of Mount Adams.

When Mr. Gage left Portland the top of his head resembled the shaved side of a billiard ball. Now it is covered with a luxuriant growth of young hair that would make Barnum's Ballroom bearded lady turn green with envy. All he did to coax the growth through his scalp was to stand beneath the burning sun.

Soon he noticed one lone hair rising to the surface of the head, the remainder scalded. Careful nursing brought forth another and joy rose supreme in the breast of Mr. Gage at the sight of the struggling hair. But alas! and alack! the new hair was too weak. Old Sol, when the fiery chariot is established, will speed record across the heavens and the two struggling pioneers of what later came to be a wilderness of curly, wavy hair were burned off clean to the edge of the scalp and, can you believe, served like Mr. Gage, somewhat beneath the scalp?

But he did not despair and kept up the treatment with increased vigor. His efforts were at last rewarded with a hair which now adorns the top of his head. Although one bald-headed friend who has tried every known treatment to replace diminishing patches of hair has given up the ghost, insists he is wearing a toupee. Mr. Gage indignantly denies the statement and says it is his own real hair.

Dr. Pierce's Medical Adviser is semi-free and requires payment of 10c per ounce of medicine. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamp for pa-

per-covered, or 31 stamps for cloth-bound.

If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

RAILWAY BUILDERS CAN'T GET LABOR

A statement that will be believed by few, but nevertheless a statement of incontrovertible fact, is that the Southern Pacific railroad company's trains make 12 miles in four minutes on one stretch of track in Oregon. Let the light of this knowledge shine in and illuminate the dismal path of that company's right-of-way from Portland to Astoria.

Twelve miles in four minutes, or 180 miles an hour, made with a dinkey engine of the vintage of 1884, is the record as it stands undisputed on the time schedules of the company's west side lines. The feat is accomplished by the trains that run from Corvallis to Portland. The distance from Corvallis to Portland, since the St. Joseph cut-off was constructed, is 12 miles shorter than the old route coming into the city via Fourth street. Trains are run by the shortest route, but the price remains the same for the trip. Therefore, at a point between McMinnville and the cut-off it becomes necessary to dispose of 12 miles suddenly, and in doing so, when the trains enter in a manner that reminds the passenger of the prestidigitator who swallowed a whole egg and reels out furlongs of paper tape from his insides.

This run is said to furnish the fast-time made on the Southern Pacific system from Portland to New Orleans.

**AIMS AT DOCTOR AND KNOCKS OUT MINISTER'S TEETH ON CAR**

White with anger because his sworn enemy had the temerity to say "How do you do?" to him on a St. Johns streetcar Sunday afternoon, E. E. Shields made a vicious swing with his fist at the face of Dr. O. F. Fletcher, the chiropodist with offices in the Alisly building.

Shields' aim, however, was a trifle inaccurate. The unsteadiness of the moving car caused him to miss his target and his fist after grazing the side of Dr. Fletcher's head landed dead on in the mouth of Rev. R. Dunn, an innocent bystander. Mr. Dunn, a St. Johns minister, and two of his front teeth were disengaged from the gums by the force of the blow.

In the police court yesterday the

cause of the disturbance which threw many of the women passengers into a state of nervous excitement and elicited numerous screams, was brought out.

"Many men go to hell," Shields was said, taught Mrs. Shields the art of chiropody, much to her husband's dislike.

Enmity sprung up between the two men, and Shields at one time told him he would kill him if he did not pay a stiffer penalty or a thrashing. Dr. Fletcher, however, disregarded the instructions to a standstill, a terrific blow. The latter laid it upon the chin, and it brought up in the face of the minister.

Dr. Fletcher had Shields arrested on a charge of assault and battery. Judge Cameron found Shields guilty, but continued sentence under good behavior.

for this purpose the future possibilities of eastern Oregon and southern Idaho for immense fortunes cannot be overestimated.

A very important feature of the development of the oil and gas resources now going on in the Snake River valley, and which has been quite generally overlooked, is its relation to the advancement of irrigation projects in this section.

**IMMENSE DESERTS RECLAIMED.**

Immense areas of exceedingly fertile sagebrush land cannot now be irrigated because they are higher than the water supply. Cheap fuel means cheap power, and is mentioned by competent parties that if oil and gas are abundant in abundance, as they undoubtedly will be, the cheap fuel thus produced will open the way for the irrigation of these lands at a cost of from \$5 to \$10 per acre, which is a very small fraction of the present average cost of irrigation.

It is hardly possible to estimate what cheap fuel may mean to Ontario and surrounding towns. It means that Ontario will become a great manufacturing and distributing center and that other towns in the district will also increase in population and importance.

**PIPE LINE TO BOISE.**

Prospect Hailed With Delight as Solving Fuel Problem.

(Special Dispatch to The Journal.) Boise, Idaho, July 30.—Report comes from Ontario, Oregon, to the effect that the Oregon Oil & Gas company of that place is preparing to carry on development of its oil field in Ontario on a large scale and is content to let piping oil to Boise. Should this be done, Boise's fuel question would be practically solved. The plan of the company is to extend its lines to other towns and the importance of this contemplated move to this section of the country cannot be overestimated.

**CALL ISSUED FOR CONGRESS OF JEWS**

(Journal Special Service.) New York, July 30.—Delegates from all the Jewish organizations in the United States are expected to attend the International Congress next October to establish an international Jewish conference. It is proposed to call the body the International Congress of All Israel. One of the advantages urged is that the conference would be able to act authoritatively in case of rebellion or massacre and be entitled to recognition from the court of Russia or any other ruler. International headquarters will be established in London or Paris.

**CANINE HERO DIES IN LINE OF DUTY**

(Special Dispatch to The Journal.) Spokane, Wash., July 30.—"Ring," the famous bear dog, belonging to Tom Hopper, was killed yesterday by a street car while protecting Hopper's children against a assault from strange dogs. He did not see the car coming.

**COMMITTED ON LARCENY CHARGE.**

(Special Dispatch to The Journal.) Astoria, Ore., July 30.—The preliminary examination of J. H. Andrews, charged with stealing \$70 from Lewis Tennel, was held in Justice court yesterday and he was committed to the county jail in default of \$200 bail, to await the action of the circuit court.

**TEA**

Good tea is so cheap, it is folly to drink poor tea. Go by the book.

Your grocer returns your money if you don't like Schilling's Best; we pay him.

## The Modesty of Women

Naturally makes them shrink from the indecent questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate female weakness. It always helps. It is almost always cures. It is strictly non-alcoholic non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or hair-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent woman now-a-days insists on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is semi-free and requires payment of 10c per ounce of medicine. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamp for pa-

per-covered, or 31 stamps for cloth-bound.

If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

## SKIRTS

Never did we hear tell of such a veritable sacrifice of good merchandise as is taking place at the Golden Eagle this week in skirts. We are out to greatly reduce this stock, even at a big cut below cost prices. You had better be in early tomorrow as the ready-to-wear is a very busy place just now.

Petticoats worth

\$2.00 for . . . . . 69c
