# BY STICK WORK

Better Batting Responsible for Beavers Capturing Last Week's Series.

IMPROVEMENT SHOWN IN FIELDING ALSO

Donahue Leads in Batting With : Percentage of .381-Casey and McCredie Not Far Behind and no Regular Player Batting Below .200

Better batting and better fielding, but fally better batting, was responle for Portland's coast leaguers taking four out of six of last week's games from the top-notchers in the percentage column.

Three of the regular players and two of the pitchers batted above .300 and not one of the regular players batted below .200.

Donahue leads the Beaver bunch for the past week with eight hits out of 21 times at bat, an average of .381, which is exceedingly large. Casey and Mc-Credie are not far behind, with averages Credie are not far behind, with averages of .350 and .348, respectively. Casey is always a fair batter, but seldom a top-notch batter. Last week he did himself proud—in the hitting line. Fay stands lowest among the regular fielders with .200 and Atherton next with .237. The figures as made out from the official score cards are as follows:

At Bat. Hits.

Donahue ......21 Casey ......20 McCredie .....28 Hartman ovett.

The outfielders have all played their The outfielders have all played their positions perfectly during the past week and a marked improvement has been evident on the infield. Mott especially has picked up in his fielding, as well as in his batting. Prone to make wild throws at critical points, last week Mott hurled away but once. Fay, who worked at short for five games, averaged up much better than Schimpff, both in the field and at the bat. Last week was Fay's best in coast league company.

The one fielder who was off his game was Casey. Casey often plays a whole week and handles 35 or 40 chances without an error. Last week he made five and his average consequently drops lowest of the four infielders. Atherton's fielding is somewhat better than it

was.

Averages are made out of the nine players who worked in the field during the week. Donahue played center in place of Lovett one day and his record is taken for this day in consequence. Following is the record:

Polyette Polyette Polyette.

### M'MINNVILLE WINS THIRD WITH COLTS

(Special Dispatch to The Journal.)

Forest Grove, Or., July 20 .- In the concluding game of the series of three the McMinnville team drubbed the Colts of this city unmercifully on the local grounds Sunday before one of the largest crowds of the season. The score was 13 to 2.

It was a nerve-racking exhibition up to the sixth, with 2 and 2 chalked up to each aggregation. But in the seventh,

with two men down, the visitors opened the ginger jar, filled the bases and "Maud" Holman pounded out a long drive way over the left fielder's head for a home run, bringing in all the other men. Five scores were made this other men. Five scores were made this inning and the same act was repeated in

inning and the same act was repeated in the eighth.

Swan and Rooper, both O. A. C. students, put up brilliant ball in their respective positions, third base and the slab. A home run, three two-sackers and two three-bases are down for "Maud"

(Journal Special Service.)

Los Angeles, July 30.—Local ball players are discussing the possibility of the California state league enlarging its province and including five towns in southern California. A meeting of the league magnates has been called for August 25 in San Jose, which is to be attended by local managers, and the matter of expansion to southern territory decided.

Los Angeles, San Diego, Bakersfield, Pasadena and Santa Barbara are the towns now under consideration as members of the state league. There also is a possibility that the Tehachapi team, which recently defeated Pasadena by the score of 6 to 8, will join.

With the addition of the southern teams, the state league probably will become a twelve-team organization. The local managers who are to attend the

local managers who are to attend the San Jose meeting next month, are A. V. Tipton, of the Pasadenas; R. F. Vallin, for San Diego; Oscar Chaves, for Santa Barbara, and M. A. Treosti for Jose Angeles.

Santa Barbara, and M. A. Treosti for Los Angeles.

The state league now includes Stock-ton, San Jose Alameda, Sacramento, Oakland, and the Cordovas, and plays Sunday ball.

## FISH AT SAN DIEGO

TENNIS HONORS

San Diego, July 30.—The question of the relative endurance power of a man as against the skill and strength of a fisherman is to be settled in a contest between A. B. Daniels, a Denver millionaire, who is stopping at Hotel del Coronado, and F. Keissig, a local dealer in sporting goods. The fisherman contends that he can land the human fish within 30 minutes, using a 9-thread line 300 feet in length, and an ordinary bass rod. ordinary bass rod.

The human fish is to have 50 feet free line and is at liberty to dive, double and turn at will, or by swimming di-rectly away from the fisherman en-deavor to break the line. The line is to be attached to the human fish by means of a swivel and belt, so as in no way to interfere with his movements.

## SWIMMERS TO PLAY

# TO SOUND CITIES **I**

Project Agitated Here Being Taken Up by Mobilists on the Sound.

(Special Dispatch to The Journal. Seattie, July 30 .- A combined movement is afoot on the part of automobile enthusiasts in Tacoma and Seattle to improve the roads between Chehalis and Vancouver. The road from Seattle to Chehalis are satisfactory to the mortorists, but from the latter point to the Columbia river they are declared impas-

Columbia river they are declared impassable in many places.
There are 660 automobiles in Seattle and a large number in Tacoma, and nearly-all are enthusiastic over the prospect of making Sunday trips to Portland which they declare is almost impossible at present because of the condition of the roads. It is believed that with good roads between the Puget sound cities and Portland at least 25 or 30 automobilist s would take the ride to Portland avery Sunday.

In order to insure success to the

In order to insure success to the movement, the matter will be taken up by motorists of the three cities with the county authorities in the counties where the road need improving. Pressure will be brought to bear upon them in such a way that they will make the matter of better roads a question of prime importance and carry the work to an early conclusion.

### WEFERS DISCOVERS SPRINTING WONDER

(Journal Special Service.) New York, July 30 .- "If there is any athlete in training at the present time who will establish a new world's mark in the 100-yard dash this year it is R. Cloughan," said Bernie Wefers, the noted sprinter and trainer of the Irish-American Athletic club.
"Cloughan, who has recently been graduated from Fordham college, has

graduated from Fordham college, has shown great speed this season while representing the Irish-American Athletic club," says the New York World. Cloughan is a youngster, only 19 years old. He is a big fellow and has the form of a great runner. He is of ideal build, deep-chested and has long legs. Weiers predicts that before the year has ended his charge will have hung up a record of 9 2-5 for the 100-yard dash.

### PORTLAND PLAYS LOS ANGELES THIS WEEK

Portland and Los Angeles cross bats this afternoon at Atheltic park. Groom will probably pitch for Portland and Nagie for Los Angeles. Manager Berry has announced that his two new pitch-

has announced that his two new pitchers, Frank Arrelanes, late of the San Jose team of the California State league and Randolph, formerly of the Oakland coast league club, would join him soon. If they arrive in time the two teams will play one or more double-headers before the end of the week.

Manager McCredie is anxiously awaiting word of a new shortstop which Scouter McBreen of the American league promised to send him. McBreen thought he could get Wagner, a substitute infielder on the Boston Americans. Charles Atherton says that Wagner is a great player and would make a strong addition to any team in the west.

## More Cheap Rates.

August 8, 9 and 10 the Canadian Pacific will again place on sale round trip excursion tickets to eastern points at very low rates. Passengers routed via Spokane, via Seattle and Sumas, or via Victoria and Vancouver. For full particulars call on or address F R Johnson, G. A. P. D., Portland, Oregon.

## Yacht Upsets With Five.

## Now Doctors Say: "Don't Drug"

I do not believe that the average length of human life would be di-minished by an hour if all the drugs in Christen-

dom were dumped into the sea—barring, perhaps, haif a dozen.—Alfred Leffingwell, M. D., American Humane Association sociation.

At last, some of our eminent physicians are be-ginning to tell ginning to tell the truth about drugs. They have deceived the peo-ple just about as long as they can, unless they check the advance science. It is science that has "shown them up." It has proved that man's body is electrical; that

is electrical; that electricity runs our bodies and produces what we call life. It has shown that most all sickness and chronic disorders are due to lack of electric energy. It has taught us the worthlessness of drugs that they are only polsons, and poisons don't cure.

The reason drugs don't cure is because they do not help Nature. Nature needs electricity, nourishment, something that builds up. Drugs contain no nourishment—no electricity—just poison which tears down.

down.

My way of curing is to restore electricity where it is needed, and pain and sickness will disappear. That's because electricity gives strength, power to the body, enabling every organ to perform its work properly, and when every organ is in a strong, healthy condition there can be no pain or sickness.

wear Electro-Vigor while you sleep. It feeds a constant stream nerves and sleep. It feeds a constant stream of electricity to your nerves, and

No doctor can cure all diseases.
That's all moonshine. They are "pretenders."

If you can't cure a man, tell him so.
Physicians use too many drugs.
There are only a few great drugs worth handling. I'll not name them.—
Dr. Wm. Osler in a recent address to physicians.

I do not believe that the average length of human life would be dicourse of drugging.

After two months After two months application of Electro-Vigor I no longer suffer from pains in my back and kidneys, my food digests properly, and all the symptoms of weakness are cursed. cured. CHAS. PICKARD. Joseph, Or.

MY PEB

When I have accepted your case for treatment you may look for-ward to a complete and permaward to a complete and perma-nent cure, and with the very first treatment the curing will begin. This is pretty definite talk upon what is commonly regarded as an uncertain and speculative matter. But I am in a position to speak definitely and positively. With me the cure of men's diseases is not uncertain or speculative at all.

Cured The Leading Sp

You

When

I have treated so many cases that I know just what I can do and what I cannot do, and I never promise or attempt too much. I accept no case in which I have doubt as to my ability to cure, and results are slways equal to the claimbs I make. Following are some of the diseases I cure, and reasons why my cures are certain.

## Contracted Disorders

I WILL

CURE

In no other allment peculiar to men is a prompt and thorough cure so essential. Contracted disorders tend to work backward until the most vital nerve centers become involved in the inflammation. Then follows a chronic stage that stubbornly resists all ordinary treatment. Safety demands that every vestige of infection be eradicated at the earliest possible moment. My treatment is thorough. The remedies employed have a more positive action than as ever before been attained, and so perfect is my method of application that even chronic cases yield completely.

Varicocele

This most prevalent of all diseases of men is also the most neglected, either through dread of the harsh methods of treatment commonly employed, or, through ignorance of the grave dangers that accompany the disease. As varicocele interferes directly with the circulation and process of waste and repair throughout the generative organs, the necessity of a prompt and thorough cure cannot be too forcibly emphasized. I cure varicocele in one week by an absolutely psinless process. My cures are thorough and absolutely permanent—and are accomplished without the use of knife, ligature or caustle.

I also cure to stay cured "weakness," hydrococele, specific blood pois and all men's diseases. Consultation and Advice Free

The DR. TAYLOR Co.

## MIDDLE AGE POSITIVELY CURED FOREVER

OUR \$10 We especially invite those who have deep-seated and chronic disorders to call and be examined. Consultation and examination is free and carries with it no obligation to engage our services.

In Most Cases
Our offices are equipped with the most modern and scientific mechanical devices for the treatment of chronic and private diseases of men.

## WE CURE NERVOUS DEBILITY

This is to men who lack courage, whose nerves are shaky, whose eyes have lost the sparkle, whose brains are muddled, ideas confused, sleep restiess, confidence gone, spirits low and easily depressed, who are backward, hesitating, unable to venture because they are afraid of failure; who want somebody to decide for them, who are weak, run down and restless. It is to men who have part or all of these symptoms and want new life, new energy. We especially solicit those cases in which many so-called treatments have failed, or where money has been wasted on other methods of treatment. Don't experiment when our direct method offers a certain means of cure by local treatment.

## WE CURE VARICOCELE

Varioccele causes congestion of the blood in some of the most vital blood vessels of man. It causes a dull, heavy, listless feeling, which is often mistaken for nervous debility or general decline. Varioccele results from partial paralysis of the delicate nerve fibers that control local circulation of the blood. The muscular coating of the veins is deprived. of nervous control and becomes inactive, weakens and relaxes. The blood yessels expand from the pressure within. The circulation becomes sluggish and clots form in little nooks and pockets that constantly enlarge as the relaxation continues.
