

# CLIPPERS HOLD PITCHER HAS FIRST ELECTION CAUSED TROUBLE

## Members of Assembly and Provincial Officers Are Chosen at Polls. Administration Is Angry Because North Carolina Judge Was Too Hasty.

### STEP TOWARD LOCAL SELF-GOVERNMENT STATE COURTS COULD HAVE SETTLED FIGHT

#### All Legislative Powers Exercised by Commission to Be Given Assembly—Eighty-One Members—First Meeting to Be Held Next October.

(Journal Special Service.)  
Washington, D. C., July 29.—Today's election in the Philippine Islands marks the first formal step towards Filipino self-government. Naturally enough the administration officials here are keenly interested in the conduct and result of the election, which is for the choice of members of the first Philippine assembly, and for provincial governors, members of provincial boards, municipal presidents, vice-presidents and municipal councilors. All of these officers, with the exception of municipal councilors, are to hold office for two years and to assume their duties upon the 1st of January next. The municipal councilors are to hold office for four years.

The Philippine assembly is the result of the promise of President Roosevelt made to the Filipinos through Secretary Taft to give the people of the islands a measure of self-government, conditioned upon their good behavior for a term of two years. The assembly is to be given all the legislative powers heretofore exercised by the Philippine commission in that part of the islands not inhabited by Moros or non-Christian tribes.

The assembly is to be composed of 81 members, apportioned on the basis of one delegate for each 50,000 of population, and provision is made for increasing this number, but the total number of delegates cannot exceed 100. The body may be compared in a general way to the American house of representatives, while the Philippine commission will be the upper house or senate, and the acts of the assembly must be approved by the commission in order to become laws. The first assembly will convene early in October, when Secretary Taft will be present to witness the proceedings.

# IMPORTING OAK TIES FROM JAPAN

## First Shipment of the Kind Received for Huntington's Railway.

(Journal Special Service.)  
Los Angeles, July 29.—Two million feet of oak lumber in logs, and the first cargo of that kind of timber ever brought across the Pacific, reached San Pedro today on the ship Skogstad. The vessel was loaded at Mororan, Japan, and is under charter to the American Export Lumber company of Shanghai.

From the logs will be made 75,000 ties for Huntington's new electric line. Construction work is already under way and will be hastened by the shipment. The lack of ties has delayed the completion of extensions, and work on several parts of the Pacific Electric system. Huntington companies now are forced to depend upon the Orient for the major portion of their ties.

W. Edwards, agent for the importing company, declares that this shipment of oak wood is the opening wedge for business which will mean the importing of 10,000,000 feet of lumber annually. Local mills are to build a mill at San Pedro for sawing.

Every man who visited Robinson & Co.'s sales stand is a satisfied man today. Sales still on.

# SUPERIOR GENERAL INSPECTS HOSPITALS

(Special Dispatch to The Journal.)  
Spokane, Wash., July 29.—Sister Mary Antoinette of the Sisters of Charity in the Pacific northwest, has come to Spokane and will pass several days here. She is at the Sacred Heart hospital. The reverend sister's visit is regarded as of importance among the members of the order, as it is two years since she visited here. Sister Antoinette expresses herself highly pleased with the work in the institutions at Portland, Tacoma, Seattle and Vancouver, also at Wallace, Idaho, and other points in the inland empire. She will visit institutions in Montana and the Dakotas on her return to Spokane from the Coeur d'Alene in northern Idaho, afterward continuing her journey homeward.

# A SCIENTIFIC BREAKFAST

Rightly selected food will alone cure many diseases.

Try a scientific and healthy breakfast:—Fruit of some kind, preferably cooked; a slice of Grape-Nuts with cream; two soft-boiled eggs; Put two eggs in a tin pint cup of boiling water, cover and set off for nine minutes. Whites will then be the consistency of cream and most easily digested; slice of hard crisp toast, cup of Postum Food Coffee.

On that breakfast you can work like a horse and be perfectly nourished until noon.

Four nervous troubles, heart palpitation, stomach and bowel troubles, kidney complaints and various other disorders will gradually disappear and your solid health will set in.

Why? You have been living on food that does not contain the required elements the body needs. That sort of food, and coffee, is the direct or indirect cause of more than half the ills the human body acquires.

Grape-Nuts is a perfectly cooked food and both that and the Postum Food Coffee contains fine microscopic particles of phosphate of potash obtained in a natural way from the grains of the field and by scientific food experts incorporated into food and drink. That makes gray matter, which is the filling of the brain cells and the nerve centers throughout the human body.

A man or woman thus fed is scientifically fed and rapidly grows in vigor and vitality, and becomes capable of conducting successfully the affairs of life. To produce a perfect body and a money-making brain, the body must have the right kind of food and the expert food specialist knows how to make it.

That is Grape-Nuts and Postum Food Coffee, produced at the pure food factory, the Postum Co., at Battle Creek, Mich. Read "The Road to Well-being" in page "There's a Reason."

# HOW LONG HAVE YOU HAD IT

Kidney disease may develop suddenly and become fatal in a few weeks, but this is rare. It usually appears with mild symptoms, although as the kidneys are not sensitive, it may have been developing for months—even years. It is usually curable the first few weeks, in fact, it is the crucial question: viz., how long have you had it? If it has been long enough in the system to have become chronic (fastened) the books then declare it to be incurable, right here is the crucial question: viz., how long have you had it? If it has been in the system for some months there is nothing known to medicine that will reach it except Fulton's Renal Compound. It differs from all kidney medicines ever known in this tremendously important point—it is the only one that reduces inflammation and corrects the kidney function AFTER it has become chronic as well as before. As there is no sharp dividing line marking the time when the trouble changes to the chronic form isn't it as clear as noon-day that thoughtful people with kidney disease should take at once the only known specific that reaches it in all stages?

Thousand deaths are over \$2,000—170 per day. These census figures show how appallingly serious and prevalent this thing is getting to be that is ignorantly referred to in the homes as "Kidney trouble."

"Hundreds of citizens of this city could go into the witness-box and swear to their recovery and among them would be the editor of this publication."—Francisco Wine and Spirit Review.

If you have kidney trouble, start right. Ask for Fulton's Renal Compound.

(Washington Bureau of The Journal.)  
Washington, July 29.—No secret is made in Washington that the administration officials are annoyed that Federal Judge Pritchard of North Carolina has precipitated the clash between federal and state courts over the cases involving the Southern Railway's failure to observe the North Carolina state law compelling roads to sell tickets for 2 1/2 cents a mile within the state limits.

That is has injected into current discussions the issue of state rights, is conceded by those high in authority. Apart from the legal phases of the matter, on the question solely of policy, it is regarded as unfortunate that Judge Pritchard did not await the exhaustion of the resources of the state courts before appealing to federal authority, thus inflaming the people of the state and placing the administration by inference in the position of countenancing the procedure.

It is pointed out that there was adequate remedy in the state courts for the similar confusions of law reducing passenger fares. The North Carolina supreme court is among the best in the country; its decisions are ranked by the federal supreme court as of unusually high character, and the general government is not disposed to irritate the state judiciary needlessly by constructively impugning their willingness to do justice to litigants.

# FAIRBANKS HOLD FAMILY REUNION

## Descendants of First Settler Meeting in Boston Today.

(Journal Special Service.)  
Boston, Mass., July 29.—Sons and daughters of the Jonathan Fairbanks who emigrated to America in 1633 and settled in Dedham, Massachusetts, in 1636, of whom Vice-President Charles Warren Fairbanks is one, held their annual reunion today. During the day the members of the family, several thousand in number, made a pilgrimage to the old homestead in Dedham, returning to Boston this evening in time to hold a family banquet in Berkeley Temple.

The old homestead at Dedham has been in the possession of the family continuously for 270 years, and the family association, which is incorporated, proposes to raise a fund to preserve it in perpetuity.

There are said to be 5,000 living families who trace their origin to Jonathan, first American Fairbanks, among whom are 200 civil war veterans.

Among the prominent members of the family, in addition to the vice-president of the United States, are Victor A. Metcalf, secretary of the navy; Arthur L. Bates, member of congress from Pennsylvania; Josiah Quincy, ex-mayor of Boston; Andrew S. Draper, state superintendent of instruction, New York; Milo A. Jewett, United States consul at Sivas, Turkey; Dr. Albert Shaw, editor of the Review of Reviews; Countess Margharita de Chraportsky of Russia; the Marchioness of Donegal, Belfast, Ireland, and Judge Francis J. Wing of Cleveland, Ohio.

# STAND IN LINE FOR 18 DAYS

## Three Women and One Man Enter on Wait for Government Land.

(Journal Special Service.)  
Sacramento, Cal., July 29.—Three women and one man yesterday entered upon a long, weary wait at the door of the United States land office in this city in order to be the first in line on the morning of August 15, when lands in Colusa and Yuba counties are to be restored to the public.

These lands were restored to settlement by homesteaders on December 14 last, but will not be subject to entry for timber, scrip or lieu until August 15. After that date actual settlers will have preference for 30 days over all others applying for entry. Some choice land will be thrown open, and the scramble for it promises to be spirited.

The women and the man on whom are from one party, but are giving no line upon the location they propose to make. They enter upon their 18 days wait with a fortitude that promises to carry them through.

# STORMS MEET AND CAUSE WATERSPOUT

(Journal Special Service.)  
Sacramento, July 29.—Yesterday afternoon a phenomenal feature was witnessed from the shore of Lake Tahoe. Two storms coming from opposite directions met at the mouth of the lake, state line, and watchers on the beach saw spray rise from the lake in the form of a pyramid to the water level. Slowly crossed the bay and broke when it reached the shore of the state line point.

Four or five boats containing fishing parties had narrow escapes. In one of these was Attorney E. L. White of this city, and John Lowe of San Jose. Through superhuman efforts of the boatmen they reached shore and only just in time to avoid the waterspout.

# DENTISTS MEET IN ANNUAL CONVENTION

(Journal Special Service.)  
Minneapolis, Minn., July 29.—Knights of the tooth, the men who treat the aching molars, hundreds of them not only from all parts of the United States, but from a number of other countries as well, are to be the guests of Minneapolis during the remainder of this week. The occasion is the annual convention of the National Dental Association.

Papers will be read by eminent dentists from France, Switzerland, Germany, Italy and England, and while the

# SHOTGUN INJUNCTION AT ROAD CROSSING

(Special Dispatch to The Journal.)  
Spokane, Wash., July 29.—The Great Northern has stopped the Blackwell road from building a trestle over its road at Northport. The company has stationed a guard there and refuses to allow the new road to drive piling. The matter is now before the officers of the two roads. It is thought a settlement may be reached this week.

# SHOWERS DO NO CRIP DAMAGE.

Garfield, Wash., July 29.—Oppositive showers have fallen over the Puget country and the air is now cool and invigorating. There are hundreds of acres of wheat and grain in the shock, but there will be no damage to it at this time.

We sell for less even on our liberal time methods than does the cash merchant. The great variety in all lines of Home Furnishings found in this store insures the lady or gentleman in search of either modest goods at modest prices, or the more elaborate and artistic of home decorations. A choice to meet universal approval.

# GEVURTZ SELLS IT FOR LESS

# GEVURTZ & SONS

GEVURTZ BLOCK BOUNDED BY YAMHILL FIRST AND SECOND STS PORTLAND

# Summer Comfort and Outing Treat Supplies

People who are not held down by home, business or other duties seem to be making a mad rush for the cooler clime of the seashore. The wiser ones take such articles as are necessary. We offer here a few of the many little needs—at very little prices.
