HAVE

Rainmaker Hatfield.

county from May 28 to July 25 of this year, and the committee says he pro-ducted a rainfall far surpassing the mail. Mr. Hatfield was at the Imperial ho-tel last night on his way to his home at Los Angeles. He left Portland on the morning train. He says rain is not produced by the old methods of bom-barding the sky, but by a system of chemical combinations and electrical in-fluences which cause the moisture that is in the atmosphere to be precipitated. Excess of Bainfall. "This winter, beginning November 15, I will be at Crow's Landing, California, between Stockton and France Tainfall for the past 40 years had been 8 inches for the past 40 years had been 8 inches for the period of my tests. During the first year I produced 12 inches of rainfall, and last year it was 15 inches." Financial considerations do not at-tract Mr. Hatfield, he says, his object at present being to secure government recognition of his process? He believes that immense benefit would result to semi-arid districts all over the United States from the use of his method by the government.

Excess of Bainfall.

Sherman County Farmers

Enthusiastic Over Ex-

pected Grain Harvest.

Old Method of Bombarding Sky by Chemicals Abandoned, Says Hat-

field-Southern Californian Says He Never Failed to Produce Rain.

That one of the finest yields of grain

ver produced in the history of Sher-

nan county will be harvested this year is due to the operation of Charles M.

Hatfield, the rainmaker, in the opinion

of the farmers of Sherman county, who have contracted for Hatfield's return

next'year. Hatfield worked in Sherman

county from May 28 to July 25 of this

GIVEN BY SCIENTIST

FINE DEMONSTRATION

Increase of Bainfall. The normal rainfall in Sherman county during the period of the rain-making operations is a little more than half an inch. Hatfield chaims to have produced 2.2 inches, an increase of 250 per cent over the normal. "I gave five demonstrations in Sher-man county and all of them were fol-lowed by rainfall," said Mr. Hatfield this, morning. "In all my experiments, ex-tending over five years, I have made 48 demonstrations, and never failed to bring rain.

ABUSE MAKES OFFICER HAWSE

T gave five demonstrations in Sher-man county and all of them were foi-lowed by rainfall," said Mr. Hatfield this morning. "In all my experiments, ex-tending over five years, I have made 45 demonstrations, and never failed to bring rain. "My contract with the Sherman county people begins next year on May 1 and extends to July 10, a longer period than this year's tests covered. The normal rainfall for that county from May 1 to July 10 is one inch. If I do mot increase the rainfall I get nothing. If I in-crease it an inch and a half or more, the rainfall I get sl,000, and if I increase it an inch and a half or more, making the total rainfall 25 inches or more while I am there, I get \$1,500. This year I received from W. M. Bar-reit, who owns a wheat farm in Gil-liam county, 30 miles from where I made the tests, a draft for \$50 for the benefit I had caused to his crops.

the government.

Depends on Conditions.

Big Stick Compels San Fran-, cisco's Boodling Supervisors to Retire.

(Journal Special Service.)

(Journal Special Service.) San Francisco, July 20.—The brain of Robert Hawse, third officer of the lost Columbia, succumbed last night to the abuse, ridicule and contempt which has been heaped upon him ever since the investigation of the disaster has been in progress. Holding newspaper of the supervisors were received, only one, McGushin, having failed to keep his agreement and retire. He could not be found. The resignations read: "I hereby resign from the office of supervisor of the city and county of San Francisco and as a member of the board of supervisors of said city and county: this resignation to take effect upon presentation to the clerk of the said board of supervisors." The new members were installed without formality. Mayor Edward Tay-lor called on Clerk Ryan to read the resignations and as it was concluded he appointed one of the men already named to the vacant chair. As Super-visor Compte is now out of town, no one, McGushin, having failed to keep

tions subsequent to the crash in his hands, his brain fiber snapped, and he SEA DISASTERS DUE TO COMPANY RULES

Columbia Officer Testifies That Captains Are Required to Run at Full Speed. (Journal Special Service.) San Francisco, July 30 .--- In the in-CHURCH LEGACY uiry into the wrecking of the Columbia before Captain Birmingham, Second Officer Agerup testified that masters of ships were compelled by company regu-nations to run ships at full speed along dangerous coasts in foggy weather in order to make schedule time. "Is it the usual practice on the coast to go at full speed?" asked Captain Birmingham.

Francisco, July \$0.-At last

named to the vacant chair. As Super-visor Compte is now out of town, no difficulty arises over the failure of Mo-Gushin to hand in his resignation. The board passed a resolution calling upon the heads of the departments or the city government to submit financial reports. Supervisors. Tveitmoe and O'Neill, the two members who retained their seats, made protests against the installing of the supervisors. An event that all shrewd housewives watch for and benefit by. A gathering of all our season's accumulation of soiled and mussed CASE DECIDED ficer Agerup testified that masters of autons to run ships at full speed along dangerous coasts in foggy weather in order to make schedule time. "Is it the usual practice on the coast to go at full speed?" asked Captain Birmingham. "The captain always slowed up when he heard a steamer ahead." was the answer. "Does the ship never slow up unless there is a steamer ahead." "T can't recollect that we ever did. It might be once in a great while, per-has, especially in very bad weather. sid Mr. Agerup. Miss Alice Osterburg, a passenger on the ill-fated ship, stated that the be-havior of Third Officer Hawse was gentlemanly throughout the disaster. The ignominy heaped upon him was

The ignominy heaped upon him was more than he could bear. After brood-ing for several days over the charges which have been made against him, his intellect lost that keen adjustment that nature provides between thought and act, and his mind reeled off into insan-ity. Hawse spent the evening at his rooms, 138 Fair Oak street. Second Officer R. Agerup was with him. Hawse had spent an hour or more reading and rereading the censures which had been printed about him. He read how he was charged with having refused succor to drowning women; had thrust them back

LOGICAL CANDIDATE

(Journal Special Service.) Chicago, July 30.—Western railroads are near an open break with the post-office department over the transporta-tion of mails, owing to a number of recent orders. The latest cause of grievance is the imposition of heavy fines on nearly all the roads for delay in delivering the mails. To consider the situation railroad men heid an im-portant conference today.

portant conference today. One of them declared that the fines levied by the government against his road in one quarter amounted to \$40,000.

road in one quarter amounted to \$40,000. A similar condition on other roads was reported. The fines were assessed un-der a new rule which went into effect in July, 1906. The roads were amazed to find that they are in danger of losing 15 per cent of their mail pay unless they revise schedules and place their mail trains upon running time which they know they can maintain in all seasons and in all kinds of weather. The new rule, the roads say, is op-pressive and unjust. It provides that if the mails are late ten times on any route during a period of 90 days the road shall be assessed 15 per cent of the pay of that route for the quarter.

CLAIM HAYWOOD IS

abroad. Some of Haywood's union coworkers are now claiming him to be the logical candidate for the presidency on the Socialist ticket. As candidate for gov-ernor of Colorado last year, when in prison in Idaho, he received 16,333 votes.
