

LANDIS' FINE STAGGERS STANDARD ATTORNEYS

Federal Judge's Assessment Throws Rockefeller Lawyers Into a Panic.

ALL THEIR MOTIONS ARE OVERRULED

All Members of Counsel Immediately Summoned From Europe—Court's Remarks Most Sensational Utterances Ever Coming From Bench.

By James S. Evans. (Closest News by Longest Leased Wire.) Chicago, Aug. 3.—Judge Kenesaw M. Landis, of the federal district court, today fined the Standard Oil company \$25,000 for having violated the Elkins law pertaining to rebates on 1,462 counts. It was the maximum penalty permitted by the statute, and it is the largest assessment for an infraction of the law that is recorded in all history for all governments.

It was a dramatic morning in court. What Judge Landis had to say to John D. Rockefeller's trust will live as one of the most sensational utterances coming from the bench. Twice Judge Landis was applauded. But he halted the demonstration himself, raising fiercely on the wooden desk in front of him with his bare knuckles.

Proceed Next Against Railroads. Backed by the cohesive forces of the United States authorities, Judge Landis will proceed against the Chicago & Alton, the Chicago Eastern Illinois and the Chicago Terminal railroad companies, that gave to Mr. Rockefeller's oil trust illegal rebates. He will attack individuals of both the oil and the railroad corporations, instituting and permitting such preferential rates. The railroads are to be indicted on lines identical with the procedure in the Standard Oil cases fined by Judge Landis today. The individuals will be prosecuted under the conspiracy act, for which, after conviction, there is prescribed a penitentiary sentence.

Prison Sentence Faces Financiers. Thus John D. Rockefeller, William Rockefeller, John D. Archibald, H. H. Rogers, J. A. Moffatt and other officers of the Standard Oil company, together with the contracting freight elevators, auditors and other executives of the Chicago & Alton and Chicago & Eastern Illinois railroad companies, are to be indicted with the end in view of placing on the entire Standard Oil trust, surrounded them with iron bars, subject them to prison rules, and condemn them to shame and disgrace. When Judge Landis concluded with reading his written opinion affecting the Standard Oil company of Indiana, the indicted concern, during the litigation of which the entire commercial world has been interested, he turned to District Attorney Sims and directed that 50 men appear before him August 14. The duties of

this inquisitorial body will be to look after the offending railroads and the individuals.

Rockefeller Attorneys Won-placed. The announcement threw the attorneys for Mr. Rockefeller almost in a panic. There were present Chauncey W. Martin, Robert W. Stewart and Merritt Starr, associates of D. B. Eddy, general western counsel for the Standard Oil. John S. Miller and Mr. Eddy are in Europe and Merritt Starr is on a vacation in the east. All of them have been asked to come home at once. In a moment after the decision the news was telegraphed to Mr. Rockefeller at his home near Cleveland. J. A. Moffatt, president of the Indiana company, now in New York, immediately gave out an interview in which he criticized the court's action and strenuously defended the commercial course pursued by his company.

District Attorney Sims and his assistant, James H. Wilkinson, were highly gratified at the court's action. Judge Landis had nothing to say. Treated as Any Other Criminal. Judge Landis began to give sledgehammer blows to the Standard Oil trust from the moment he took his bench. No such language was ever before incorporated in judicial sentences as he shot straight at the biggest commercial association of men in all the world. Of their methods he said that they make money from the mails, were acts less violent to society than those systems of commercialism exercised by the Standard Oil. He said:

"The men who thus deliberately violate this law (meaning the Elkins law) are he who counterfeit coin or steal money from the mails." The court reviewed the objections of counsel in their many forms. He read from his typewritten pages with a slow and studied speech, his voice rising and falling, with dramatic declarations were uttered.

Wall Street Poachers Present. Wall street had representatives present. They were there to take advantage of the decision by the effect it would have on the market. These representatives sat near the entrance to the courtroom where they might bet away the moment the extent of the fine was known. That information was reserved until the very last of Judge Landis' utterances. A flash 20 men tried to get through the doors leading to the elevators at the same moment. The confusion was at its height. Judge Landis knew the character of the business of those making the noise. He directed that the marshal preserve order.

The offenses for which the Standard Oil company was convicted were for shipments of oil from Whiting, Indiana, East St. Louis, at a lower rate than scheduled, either to the public or to the interstate commerce commission. It was proved that the Standard Oil company profited by the hauling of 6,000 cars at the preferential rate, \$223,000. The penalty following is more than one hundred times the original rate. The Standard Oil company could, with \$25,000,000 build and equip as no railroad in the nation has a better track system from Whiting to East St. Louis at less than the figure it will have to yield in the event Judge Landis' decision is upheld. And attorneys say there is little doubt.

STRIKE KILLS UP COLORADO ROAD

Passenger and Freight Service Between Wyoming and Texas Paralyzed.

(United Press by Special Leased Wire.) Denver, Col., Aug. 3.—A general strike of all members of the Brotherhood of Railway Trainmen employed by the Colorado & Southern railroad system extending from Orin Junction, Wyoming, to Texline, Texas, was ordered noon today and tonight fully 800 men are out, with more to follow as soon as they bring their trains back to the terminal points. The strike was ordered by W. T. Newman, vice-grand master of the Brotherhood.

Unless the strike is settled within the next 48 hours many factories and smelters dependent upon the Colorado & Southern for coal and ore supplies will have to suspend operations. The strike is not for higher wages or better hours, but really a sympathetic move in behalf of the switchmen of the system, who went out two weeks ago for an increase of 2 cents per hour in their pay. Less than 100 switchmen were involved, and the company during the past two weeks has filled their places and was in a fair way to clear miles of sidings with loaded freight cars.

Prison Sentence of Len Katon Stands. Olympia, Wash., Aug. 3.—The supreme court has affirmed the case of the state of Washington, respondent vs. Len Katon, appellant, from Chehalis county. The defendant was convicted of a statutory crime, the prosecuting witness being Ruby Shannon, 14 years of age. The court indicated that the testimony on which the conviction was obtained was sufficient, but that since the trial judge had refused to grant a new trial, the higher court did not see fit to take the responsibility of upsetting the verdict of the jury which heard all the evidence.

Newberg Loses Pastor Cash. (Special Dispatch to The Journal.) Newberg, Or., Aug. 3.—A farewell reception was given at the residence of L. M. Parker last evening for Rev. Herbert Cash, who is about to depart for Colorado. Rev. Cash has been pastor of the Friends church, III health necessitates his removal.

FRENCH DUKE HAS WON MISS SHONTS

Marriage Contract of Pretty American Heiress Signed Several Days Ago.

(Closest News by Longest Leased Wire.) Paris, Aug. 3.—Society is on the qui vive over the report that the Duke de Chautanes has succeeded in his wooing of Miss Theodora Shonts, the daughter of Theodore P. Shonts, head of the New York traction trust. According to the latest reports the marriage contract, which is necessarily under the French law, was signed here a few days ago in the presence of witnesses—Prince Galatin and Count de Plutus being the principal ones. While the report is unconfirmed, there are no denials of it, and when the Shonts family went to London the Duke accompanied them, although stopping at a different hotel. It is reported that the duke is going to New York soon. The duke is said to have an exaggerated sense of the wealth of the Shonts family.

FRANKLIN'S HOME WILL BE SOLD

Paris Residence of Great American in Good State of Preservation.

(United Press by Special Leased Wire.) Paris, Aug. 3.—A house is to be sold in Paris which has a remarkable interest for Americans. This is the former home of Benjamin Franklin, 26 Rue de Ponthiver, in the St. Honore quarter, and quite close to the Champ Elysees and the Elysees palace. It was built by the great American himself and he lived in it before he went to reside in Passy, or rather in the intervals since Passy, to which one goes now in 10 minutes by tramway. The house is in excellent preservation and well built and is still quite strong.

ASSASSIN REPORTED TO HAVE CONFESSED

(United Press by Special Leased Wire.) New York, Aug. 3.—Through the office of Bedros Hamartzoomian, millionaire, H. S. Kavshanjian's assassin is reported to have confessed all he knows about the Armenian terrorist organization and it is believed the authorities are on the verge of learning the inside history not only of this murder but the assassinations of half a dozen other Armenians who were put out of the way because of their refusal to pay tribute to the society. Hamartzoomian's offer was coupled, it is said, with a plea for clemency. The district attorney's reply was that if Hamartzoomian was really duped as he claims, his duty should be plain. As the slayer has been constantly weakening, it is believed he will soon reveal all he knows.

NEW INSTRUCTOR AT TUALATIN

(Special Dispatch to The Journal.) Forest Grove, Or., August 3.—Miss Virginia F. Yancey of Missouri is being secured by President Ferrin as assistant in Tualatin academy. She is a graduate of Hardin college and received her A. B. degree from the University of Missouri. Miss Yancey comes from a family of teachers. Her father is a college president and she has had four years' experience of teaching. She will have charge of the same branches as Mrs. Grace Wood Hill, who is in South America with her husband, the well known Y. M. C. A. worker, "Chuck" Hill, doing missionary work. The faculty of Pacific university is complete now since Professor Taylor of Nebraska has been engaged to take Professor Marsh's place. The push club, organized by the students, is largely responsible for the numerous letters coming on every train inquiring about Pacific university. The students, now scattered over the state during vacation, are all boasting and in all probability there will be the greatest attendance the school has ever had.

MILWAUKIE CLUB

(Continued from Page One.) make 4 to 1, while his price on the track is anywhere from 6 to 10 to 1. By doing this it makes the club appear to the newcomers as liberal, when in fact the reverse is true. It should be understood in the first place that odds from the tracks are cut so low that a poolroom could double them and then give track odds. If a horse is a favorite and the crowd bets on him they cut his odds down and in cases refuse to take any money on him at all. It is a well-known fact by race players that any horse that has a reasonably good chance to win that the odds are kept down to such a low price that the average player cannot afford to bet on him. A glance at the official form charts shows that in many instances the Milwaukee club poolroom lays 6 to 1 against a horse with, say, 10 to 1 and sometimes 15 to 1 in other poolrooms. In many instances horses against which the prevailing odds are 50 or even 100 to 1 on the official form charts, are raised to 10 and 15 to 1 by the local gamblers. As an instance of how the Milwaukee club swindles its patrons, the following races at Seattle on August 1 are an example: First race—Ed Davis, at track 16 to 5, at Milwaukee club 3 to 1. Slightly, at track 7 to 1, at Milwaukee club 5 to 1; San Ramon, at track 7 to 1, Milwaukee club 5 to 1. Second race—Illusion, 14 to 5 at track, 2 to 1 at Milwaukee club; Duke of Orleans 8 to 1 at track, 5 to 1 Milwaukee club; Remember, 15 to 1 at track, 10 to 1 Milwaukee club. Third race—Asterham, 25 to 1 at track, 10 to 1 Milwaukee club; San Rida, 6 to 1 at track, 11 to 5 at Milwaukee club; Jack Adams, 7 to 2 at track, 2 to 1 at club. Fourth race—Salable, 9 to 5 at track, 3 to 2 Milwaukee club; Im Joe, 15 to 1 at track, 12 to 1 at club; Eckersall, 15 to 1 at track, 8 to 1 at Milwaukee club. Fifth race—Bessie Weilly, 12 to 1 at track, 10 to 1 at Milwaukee club; Rosebud, 10 to 1 at track, 6 to 1 at club; Roma II, 10 to 1 at track, 13 to 1 at club. Sixth race—Cadechon, 11 to 5 at track, 3 to 2 at club; Orlean, 13 to 10 at track, 7 to 5 at poolroom; Legatee, 9 to 2 at track, 7 to 2 at poolroom. This is but one of the many methods employed by the Milwaukee club.

OPERATORS IGNORED THE STRIKE ORDER

(Special Dispatch to The Journal.)
