Price of Best Stuff Goes to Much Competition Along \$6.75 Flat—Improved Tone in Cattle.

Portland Union Stockyards, Aug. 6.— Hogs. Cattle. Sheep. Official receipts: Today

Year ago ... 23 294
Previous year. 13 140 450
The small arrivals of hogs forced the market up 25c today and best stuff is quoted firmer at \$8.75. The inability Year ago of packers to get in supplies from the east is working a severe hardship on them because of late local arrivals have been almost too small to note. The genbeen almost too small to note. The general absence of arrivals has caused the shutting down of the hog-packing plants and even the retailers experience considerable difficulty in obtaining a sufficient supply to tide them over. As during the past 24 hours there were no hog arrivals in the yards last Tuesday. Both a year and two years ago the run was nominal.

Better Time in Steers

In the cattle market a better time was reflected today on account of the small run. Arrivals for the 24 hours were just 75 head, half of the run of a week ago. A year ago 294 head came and two years ago 140 head. While the general cattle market is unhinged from provious price rulings of fractional previous price rulings, a fractional advance over listed figures is some-times obtained for quality out of the ordinary.

Steady Tone in Sheep.

While values are unchanged in the general sheep trade today, the market is steadler and the trade has been able to maintain prices more easily. Today's run was 250 head, compared with none either a week ago or a year ago and 450 head two years ago.

A year ago today the market was showing a fractionally improved tone for cattle, especially steers. Hogs and sheep were steady. Values unchanged. Official yard prices:

Penditon, Or., Aug. 6.—N. S. Ring, special government inspector, has returned from Maiheur county, where he turned from specting sheep. While at the whole turned from Malheur county, where he had been inspecting sheep. While at McDermitt he quarantined the whole south end of Malheur county, extending north for 70 miles, excepting the southeast corner extending north about 15 miles square, which he found free from scab. He forced the dipping of 48,760 head of sheep, and he stated that there is but one band of clean sheep in that whole section of the county, which is owned by John Etcheson and consisting of 1,300 sheep.

The inspector states that in his 15 years of experience this was the vorst bunch of sheep he had ever inspected. A range rider has been placed on the range and no sheep will be allowed on this whole section of the state now under quarantine.

Line of Great Northern -No Damage.

No Damage by Heat,

(Journal Special Service.) Lewiston, Ida., Aug. 6 .- The grain companies report that no . damage has been sustained during the recent hot weather, and that unless unfavorable condiprevail during the next two weeks Nez Perce and Idaho counties will harvest the greatest grain crop in their history.

Up to this time the farmers have refused to contract their crop, holding for a higher price, which they believe will prevail later in the season. The companies are offering 68 cents for bluestem and 65c for club, while . brewing barley is quoted at 87 1/2

Farmers say that they will sell when the quotation for bluestem reaches 75 cents, and it is thought for this reason the market will remain inactive until late in the season.

Chicago wheat values Aug. b.

The local wheat situation remains The local wheat situation remains rather quiet. In the interior there has been considerable competition among millers to get early supplies and the result has been that the price is generally a fraction above the place it started at. Along the line of the Great Northern the prices paid average 74c for bluestem. Some millers report heavy purchases. leavy purchases.

Most of the sales thus far have been

to the smaller millers who were caught short last season and were forced to pay high values latter to fill their flour orders.

Chicago Loses Again.

Weaker and lower Liverpool cables contributed to the lower opening in Chicago today. The market was dull all through the session, the price showing no rallying power at any time. The close was ½c to 1 ½c under yesterday.
