On the other hand the visitors hit the Portland pitchers almost at will. Tuesday Groom was knocked off the mound. Friday Califf was batted sky high, and was forced to retire. Schimpff had to be replaced by Kinseila.

Pernoil and Hartman each stayed a game out, but lost, and the only game won was won by Groom when he came back Thursday to redeem his poor work of two days previous. It is true that the pitchers were none too well supported, but the fielding averages are about as good as usual. Pokorny was a laughing stock at first, but both Mott and Fay were better than they generally are.

While Mott did good work on the infield, he was miserably weak at the bat, getting but two hits out of 21 times up. Pokorny was just as bad. He got one hit out of 11 times up. This hit was a little Texas leaguer, and nobody was surprised more than Porkorny himself that it landed in a safe spot. Atherton and Fay were both very weak at bat, Atherton's average being 100 and Fay's 105. Bassey leads the regular players for the week.

A glance at the week's hitting of the Los Angeles team shows a difference that is almost appalling. Dillon's work, of course, was phenomenal. Out of 22 times at bat he hit safe 10 times, one of the hits being a home run, one a

LOCALS LOSE BY MULTNOMAH VS. U. C. GRADS MAY BE EVENT OF FOOTBALL SEASON

A big attraction of this fall's football season will probably be a match game between the Multnomah club and the all-star team of University of California graduates which Ollie Snedigar, the well known California sprinter, proposes to get together for the fall season.

Rugby football will be played at the California universities this year, and it is believed that a game between the University of California graduates and the Multnomah clubmen would be quite the biggest thing that would happen in intercollegiate football in the entire west.

Leam will be out in their padded clothes just as soon as the first cool snap of the fall arrives. While immediately after fall arrives.

BIG RECEPTION FOR HIGH SCHOOL PLAYERS

Seattle, Aug. 6.—When the members of the Seattle high school baseball team get back home in about two weeks, after the longest tour ever taken by any interscholastic team in the world, they will be given a reception that will warm the cockies of their hearts. Already plans are under way to meet the boys with a band at the depot, and Mayor Moore, or whoever is subhing for him at the time, will be on hand to give the boys a hearty welcome to their home city.

The Seattle boys have made a wonderful record since leaving home. They made practically a clean sweep of the high school teams from Seattle to New York City. They have lost a number

BIG LEAGUE NOTES.

Cleveland holds the straight victories record in the American league, having won eight games in a row.
With the Cubs or Glants behind
Pitcher Karger of St. Louis he would be a world-beater.
With "no end of money" behind him to produce a winner, Ned Hanlon has

proved a cluck in Cincinnati.

If the Detroit team can hold their own in the east they should make a great fight for first place when they return home.

President Ebbets will take the Brook-

lyn team to California next spring if they finish as good as fifth this season. That looks like a cinch for the Dodgers. "Goat" Anderson is playing great ball for Pittsburg. Hailman, the other Pirate youngster, is not doing very well.

It is said that Ovic Overall of the Chicago Nationals owns a California orange grove valued at \$100,000. That's a lot of oranges.

American league umpires are having their troubles this season. All of them,

the Multhomah clubmen would be quite the biggest thing that would happen in intercollegiate football in the entire wegt.

Of course the football season is still in its speculative stage. Yet the pigskin enthusiasts of Multhomah are sizing up the possibilities of a championship team and of a season of fast games.

All the indications are that the 1907 season will be as successful as any in the past, if not more so. John A. Horan, to whose efficient management much of last year's success was due, will be at the helm again this year, while J. F. Lonergan, a star of many seasons, will captain the team.

FIVE BIG TRAINS TRANSPORTING SHOW

Almost Every Country in Civilized eling Colony-Tents Will Be Pitched at Twenty-Fifth Street.

Portland is to have a circus. Not a gation whose owners can look the public square in the eye and not blush when claiming their offering to be the one supreme show of the universe.

Ringling Brothers' circus has always ranked as the supreme, invincible, victorious monarch of the amusement world, but the press agent says that the presentation this season is of a size that makes comparison with any other—past or present—impossible. It takes five big trains to transport the circus, and when settled on the show grounds and roady to start the performance, it occupies more than 14 acres of ground.

GAMBLER WILLS I CURE MEN Original Methods

I cannot too forcibly impress the fact that the METHODS BY WHICH I TREAT AND CURE MEN'S DISEASES ARE ORIGINAL WITH ME. They are a result of my observation, research and study during years' practice as a specialist. This should especially appeal to THOSE WHO HAVE BEEN DISAPPOINTED in their efforts to obtain relief, and should aid all afflicted men IN THE CHOICE OF A PHYSICIAN. As to my understanding of men's diseases and the scientific correctness of my treatment, MY UNEQUALED SUCCESS IN EFFECTING PERMANENT CURES speaks sufficiently. speaks sufficiently.

Weakness

Weakness

MY SUCCESS in curing those functional disorders commonly termed "weakness." IS DUE TO MY FULL UNDERSTANDING AS TO THE CAUSATIVE CONDITIONS and to my absolutely scientific methods of removing them. Many cases of prematureness, loss of power, etc., present a variety of symptoms so entirely confusing and perplexing that MOST PHYSICIANS have fallen into that dangerous rut, the practice of treating by set methods, without discrimination and without KNOWLEDGE AS TO THE REAL REQUIREMENTS. My first step is an absolutely scientific and accurate diagnosis. In a large majority of cases I find the sole cause of these functional derangements to be A SWOLLEN, IRRITATED AND CHRONICALLY INFLAMED PROSTATE GLAND. This condition cantilly be remedied by any CHRONICALLY INFLAMED PROSTATE GLAND. This condition cannot possibly be remedied by any treatment other than the local measures I employ, and to ATTEMPT TO FORCE NORMAL ACTIVITY AND VIGOR BY THE USE OF STIMULANTS and tonics would only result in aggravation of the trouble. Under my treatment a cure is POSITIVE AND CERTAIN, and absolutely permanent, because I accomplish it by the removal of every cause responthe removal of every cause respon-sible for the disorder.

Specific Blood Polson

I know this leprous disease com-pletely. The system is thoroughly cleansed and every poisonous taint removed. The last symptom vanishes to appear no more, and all is accomplished by the use of harm-less blood-cleansing remedies. Do not submit to the dangerous mineral dosing commonly indulged in. Such treatment merely obscures the merely symptoms.

I positively cure Varicocele in one week, and frequently in even less ime. I MEET WITH NO FAILweek, and frequently in even less time. I MEET WITH NO FAIL-URES, nor is my treatment ever followed by undesirable results, MY METHOD OF EFFECTING A CURE IS PAINLESS, and no other equally satisfactory, safe and certain meth-od exists. It is an original and dis-tinctive method and produces AN ABSOLUTELY THOROUGH AND PERMANENT CURE.

Varicoccie not only impairs func-tional activity, but in many in-stances it results in A WASTING AWAY OF THE ORGANS involved and gradually undermines the general health. A THOROUGH CURE IS A MATTER OF VITAL IMPORTANCE, and is also a matter of but a very few days' treatment under my system.

Contracted Disorders

Through my long experience treating these diseases I have devised methods that not only cure, soundly and permanently, but cure in less ments require. Take no chances.
