GOODING NOT DONE FIGHTING

Idaho Agitated by Report of Determination to Call Extra Session.

FOR MORE MONEY TO FIGHT FEDERATION

State Auditor Refuses More Deficiency Warrants, Which Makes Desperate the Merely Precarious Cases Against Moyer and Pettibone

(Special Dispatch to The Journal.) Boise, Idaho, Aug. 6.—Reports of a very substantial character are afloat here which indicate a positive determination on the part of Governor Gooding to, if possible, continue the fight on the Western Federation of Miners, even to the calling of a special session of the Idaho legislature. It is reported that the governor has "feelers" in various parts of the state learning the sentiment of the members of the legislature, for the purpose of determining whether or not they would or would not stand for an additional appropriation to carry on a warfare which served Gooding so well as a political issue during the last campaign. It is said that he is not only trying to reach members of the legislature through personal correspondence and through others who are close to his political family, but that he has sent some of his well known detective force out on missions of inquiry among the law-makers.

State Board Talks On Gooding. State Auditor Bragaw has refused to draw any more deficiency warrants for the purpose of prosecuting the cases against Moyer and Pettibone. Standing with him in his determination in this matter are said to be Secretary of State Lansdon and Attorney-General Gubben, members of the state board. It is understood that as soon as the verdict acquitting Haywood was announced a vigorous protest against Gooding went up from his former political allies, the Mormons of south-eastern Idaho, who took him severely to task for having assured them that he would see to it that the Western Federation officials were convicted and having insisted that the evidence was entirely ample to do so.

Infuriated over this threatened defection of his former political associates, he at once set about it. It is said, to batter down all opposition to a continuation of his fight.

If The Legislature Should Meet. The convening of the legislature would necessarily incur an enormous expense to the state of Idaho, and the only perceptible end, now that Haywood has been acquitted, which could be served in a legislative session would be the gratification of the political desires and ambitions of the governor, to the extent, at least, that he might be able to go down among the Mormon allies, who saved him in the last election, and point to a vindication.

It is argued here that an interview which Senator Borah gave the Salt Lake Tribune means that Moyer is not liable to be prosecuted, that the prosecution admits there is not evidence enough upon which to convict. It is the conviction of a large element of Idaho's population, with Haywood acquitted and not enough evidence to convict Moyer, the case ends so far as the Western Federation of Miners is concerned.

TOWNBUILDERS AT SISTERS ARE BUSY
 Fully Satisfied That Corvallis & Eastern Extension Is Coming Their Way.

(Special Dispatch to The Journal.) Prineville, Or., Aug. 6.—A deal has been closed by A. L. Goodwillie, mayor of Bend, for 160 acres of land, a part of which is the present townsite of Sisters, Oregon. The original owners, Smith & Will, general merchants of Sisters, received about \$5,000 for the land, more than they considered the place worth two months ago. This deal is of great significance in given the transaction here, considering the fact that the little town is situated on the survey of the proposed extension of the Corvallis & Eastern. It is an ideal location for a town, and rumor has it that the entire tract will be platted into lots and acre tracts soon. The situation is ideal for a summer resort, for it is situated but a short distance from the Three Sisters mountains, Blue and Suttle lakes and the headwaters of that mysterious river, the Matoles.

Citizens of Bend are assured that their point will have railway accommodations soon, and the assurances are evidently taken as well founded, for real estate transfers have been brisk and prices astonishingly high there for the past two weeks. This condition has been affected largely by the statehood of H. C. Ellis, one of the directors and managers of the Pioneer Telephone company, who said in effect that Bend should and will have a railroad, and if the Corvallis & Eastern does not build it the Deschutes Irrigation & Power company will. Mr. Goodwillie has with the D. I. & P. company, it is thought, are the reasons for the mayor's action regarding the Sisters townsite.

Special Sale of Gas Ranges
 Including Our Latest Pattern of High Oven Range

FISH LAW VIOLATORS WARNED BY ROBERTS

(Special Dispatch to The Journal.) Hood River, Or., Aug. 6.—Deputy State Fish and Game Warden C. G. Roberts, who resides at Hood River, has commenced a campaign against violators of the fish laws. He will shortly make a personal inspection and report all offenders to the district attorney. He also states that as a result of being allowed to go into some of the streams, which is in direct violation of the law, and that those found guilty will receive the penalties are fines not less than \$50 nor more than \$1,000, or imprisonment in the county jail for not less than 30 days nor more than a year, with fine in addition at the discretion of the court.

GRANGERS TO BUILD HALL AT HOOD RIVER

(Special Dispatch to The Journal.) Hood River, Or., Aug. 6.—Hood River valley grangers, who are opposed to combinations on general principles, will have the stand they usually take in order to secure the erection of a big hall on a 10-acre tract recently purchased for that purpose. The plan is for the three organizations here to consolidate and subscribe funds for the building, which, in addition to having at Hood River, will have a gymnasium and a swimming pool for members of the hall, and be fitted up with the idea of making a place of recreation. The grounds around it are to be transformed into a park for open air banquets and outings.

Mexican Mustang Liniment

Goes quickly to the very core of the disease and stops the most deep-set, excruciating pains almost instantly.

To View Greek Army Maneuvers.

(Journal Special Service.) New York, Aug. 6.—Colonel C. S. Bromwell, military aide to the president, sails today en route for Greece, where he will represent the president in the maneuvers of the Grecian army next month.

Del Monte Postmaster. Oyster Bay, Aug. 6.—President Roosevelt today appointed H. E. Warner postmaster of Del Monte, California.

DON'T BE BLUE
 and lose all interest when help is within reach. Herbine will make that liver perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine for these troubles, on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me. Sold by all druggists."

"Let the Label Tell" Says Uncle Sam

EXTRA! EXTRA!
Your Choice of Any Panama Hat in Our Store

Another wallop for drugs. Uncle Sam says makers or compounders of patent medicines and bottled "doses" of all kinds must print their formula on the bottle.
 My! How it hurts them to tell the truth. Why? Simply because their remedies are doped with deadly poisons that wreck the nerves and vitals, and often make drug fiends out of their victims.
 I've been telling you for years that most drugs are a combination of a lot of alcohol and a little bit of poison. Now, you can see for yourself that this is true. You should also know that this stupor puts a brake upon the heart's action. Of course the pain comes back after the stupor wears off, and you have to take the drug again. Every dose weakens your heart action and in time, by steady dosing, your heart is liable to stop entirely.
 The only way to cure pain or disease is to help nature. Drugs don't do that.
 What nature needs is nourishment—something to build up—not tear down. Electricity is that nourishment. Feed it to your nerves and they will absorb it, just as a sponge absorbs water, and carry it to every organ and tissue of your body where it gives energy and strength to all weak parts.
 Your body is run by electricity. It's the lack of electricity that causes sickness and disease. When you have a full supply of electric energy you are healthy and strong. Electricity is the power Nature uses to restore health; so can't you see that drugs won't give you this force?
 Human electricity comes from the food you eat. The digestive juices of the stomach burn the food and produce this power, which is forced through the nerves to run the human machine. When you dope your stomach with drugs you decrease your supply of electric energy, for the drugs upset the stomach, rendering it unable to generate this force.
 Help Nature cure by restoring electricity where it is needed. My Electro-Vigor does this while you sleep, saturates the nerves with its glowing power, and these conduct the force to the part that is ailing and quickly restore health.
 Electro-Vigor is a relief from the old system of drugging. It removes the cause of disease, and when that is done no pain or sickness can exist.
 Electro-Vigor is not an electric belt. It is a dry-cell battery, and makes its own power continuously. There is no charging to do—just put it on and turn on the current.
 Electro-Vigor cures all kinds of digestive trouble and restores my strength, after I had tried many other methods without benefit.
