The locals had a lead of two runs as late as the seventh inning, but Pitcher Wright suddenly steadled down, while the Portland twirlers remained as easy as before. Eddie Kinsella, the hard-working boy with the big head, who is usually about the most reliable curve dispenser in the Beaver squad, was bombarded off the mountain. This makes four Portland pitchers to be batted out of the contest in the past seven games.

Twenty base hits, six of which were for more than two bases, were pounfoin various directions over the lot yesterday. Four of them hit the fence and one, a clout by Truck Engan, banged against the right field boards about a foot from the top.

Eagan sliced the diamond in two with a single and Bliss followed with one that the new outfielder, Burdette, fumbled as it came to him on the bounce. The big, red truck wagon scored and Bliss reposed at third. Bigbee was soaked in the ribs and in an attempt to bull off a double steal Bliss was nearly nabled. Haler fiew out, but "Brick" Devereaux took a shot at the left field fence and Bigbee rang the bell.

Portland exactly duplicated Oakland's hitting performance in the second half, getting two doubles and a single, but nobody blundered on the other side and only one run was scored.

Schimpff, while he has not yet made a general record that is as good as Califfs, has several that is as good as Califfs, has several these proven that he is a capital kid to shove in as a for-lorn hope. It is by such little slips as this that the big manager has lost a number of games in the past.

Burdette, the new outfielder, made ble debut in the field by scoring an error, and the first time he came to bat he struck out. He gathered in several files later, but failed to reach one which it looked from the press box as if he ought to have captured.

Atherton got two hits yesterday, more than he scored in the three games he played last week. Fay hit safe twice, 0:35%.
Which equals his entire number scored last week.

"The next time you meet Bull Perrine," says a San Francisco newspaper. "or any other umpire who has worked in the Coast league, ask him how he would relish working in a game in which one of the teams lined up as follows: Dillon, first base; Mohler, second base; Wheeler, shortstop; Devergaux, third base; Spencer, center field; McCredle, right field; Cravath, left field; Cates, pitcher and Street, catcher. What a fine assortment of 'crabs.'"

"Do you ever hear of a newspaper getting credit for aiding in the development of a team?" asked Hanlon of the Reis of Charlie Zuber. "No? Well, there are many of them should have it, for there is no manager in the business who kinger, Wilson Addington, Prince Hal, would not give intelligent basecall writers credit for aiding him in the matter of getting hetter work out of his team. way into competition for the athletic clubs. At the recent junior champion-ship meet the feeling against college men ran very strong and many protests were made against the two biggest clubs, the New York A. C. and the Irish-American A. C., both of which are packed with men who have just been forced to stop running for their colleges because the institutions are closed for the summer. the summer

The new plan suggested seems to be the most practical offered so far. Last year's rule would have been effective had it been adopted by the college as well as the A. A. U., but it was not. The plan now under consideration is to The plan now under consideration is to make any athlete who has competed for his college ineligible to compete for an athletic club until a year after he has left college. This will enable many of the athletes in the clubs, who have not the time to train as the collegians do, to get a chance in championships. SCHEME TO DEVELOP

(Journal Special Service.)

San Francisco, Aug 7.—A new feature in the development of track athletes at Stanford university will be the cross-country run to be held this fall. A valuable trophy has been offered by the Quadrangle club, the upper class society at Stanford, to the winner of the run, which will be held some time during the coming college term. Previous to this time cross-country running has received but little encouragement from the universities, but the realization that it is versities, but the realization that it is the most successful method of develop-ing long-distance runners has prompted the students at Stanford to promote this branch of sport during the months preceding the regular cinder-path training. The race as planned at Stanford will be a scratch affair and will be for a distance of probably three to five miles.

I CURE MEN Original Methods

I cannot too forcibly impress the fact that the METHODS BY WHICH I TREAT AND CURE MEN'S DISEASES ARE ORIGINAL WITH ME. They are a result of my observation, research and study during years' practice as a specialist. This should especially appeal to THOSE WHO HAVE BEEN DISAPPOINTED in their efforts to obtain relief, and should aid all afflicted men IN THE CHOICE OF A PHYSICIAN. As to my understanding of men's diseases and the scientific correctness of my treatment, MY UNEQUALED SUCCESS IN EFFECTING PERMANENT CURES speaks sufficiently. speaks sufficiently.

WY SUCCESS in curing those functional disorders commonly termed "weakness," IS DUE TO MY FULL UNDERSTANDING AS TO THE CAUSATIVE CONDITIONS and to my absolutely scientific methods of removing them. Many cases of prematureness, loss of power, etc., present a variety of symptoms so entirely confusing and perplexing that MOST PHYSICIANS have fallen into that dangerous rut, the that MOST PHYSICIANS have rai-len into that dangerous rut, the practice of treating by set methods, without discrimination and without KNOWLEDGE AS TO THE REAL REQUIREMENTS. My first step is an absolutely scientific and accurate diagnosis. In a large majority of cases I find the sole cause of these cases I find the sole cause of these functional derangements to be A SWO LLEN, IRRITATED AND CHRONICALLY INFLAMED PROSTATE GLAND. This condition cannot possibly be remedled by any treatment other than the local measures I employ, and to ATTEMPT TO FORCE NORMAL ACTIVITY AND VIGOR BY THE USE OF STIMULANTS and tonics would only result in aggravation of the trouble. Under my treatment a cure is POSITIVE AND CERTAIN, and absolutely permanent, because I accomplish it by the removal of every cause responsible for the disorder.

Specific Blood Poison

I know this leprous disease com-pletely. The system is thoroughly cleansed and every poisonous taint removed. The last symptom vanishes to appear no more, and all is accomplished by the use of harmless blood-cleansing remedies. Do not submit to the dangerous mineral dosing commonly indulged in. Such merely obscures the

Varicoccie

I positively cure Varicoccie in one week, and frequently in even less time. I MEET WITH NO FAIL-URES, nor is my treatment ever followed by undesirable results, MY METHOD OF EFFECTING A CURE IS PAINLESS, and no other equally satisfactory, safe and certain method exists. It is an original and distinctive method and produces AN ABSOLUTELY THOROUGH AND PERMANENT CURE.

Varicoccie not only impairs functional activity, but in many instances it results in A WASTING AWAY OF THE ORGANS involved and gradually undermines the general health. A THOROUGH CURE IS A MATTER OF VITAL IMPORTANCE, and is also a matter of but a very few days' treatment under my system.

By years of experience we know that men who have suffered from maladies of different varieties such as Nervous Debility, Prostatic Troubles, Blood Poison, etc., wreck their own lives by neglecting the proper medical aid, or by consulting unreliable "so-called specialists" who know nothing about the science of medicine, and this is worse for the patients, both financially as well as physically. This drain, nerve and muscular destroying disease, will not kill you, but it will torture you as did the cannabalistic tribes years ago. It will drive you to a mental as well as physical destiny, by fooling away your time and money on experiments. We are the only reliable specialists in Portland and the northwest treating diseases of men, and when we accept a case you are as sure of a cure, as sure as the sun rises in the east and sets in the west. You ask why we make such a broad statement, and our answer That we know our business thoroughly and our office is equipped to handle such cases.
