'ANNUAL CHAMPIONSHIP REGATTA FOR OARSMEN

(Journal Special Service.) Philadelphia, Pa., Aug. 8.—The thirtyifth annual championship regatta of the ional Association of Amateur Oarsmen, which will take place on the men, which will take place on the Schuylkill river tomorrow and Saturday, has attracted here several hundred carsmen, including the pick of the amateur scullers on the continent. The presence of the German crews gives an international aspect to the regatta. It will also spur the American crews to their best speed in order not to lose any of the championship trophies to the foreigners.

The races will be the intermediate, associate senior and championship senior sculls, intermediate and senior double scull and pair oared shells, inter-mediate senior and senior international four-oared shells, and intermediate and senior eight-oared shells. All the races will be held over a mile and a half straightaway course,

BAY SHORE HORSE SHOW OPENS TODAY

(Journal Special Service.)
Bay Shore, L. I., Aug. 8.—Keen driving competitions, an admirable display of horse flesh, and an outpouring of cottagers and guests were the features of the seventh annual exhibition opened today under the auspices of the Bay Shore Horse Show Association. The ex-Shore Horse Show Association. The exhibition, which is to continue through Friday and Saturday, is the largest ever held by the Bay Shore organization. Alfred G. Vanderbilt has a big entry, including several of the horses that won in the recent international show in London. Other prominent stables of New York, Philadelphia, Baltimore and other cities are also represented. The Bay Shore show, when it first started, was only patronized by summer residents in this vicinity, but of late years it has grown so popular that exhibits are made by many of the best patrons of the horse, and both in the number and quality of the exhibits the show rivals the annual exhibitions at Long Branch, Lenox and other fashionable resorts.

CONTINUOUS BALL MAY PLAY FOR FOURTH TIME IN WORLD'S CHAMPIONSHIP SERIES

A few have been fortunate enough to take part in two such struggles. But what of the athlete who qualifies in three and still stands in line for the fourth?

fourth?

If you think this is a record to be proud of then tip your hat to George Davis, veteran shortstop of the Chicago White Sox. He is the only active player to turn the trick.

It was 14 years ago that Davis first heard the call "play ball" in the first game of the series between Cleveland and Boston for the world's championship. Davis guarded the third sack for Cleveland. He had been playing a year or two in the big league and was accounted a star among such diamond heroes as Clarkson, Kelly, Bennett, to Nash, McAleer and Cy Young.

Ball players consider it a rare privi-lege to participate in a single series for the world's championship.

Cleveland did not cop the series, but all the games were closely contested, and it was his play that gave Davis the reputation that he has handled

with care ever since.

Two years later he was found playing with New York when that club clashed with Muggsy McGraw's Baltimore team in the Temple cup games.

Many present-day fans recall that mementous series. Despite the efforts of mentous series. Despite the efforts of the Baltimore mobs, New York cap-tured the championship with the assistance mainly of Rusie and Meekin, who mowed down the opposing bats-men amid showers of epithets and more tangible missiles. the game of his life.

And everybody remembers the strenuous combat of last year. It was the most notable world's series ever played and the veteran shortstop steadled the White Sox infield and gathered everything that came his way, just as he did 14 years ago for Cleveland.

Efforts Being Made to Down Opposition to Intercollegiate Association.

By Manhattan.

New York, Aug. 8 .- It is pretty hot weather to talk about so strenuous a game as football, but those who are interested in the great American college game are beginning to bet busy. Determined efforts are being made this summer to break down the opposi-

tion of Yale, Harvard, Princeton, Cornell, Chicago and Annapolis to the Intercollegiate Athletic Association of the United States, the organization that was formed two years ago with the object of lessening the objections to football that were raised at that time.

At present Pennsylvania is the only one of the big five eastern universities that is enrolled in the association. The football committee, comprising repre-sentatives of Yale, Pennsylvania, Chi-cago, Harvard, Princeton, Annapolis and Cornell, dictated the rules of the game up to 1906. To avoid confusion the old committee and the new committee of the I. A. A. U. S. consolidated, and the college world was spared the trouble that would have resulted with two foot ball codes. But the management is still unsatisfactory, for the two com-mittees are obliged to consolidate each year. One half of the committee repre-sents seven universities and the other half the new association, made up of some 60 institutions from all parts of the country.

The new body, while feeling conscious

of its growing strength and doubting its ultimate control of the football situa-tion, acted with wisdom in not offending the members of the old committee and made their entrance easy. It is felt that the plans now under way will bring every important university in the country within this organization, and after that the amendment of the football rule will be an easy matter.

MY SUCCESS in curing those functional disorders commonly termed "weakness," IS DUE TO MY FULL UNDERSTANDING AS TO THE CAUSATIVE CONDITIONS and to my absolutely scientific methods of removing them. Many cases of prematureness, loss of power, etc., present a variety of symptoms so entirely confusing and perplexing that MOST PHYSICIANS have fallen into that dangerous rut, the practice of treating by set methods, without discrimination and without KNOWLEDGE AS TO THE REAL REQUIREMENTS. My first step is an absolutely scientific and accurate diagnosis. In a large majority of cases I find the sole cause of these functional derangements to be ASWOLLEN, IRRITATED AND CHRONICALLY INFLAMED PROSTATE GLAND. This condition cannot possibly be remedled by any treatment other than the local measures I employ, and to ATTEMPT TO FORCE NORMAL ACTIVITY AND VIGOR BY THE USE OF STIMULANTS and tonics would only result in aggravation of the trouble. Under my treatment a cure is POSITIVE AND CERTAIN, and absolutely permanent, because I accomplish it by the removal of every cause responsible for the disorder. the removal of every cause respon-sible for the disorder.
