PIOUS MISSION OF TWO SAVANTS

Will Collect Whitman Massacre Data From the Umatillas.

TAKING A TRAMP OF FIVE HUNDRED MILES

Professors Romine and Forrest of Bellingham Will Foot It Across Country Into Montana—Many Witnesses of Massacre Survive.

(Special Dispatch to The Journal.) Pendleton, Or., Aug. 8.—To tramp 500 miles through Washington, Oregon, Idaho and Montana during their summer vacation is one of the plans of Professor A. P. Romine, head of the department of biology of the Washington normal school at Bellingham, and Professor J. T. Forrest, of the chair of mathematics in the same institution. One of the objects will be to study the Whitman massacre by a visit to the scene of the tragedy and also to secure such information as may be secured from Umatilla Indians now living on the reservation who were alive at the time of the massacre.

CHILDREN IN FAIR never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by all druggists.

MAKES THE SKIN LIKE YOU WANT IT DOES IT IN A MOMENT

A liquid preparation for Face, Neck, Arms and Hands. It is neither sticky nor greasy. It's harmless, clean and refreshing. Cannot be detected. Two colors, Pink and White. Use it morning, noon and night, Summer, Winter, Spring, Fall. **SAMPLE FREE.** Lyon Manufacturing Co., 44 S. Fifth St. Brooklyn, N. Y.

NORTH POWDER ROAD TO OUTING GROUNDS

(Special Dispatch to The Journal.) North Powder, Or., Aug. 8.—A fund is being raised here to open a wagon road into the region known locally as the North Powder lakes country, where the fine fishing and hunting are fairly matched by the rich scenery of a virgin country. Notwithstanding this town is set down in the very midst of mountain, valley and river scenery and famed by the coolest of summer breezes, for three months in every year it is an established resort to nearly depopulated women and children in parties of several families each camping out in the mountains and the men driving out as they can get time, hunting and fishing. Hence the wisdom of the present movement for having the trail, which the government is cutting from the Mulr mine road, so connected and broadened as to make a wagon road from North Powder to the lakes, where the trail terminates.

BONAPARTE TO JAIL HARRIMAN OFFICIALS

(Journal Special Service.) New York, Aug. 8.—Attorney-General Bonaparte has decided to commence criminal proceedings against the officials of the Harriman lines, according to advices received here from Lenox, Massachusetts, where the United States attorney-general gave out an interview last night. Bonaparte said that the government is cutting from the "hitcher up" would have greater effect than mere fines could possibly have.

COURT IS FORCED TO WADE TO SHORE

(Journal Special Service.) Pittsburgh, Aug. 8.—Court was adjourned in haste and lawyers, detectives, sheriffs, witnesses and the judge himself were forced to wade out of the courtroom at Turtle Creek yesterday afternoon when a miniature cloudburst inundated the village. The storm broke during the trial of Thomas Jordan, a negro charged with disorderly conduct.

DISTINGUISHED WOMAN EXPLORER IS VISITING HERE WITH FRIEND

Mrs. F. F. Friant, the first white woman to enter the Grand canyon of the Colorado river, is at the Imperial hotel in company with Mrs. Ada Milligan, of Prineville, whose guest Mrs. Friant has been for several weeks. Mrs. Friant registers from Silverbell, Arizona, and is one of the sturdiest mountain climbers in the west. The story of how the plucky woman made her first trip through the gorges of the Colorado is one filled with accounts of adventure and daring. In company with Mr. Friant, who is a civil engineer, and one other man, Mrs. Friant made the descent over the dangerous cliffs and falls in advance of both men. Mr. and Mrs. Friant came west from Michigan 30 years ago and made the trip through the canyon about 11 years later. When going over the first five falls, Mrs. Friant was lowered over a sharp precipice with a rope by Mr. Friant and their companion. Inexpelled in the way of lowering persons they allowed Mrs. Friant to swing into the boiling current beneath the roaring falls until she was submerged to the waist. Her calls to the men 75 feet above her were lost in the noise of the falling waters and for a few minutes she thought they would allow her to be swirled away in the rapids. She finally managed to signal the men to raise her out of the water when she set herself swinging like a pendulum, and when nearly exhausted, managed to jump to an overhanging ledge where she awaited her companions. Five of the falls were thus passed, the average drop of the falls being 60 feet. Mrs. Friant is a woman of remarkable fortitude and even at the present time takes a regular walking trip each day of 20 miles. In the summer months she is a guest, because of her intimate knowledge of the canyon. As a guide she is said to surpass all the male exploiters of the wonders of the Colorado and often takes tourist parties on long hikes through the hills and chasms of the canyon. Mrs. Friant visited Mrs. Milligan at the latter's home at Prineville before coming to Portland and made the trip from Fort Bidwell to Prineville by stage, which required traveling two days and three nights without sleep. Upon her arrival at Prineville, Mrs. Friant did not show the least fatigue and accompanied Mr. and Mrs. Milligan on a trip to Stein's pillar, which she climbed in 15 minutes. Mr. and Mrs. Milligan required more than an hour to make the ascent. Mrs. Friant and Mrs. Milligan left today for Seaside where they will remain several weeks.

EX-RAILROAD OFFICIAL SUBJECT OF VERSE OVER BALD HEAD

Sensation has followed sensation in railroad circles as a result of the sudden appearance of W. P. Jenkins, manager of the fast freight line, wearing a wig. No sooner had the traffic men recovered from the effect of Mr. Jenkins' wig than they were again thrown off their feet by the private circulation of a poem from the pen of E. O. McCorkick, passenger traffic manager of the Southern Pacific. Mr. Jenkins' pate, which is one of the best-known in western railroad territory, was as bald as a tennis ball, and for years was a mark for everything from ribald jests to bloodthirsty moonquitos. He finally retired from railroad work, bought a wig and settled down on his well-earned chicken farm near French Lick Springs, Indiana. There was a general demand on the coast, in the nature of a railroad post-mortem, for his picture and when the photograph appeared Mr. Jenkins' arid peak was decorated with a toupee that made the long-haired scuffers rave with envy. The transformation moved his old friend E. O. McCorkick to poetry, and the well-remembered bald head has been embalmed in the following verse from the talented Southern Pacific official: **Jenkins' Hair.** The hair that Jenkins grew before— We sigh to be most kind— He brushed so hard he brushed the locks— That grew before behind. But now we see his noble brow Adorned with locks galore, So we presume he brushed the locks— That grew behind before.

Hay's Hair Health RESTORES GRAY HAIR to its NATURAL COLOR.
 Stops its falling out, and positively removes Dandruff. Keeps hair soft and glossy. Is not a dye. Guaranteed perfectly pure. Philo Hay Spec. Co., Newark, N. J. 50c bottles, all druggists. Foster & Kleiser—Signs.

DOWN FORTY-FOOT GRADE; NOT HURT
 (Special Dispatch to The Journal.) Spokane, Wash., Aug. 8.—Mrs. C. H. Graves was thrown from her buggy by her child while returning from Wenatchee, by the running away of her team. The buggy upset and threw her down a 40-foot grade, but she was not seriously hurt. Tomorrow and Saturday, last days to receive discount on west side gas bills.

MARKSMEN WILL SHOOT TO WIN

Sharpshooters of O. N. G. Leave Sunday to Compete in East.

Fully determined that Oregon shall be listed among the winners at the National Rifle competition, to be held at Camp Perry, Ohio, commencing August 19, sharpshooters of the Oregon National Guard, 18 strong, will leave in a special car over the O. R. & N. next Sunday evening destined for the east. Following the competitive state shoot, which was recently held at Roseburg to determine who should represent the Beaver state at the Ohio meet, Adjutant-General Finzer yesterday announced the personnel of the team. Those selected to compete with the crack shots of the United States, England and Canada, are: Captain F. B. Hamlin, Captain R. O. Scott, Captain W. A. Deany, First Lieutenant G. E. Houck (team coach), Sergeant V. S. Howard, Sergeant A. A. Schwartz, Sergeant F. G. Stewart, Sergeant A. Q. Johnson, Sergeant H. H. Petrie, Corporal G. E. Upton, Corporal R. L. Perdue, Corporal H. Blackie, Private E. F. Fields and Private Alexander Ferguson. In addition three officers and a marksman are yet to be named. General Finzer is to have command of the team and under his direction it is safe to assume that the Oregon boys in blue will come home loaded down with trophies. Camp Perry where the sharpshooters are to meet is the largest and most complete range in the United States. It lies on the shore of Lake Erie, near Sandusky, Ohio, and is admirably suited for rifle shooting. If the state guardsmen finish in the list of winners in the national tournament they will have an opportunity of competing with the Canadian and English riflemen for the Palma trophy to be shot for on the Ottawa range at Rockcliffe, Canada. It is expected that the team will be absent for over a month during which time all expenses of the trip will be met by Uncle Sam.

FEDERAL PROSECUTORS PREPARE FOR WORK

(Journal Special Service.) San Francisco, Aug. 8.—Ostensibly upon official business connected with the prosecution of the Southern Pacific railroad with the view of forcing the sale of the land grants it holds, United States District Attorney Bristol of Portland has been in this city conferring with United States Prosecutor Henry Prosser of San Francisco. Prosser, a California lawyer of southern California has also been here and has started for Portland. Mr. Bristol is now on his way to Los Angeles. It is understood that the district attorneys were instructed by Mr. Prosser as to the wishes of Secretary Garfield, but nothing has been made public as to the course which will be pursued. Mr. Prosser stated last night that he hoped to be in Portland in October when the land fraud prosecutions are resumed.

REGON PROPERTY OWNERS SHOULD PROTECT THEIR PLATE GLASS IN AN OREGON INSURANCE COMPANY.

This institution is an Association of twenty-two well-known Portland business men united for conservative transactions in the insurance of Plate Glass, Steam Boiler, Liability and Accidents; also Indemnity Bonds. Its rates are as advantageous and backing as sound as any outside company. Oregon-made money should accrue to the benefit of Oregon. UNION GUARANTEE ASSOCIATION MARQUAM BUILDING, PORTLAND, OREGON
