STILL ANOTHER GENERAL AGENCY

Portland Will Be Headquarters of One More Railroad Combination.

Another railroad general agency will be added to Portland's list this month. The Minneapolis & St. Louis and the Iowa Central will open a joint agency at room 209, Lumbermen's Exchange building. R. W. Cook has been appointed general agent. Mr. Cook is now city passenger and ticket agent for the Chicago & Northwestern. He has tendered his resignation and will be succeeded by R. E. Mailing, who has been chief clerk in the office of General Agent R. V. Holdrege of the Northwestern. Mr. Cook was for eight years commercial agent of the Astoria & Columbia River railroad, and later was traveling freight agent of the Northern Pacific. He is well acquainted with the territory of the railroads centering at Portland. The two railroads that are to be for the first time represented in Portland tap the important field of Minnesota, Iowa and Illinois, comprising the most productive portion of the upper Mississippi valley. Their lines extend from Peoria to Omaha and from Des Moines to St. Paul. At Oskaloosa they have a traffic connection with the Wabash to St. Louis. The Iowa Central was formerly a Russell Sage road. Since the death of Sage his holdings, it is presumed, remain with the estate. The president is Edwin Hawley, who is known to have had in the past a cordial dislike for Mr. Harriman on account of the latter's retirement of the former from the Union Pacific at a time when Hawley expected to become the company's president. L. F. Day is vice-president and general manager, and George W. Seever is general counsel. The same officers act for the Minneapolis & St. Louis railroad corporation.

Potter Schedule for Beach. The steamer Potter will sail from Portland, Ash street dock, Saturday, 8 a. m. Get tickets and make reservations at city ticket office, Third and Washington streets. C. W. Stinger, city ticket agent.

Tomorrow and Saturday, last days to receive discount on west side gas bills.

Yes, and they'll bear the brunt of the boy's vacation adventures, and the price is so low that you can always have a fresh suit in the return.

Here also are stout Wool Suits, built for vacation wear.

Combination Rompers, Shoes and Sandals, in fact everything in boys' wear is here at Clearance Sale Prices.

BIG SALMON RUN APPEARS IN COLUMBIA BUT CATCH IS LIGHT

(Special Dispatch to The Journal.) Astoria, Or., Aug. 8.—The biggest run of salmon of the season has made its appearance, but weather conditions are so bad that full advantage can not be taken of it by the fishermen. The middle and outer traps in Baker's bay took out more fish than could be got into the boats at one trip to the can-

NEW RICH SECTION OPEN TO THE WORLD

Milwaukee's Advent Will Transform Rock Lake Country in Southern Washington.

(Special Dispatch to The Journal.) Rock Lake, Wash., Aug. 8.—The Milwaukee in its course to the coast will open no richer section than that lying hereabout. Rock Lake is in the northwestern part of Whitman county, in the midst of a great cattle range. The lake is nearly 10 miles long and about a mile in width at the widest point, and is 300 feet deep at the deepest place, but has an average depth of about 80 feet. There are many caves here which have been in years past the rendezvous of horse and cattle thieves. There is an immense rock at the foot of the lake which from a distance resembles an ancient castle. There is great activity here on account of the building of the Milwaukee. Nearly 1,000 men are employed here by the company and grading is going on at a rapid rate. Railroad camps can be seen for many miles and the blasting is like cannonading in battle. The grade here is but one per cent. This was the first route selected by the Northern Pacific in crossing the inland empire and the old grade stakes are frequently found by the Milwaukee surveyors. The country here is very rich and there are hundreds of wealthy farmers and stockmen. Two townships have been platted here. The old townsite is located in the valley and the new one is on a rocky plateau a town a mile and a half east on a rocky plateau. The railroad will cross the valley at the foot of the lake. The lake is a beautiful body of clear, cold water on which steamers and launches may be seen at any time. Rocky cliffs rise out of the water from 100 to 300 feet. At only one place after leaving either end of the lake can a landing be made. The district at some early period must have been thickly settled by Indians, as in excavating many Indian relics, such as tomahawks, elk teeth, arrowheads and beads have been unearthed, also skulls and bones of Indians who have departed for the happy hunting grounds.

WALNUT PRODUCT IS HEAVILY INCREASED

(Special Dispatch to The Journal.) Albany, Or., Aug. 8.—English walnut culture is receiving quite an impetus and the horticulturists are favorably inclined to take up this branch and place it on a paying basis. The trees in the section, and especially those immediately across the river in Benton county are loaded with nuts and the crop will be a large one. Those who have made a study of the matter contend that this country and the climatic conditions are especially favorable for the growth and the promotion of walnut culture. Walnuts grown across the Willamette from Albany were exhibited at the World's Fair at Chicago, Buffalo and other exhibitions, and have always received favorable mention and carried off most of the prizes. Mrs. W. B. Shannon received the gold medal at Buffalo for the best English walnuts. This industry is but in its infancy and will no doubt be enlarged until it becomes one of the leading sources of wealth. The trees in the orchards hereabout are filled to breaking and those interested in their growth pronounce it a success.

Joaquin Miller to the Caves.

(Special Dispatch to The Journal.) Eugene, Or., Aug. 8.—Joaquin Miller, the poet, who spent a week here after he returned from a trip to the Sierras, has gone to Grants Pass, near which place are some famous caves which he wishes to explore. There he was joined by Jefferson Myers and Judge Watson, of Josephine.

Death of Infant Son.

(Special Dispatch to The Journal.) Yoncalla, Or., Aug. 8.—Died, at Yoncalla, August 7, 1907, Matthew W. Fassett, the infant son of Mr. and Mrs. M. P. Fassett, aged one year and two days.

tery. Several traps, it is reported, took out between five and seven tons each. On account of the rough water on the lower seining grounds near the jetty it was impossible to operate them. Very few gillnetters ventured out, but those who did report very good catches. Fred Williams, a gillnetter, delivered to a cannery 2,500 pounds as one night's catch.

STREETCARMAN MAY BE WHIPPED

Conductor Thomas Shamefully Abused His Wife While Intoxicated.

Another candidate for the whipping post is scheduled to make his appearance in police court tomorrow morning. In the person of A. E. Thomas, a conductor on the Twenty-third street line of the Portland Railway, Light & Power company, for whom a warrant was issued this morning on a charge of assault and battery preferred by his wife, Mrs. Lulu Thomas of 932 Thurman street. Angered at Wife. Angered by the action of his spouse in arousing him from drunken slumber in order that he would be able to report for duty on time, the complaint alleges that Thomas proceeded to amuse himself by twisting his wife's nose, pulling her hair and otherwise maltreating her. It was on the arrival of several neighbors, who had been aroused by the woman's screams, that a vicious street car man was compelled to desist. Bearing an ugly-looking bruise on her nose and on her forehead, Mrs. Thomas today made her way to the office of District Attorney Manning and secured a complaint against her husband. According to her story Thomas came home about 2 o'clock this morning in an intoxicated condition and soon fell into a drunken stupor. At the usual hour Mrs. Thomas awoke her husband so he could have breakfast and reach the car barn in time to go to work. Still suffering from the effects of his debauch, Thomas resisted the faithfulness of his wife by leaping from the bed and assaulting her. "I'll not leave any marks on you," is what he is said to have told his wife. Neighbors Saved Woman. It was not until the neighbors came rushing into the house that Thomas released his hold on his helpless wife. Mrs. Thomas prepared her husband's breakfast even after the abuse to which she had been subjected. Thomas refused to partake of any food, however, and rushed from the house. The warrant has been placed in the hands of Detective John Price and bail has been fixed at \$150. Mrs. Thomas states she has been married for six years and her husband has abused her ever since the day of the altar. The couple have two children, both boys, aged 2 and 4 years respectively. About a month ago Thomas is said to have been discharged from the employ of the railway company for drunkenness. His wife pleaded with Traffic Manager Cooper and he was reinstated. "I don't want him sent to the whipping post," declared the aggrieved wife after swearing to the complaint, "but I want a divorce."

John Cannon will hear further details of the affair tomorrow morning.

Codling Moth Case in Idaho.

(Special Dispatch to The Journal.) Moscow, Idaho, Aug. 8.—O. C. Carsnow, dealer in green and general groceries, is under arrest on a charge of selling and having in his possession apples affected with codling moth. The arrest was made by W. G. Dowdy, deputy state horticultural inspector, and comes under the inspection law passed by the last legislature. Carsnow will contest the case in the courts.

Astoria Addition Plat Filed.

(Special Dispatch to The Journal.) Astoria, Or., Aug. 8.—A plat of Union Square, consisting of eight blocks at Warrenton, as laid out by Walter C. and Mary E. Smith, has been filed for record in the county clerk's office.

TO RESUME WORK ON THE MONUMENTAL

(Special Dispatch to The Journal.) Granite, Or., Aug. 8.—Operations will soon be resumed at the Monumental mine. At any time W. T. Adams, one of the principal backers of the property, is expected to arrive at the property from Corinth, Mississippi, on a visit of inspection. The Monumental mine has been opened by tunnels and shafts to the depth of over 600 feet, and it is in the lower levels that the best ore in the mine shows. In these two levels a considerable body of rich ore has been backed out, which it has been announced will be taken out for treatment on the resumption of work.

Meyers Bank's Name Changed.

Astoria, Or., Aug. 8.—Supplementary articles of incorporation have been filed in the county clerk's office changing the name of the Astoria Trust company to the Scandinavian-American Savings bank of Astoria, Oregon. The incorporators are H. S. M. S. and F. N. Meyers.

CHINA PHEASANTS PEST TO FARMERS

(Special Dispatch to The Journal.) Brownsville, Or., Aug. 8.—China pheasants around Brownsville are causing farmers no end of trouble. They are literally taking the gardens. Farmers are beginning to get rid of the pests. They say they will not endure the restrictions of the game law, which was framed by the influence of city sports and "rod and gun clubs" to protect the Chinese bird. The farmers argue that they have to raise the birds, and they will hunt and destroy them when they so desire. They are beginning to regard them as domestic fowls, as they are getting so tame as to come and eat with their poultry. Hundreds of dollars' worth of grain and garden stuff is destroyed every year by the pheasants. Tomorrow and Saturday, last days to receive discount on west side gas bills.

Big Log Drive at Albany.

(Special Dispatch to The Journal.) Albany, Or., Aug. 8.—The log drive of the Spaulding Lumber and Logging company, 3,000,000 feet, is now in the Willamette river, opposite Albany. This is one of the largest drives ever brought down the river. It has been on the way over 40 days and it is estimated that it will require at least as much more time to reach its final destination. The logs were cut on the upper waters of the Willamette and the McKenzie rivers.
