Rains Cause Shortage Temporarily-Plenty of Ripe Stock, But None Coming

Today's market features: Potatoes to move out soon. Steady improvement in eggs. Chicken market fractionally better. Dressed meats hard to get. Cantaloupe market still in bad shape. Standard Oil puts down candles. Peaches sell at a sactifice. Watermelon demand is curtailed. Corn meal and hominy lower. Local salmon stock still small.

## Potatoes to Move Soon.

Potatoes to Move Soon. As soon as weather conditions will main permit active digging it is quite likely that there will be some liberal optato shipments from this market to both the north and south within the next few weeks. Reports from nearby sections state that had the rains not in-terfored digging operations would now be quite general. Early polatoes are full two or three weeks later than h, but it is stated that a large market. The rains have been a wonder-ful aid to late potatoes and will cause the crop to be heavier than expected a few weeks ago. On the other hand, it is stated that the rains will cause the appearance. In this city the trade is provide to start growing again and appearance. In this city the trade is provide to showen. At the moment is harp advance in the price yester-day morning. Practically no arrivals the sharp advance in the price yester-day morning. Practically no arrivals today.

## Steady Egg Improvement.

today. Steady Egg Improvement. There continues a steady improve-ment in the tone of the local egg mar-ket. Receipts from the country are smaller and demand is increasing. Ore-gon eggs are worth from 2 to 3c a dozen more than eastern stock, and this is said to be causing some handlers of eastern eggs to send the latter out when only fress stock is ordered. This is a violation of the new pure food law now in operation and the dealer who does not specify where the error incolled all the strict they are unable to compete with handlers of eastern eggs who send that grade out when only eggs are specified in the order. Best Oregons are today selling at 22% c and 23c a dozen. There is a fractional improvement in the tone of the poultry market, but values are scarcely changed. Receipts and demand about equal at this time. The cooler weather has curtailed to a considerable extent the demand for wa termelons. With eight cars in the other

# Portland Union Stockyards, Aug. 9.-Hogs. Cattle Sheep. ............

oday eek ago ..... 137 299 200 The first hogs to put in appearance in the yards since Monday—when the total run was but 89 head, were re-ported in today, and were quickly snapped up by killers, mostly around the extreme top values. Today's run of 200 head compares with 137 head a week ago, none a year ago and a nominal number this Friday two years ago.

A year ago today hogs were quoted firmer, but unchanged in price, Absence of Sheep.

This was another day without the ar-rival of sheep in the local yards. On this day a week ago conditions were similar and in consequence the price rules very firm, but unchanged. Sheep are already so high that although de-mand is larger than supply, killers are not buying so freely. The general opin-ion of the trade, however, is that the sheep market will soon show rising whiles.

harvested.

Very heavy buying of wheat is re-ported at interior points in the Pacific northwest during the past 24 hours and prices seem to be satisfactory to purchasers. However, no gen-eral selling is reported. A Pendleton paper says that 100,000 bushels have been purchased in that vicinity, 59,000 bushels being from Wild Horse growers at 69% c.

## Government Orop Report.

The government issued its crop report aday. The condition in the United oday. States shows:

#### Sales of New Wheat.

Pendleton, Or., Aug. 9.—Though the wheat market has been quiet here so far this season, 100,000 bushels or more have already been sold. Of this the have already been sold. Of this the bulk was bought in the vicinity of East-land by E. W. McComas, representative of the Northwestern Warehouse com-pany. Within the past few days he has purchased 60,000 bushels from farmers of the Wild Horse country paying 69% c ner bushel

There is a general sentiment this year for holding the wheat for a higher price, 75c being wanted, and thus far little contracting has been done. The Byers mill of this city has se-cured about 40,000 bushels of new

wheat.

#### **Rains Delay Harvest.**

Walla Walla, Wash., Aug. 9.—Har-vesting all over the valley was brought to a standstill yesterday by a heavy downpour of rain which set in early in the forenoon and kept up through-out the day. The rainfall in the foot-hill districts was extremely heavy and it will be several days before the com-bines will be able to start up. In the Eureka flat and Touchet districts the rain was not so heavy, although ma-chines were closed down. Unless showery weather continues for several showery weather continues for several days, farmers do not anticipate any damage to standing grain.

# FOR EIGHT HOURS PATIENTS TO ERECT

# (Special Dispatch to The Journal.)

Walla Walla, Wash., Aug. 9.-Farmers in the vicinity of Prescott and Lewiston, Ida, Aug. 9.—Architect J. H. Nave of this city is working on plans for a handsome building for the administration department of the North Idaho Asylum for the Insane, at Ori-

ers in the vicinity of Prescott and Bowles Junction have resisted a de-mand for an eight-hour day and as a result over 60 harvest hands, employed in that section have struck. Many of the strikers have left for the Palouse country where they expect to receive from \$5 to \$6 a day. Farmers from the Prescott and Bowles districts were in Walla Walla yesterday looking for farm hands and were fairly successful in picking up men. Since the Farmers' Employment agency has gone out of business farm-ers are compelled to pick up men from the streets. This causes considerable loss in time. The employment agency was closed several days ago because some of the most prominent farmers of the valley refused to pay their dues, al-though they did not hesitate to visit the agency and get men whenever they needed them. at half that figure. The brick will be made, burned and laid by inmates of the institution and the carpentering will ing under a skilled foreman.

Torturing eczema spreads its burning area every day. Doan's Ointment quick-ly stops its spreading, instantly relieves the itching, cures it permanently. At any drug store.

I know this leprous disease com-pletely. The system is thoroughly cleansed and every poisonous taint removed. The last symptom vanishes to appear no more, and all is accomplished by the use of harm-less blood-cleansing remedies. Do not submit to the dangerous mineral dosing commonly indulged in. Such treatment merely obscures the symptoms.

Through my long experience treat-ing these diseases I. have devised methods that not only cure, soundly and permanently, but cure in less time than the best of other treat-ments require. Take no chances. Do not risk your health and strength by relying on patent nostrums or by relying on patent nostrums or uncertain methods. You are abso-lutely secure when you intrust your case to me.

PAY WHEN YOU ARE CURED **CONSULTATION FREE**—MY HONEST AND CANDID ADVICE COSTS YOU NOTHING. I cheerfully give you the very best opinion, guided by years of successful practice. Men out of town, in trouble, write if you cannot call, as many cases yield readily to proper home treatment and cure. My offices are open all day from 9 A. M. to 8 P. M., and Sundays from 10 to 1.
