Anne Shannon Monroe.

A short story written by Miss Anne Shannon Monroe and pub-lished in the August Issue of Sunset, is creating a great deal of interest through its unusual ending. Groups of people all over the city have read the story and discussed the reason for the ending, some participants waxing extremely warm in their praise or denunciation of the heroine's action. It has proved a second "Lady or the Tiger" in the interest created, few people agreeing as to just why the young woman acted as she did, and what motive prompted her

course. The fact that the scene of the story is Mount Hood, and its author, Miss Monroe, is a Portland resident, increases local interest, though the story's merit will make it read all over the country with equal avidity.

Pianola Library Expands.

In order to meet the ever increasing expansion of the Pianola Library of Music, and to give additional space to this department, Eilers Piano House has just added another room with accommodations for several thousand more rolls of this popular music. Library members will now have the benefit of a larger selection than ever before, and it is the intention to carry in stock not less than twenty-five thousand rolls constantly, which is actually more than carried by all other player plano dealers in Washington, Oregon and Idaho combined. The incomparable merit of such a splendid collection from which to choose, gives Pianola Library Members an advantage not to be duplicated elsewhere, and facilities not offered by the representatives of any other make of player plano in the northwest. ## CAUSES DISCUSSION FRAUD ALLEGED IN LAND TRACT SALE

Conspiracy Case Results From Transaction at Marshfield.

Conspiracy and fraud in the sale of large tract of land at Marshfield, Oregon, are charged in a suit filed in circuit court by the South Harbor Development company against E. D. Whit-ney, C. W. Tower, Isaac Tower, C. W. Codding, E. R. Robinson, W. I. Latimer, Codding E. R. Robinson W. I. Latimer, and the Bennett Trust company. It is charged that the defendants conspired together to earn an unlawful secret profit from the sale of land to the corporation in which they held stock.

It is alleged that C. W. Tower, C. W. Codding and E. R. Robinson secured from Stephen Lapp an option on some land for \$11,700. In November 1906, it is alleged, Tower came to Portland and conspired with E. D. Whitney to form a company and sell the Lapp tract to the company for \$20,500, and divide the profits. Part of the plan was carried out, according to the complaint, and the company asks judgment against the defendants for about \$6,500 in cash. Attorney Thomas O'Day appears for the company.

THE TOURISTS' TRIBUTE

Enormous Sums Spent Annually by

Americans in Europe. Germany has been doing some figuring on the annual profit to Europe from the American tourist invasion. It is assumed that 300,000 persons make a flying trip across the Atlantic each year, and their expenditures, exclusive of steamship tickets, are averaged at \$700 a head or a total of \$228,000,000. This sum is mostly divided among the railroads, hotels and boarding houses, tailors and dressmakers and art dealers. It is estimated that \$0,000 American women buy more or less ciothing in Paris every year, and that they leave \$8,000,000 as a minimum with the dressmakers and \$1,600,000 with the milliners.
