SPOKANE MILLIONAIRES ON TRIAL FOR SPEEDING

Wealthiest Men in the Falls City Appear in Police Court to Fight Cases.

CHIEF OF POLICE TO ENFORCE SPEED LAWS

Senator Turner, Dr. Thomas, Publisher Cowles and Other Rich Men Accused of Motoring at a Dangerous Rate of Speed Within City.

(Special Dispatch to The Journal.) Spokane, Wash., Aug. 16.-The sons arrested the first of the month order of Chief of Police Ren H. were on trial today in the justice court for violating the speed limit in their automobiles. Some were themselves present and others were represented by their lawyers. Several of hem were out of the city and could

them the out of the city and could not be in court. Mr. Hyde pleaded wilty, and the balance pleaded not guilty, and the balance pleaded not guilty. The hearing was continued until August 18, 19 and 20.

The issuing of the warrants for the prominent gentlemen was made necessary by the rapid speed that was becoming to make on the main thoroughfare of the city. Small accidents have been frequent, but as no one has happened to be seriously hurt, action against the auto men has been slow.

The city speed laws prohibit automobiles from running faster than 12 miles an hour in the city limits, eight miles within the fire limits and faster than four miles an hour while crossing streets.

Most of the men arrested when seen by the Journal representative denied that they had violated the speed limit and declared that they had never had an accident. Dr. C. P. Thomas declared that "the're off and we'll put 'em to the trouble of proving it—that's all." Judge Turner's wife said they had always been very careful to be temperate in running through the streets. She said the judge was now in New York on business and would not be home for a couple of weeks. accident. Dr. C. P. Thomas declared

a couple of weeks.

Among those arrested are:
Ex-Senator Turner, who was on the Alaska boundary commission with Senttor Lodge and others. He has also held many other prominent positions under the Federal government and is supposed to be worth in the neighborhood of several millions.

Dr. E. D. Olmsted is a well known physician and real estate holder. Dr. C. P. Thomas, well known throughout the northwest, whose practice is probably the largest of any other doctor in the country.

Among Those Arrested.

CRUEL FATHER SEPARATES HEIRESS FROM HER PLUMBER

Paris, Ang. 16.—Mile. Andree Pedallu, a young heireas of L'Isle Adam, has eloped with and wed M. Victor Dehaulon, a handsome plumber, who stole her heart whilst doing a job at her father's chateau.

Victor, it may be noted, in addition to his personal advantages, is an excorporal of the fire brigade. The eloping lovers had to take a train instead of an automobile across the frontier.

On arriving at Brussels, Victor set to work to earn an honest livelihood, but his evil star led him to seek employment at the very hotel in which M. Pedauliu was a shareholder, and the millionairs, who was raising heaven and earth to find his truant daughter, was speedily put on the track.

Andree was kidnapped while she was carrying dinner to her Victor. Imagine the ex-corporal's indignation and despair when he returned home and found no Andree. After a long and fruitless

EMBRYO TEACHER SAYS HAGUE CONFERENCE FINED STANDARD

Eugene, Or., Aug. 16.—Fifty-six teachers are taking the county examinations here and that number will not anywhere near supply the vacancies in Lane county. What makes the matter more serious is the fact that the material is very poor, and many of those

ALASKA AROUSED BY JAPANESE OUTRAGES OPERATORS WILL WORK

Towns in North Without Fear of Law.

Valdez, Alaska, Aug. 16.-Actions of Valdez, Alaska, Aug. 15.—Actions of Japanese sealers in raiding towns and abusing natives near here are regarded as significant, in view of the strained relations between the two governments. Word has been received that the United States revenue cutter Manning is coming to this port with 63 Japanese poachers who made the raid on the Indian village on Kodiak island under great way and this circumstance is the only wag that prevented bloodshed, it seems certain. As near as can be learned the Japanese were in a highly wrought-up condition when they invaded the little town.

Houses were sacked and many depredations committed, showing that the invaders had little fear of the law. Details of this unseemly attack have been slow in getting out, but enough has been learned to arouse the indignation of all Alaskans up and down the coast. In view of the lawless conduct of the sealers in their raids upon the nearby rockeries there is a growing belief that their presence in this vicinity is for the purpose of fomenting strife.

The poachers now under arrest and on their way to this port will receive a hearing before the United States district court now in session here. Already the little information available has been forwarded to the state department at Washington, concerning the aggression of the little brown men in the north. Their piratical conduct is to be subjected to the closest scrutiny possible, for the purpose of ascertaining if there is any deeper motive back of it.

Government officers hesitate to speak Japanese sealers in raiding towns and

ing if there is any deeper motive and of it.

Government officers hesitate to speak openly on the subject and their unusually guarded tongues are taken as evidence that extraordinary caution governs their actions in the present difficulty. But the mere fact that the cruiser Buffalo has been ordered to the grounds of Alaska, as an auxiliary to the revenue cutter service, is taken as holdings in the great white pine belt of evidence that the Washington authorities realize the seriousness of the situation.

Culprits Poach and Raid Railway Magnate Does Not Believe Strike Will Affect Train Service.

> (Journal Special Service.) Salt Lake City, Aug. 16 .- E. H. Harriman, while here last night, declared that he does not believe the strike of the Western Union and Postal operators will involve the railway telegraph service. Harriman refused to discuss the fine of the Standard Oil company. Likewise he refused to talk of the action against himself contemplated by the government for alleged violations of the Elkins anti-rebate law.

TOWN-MAKERS VERY BUSY AT BOVILL

(Special Dispatch to The Journal.)

Bovill, Ida., Aug. 16.—Bovill is the new town started by the Potlatch Lumber company and is located at the terminus of the Washington, Idaho and Montana railroad, about 15 miles east of the Washington line.

The town has just been started, but already business houses are going up on every hand. Several mercantile houses and a bank building are being hurried up, so that they may be completed before the cold Idaho winter sets in and the deep snows blockade the mountain paths.

The bank is being promoted by Superintendent Jones of the Potlatch logging department of the Weyerhaeuser Lumber company. It will have a capital of \$10,000.

Bovill will be at the junction with the

MAROONED BRIDE

RESCUED BY LOVER

(Special Dispatch to The Journal.) Spokane, Wash., Aug. 16.—To have to stop at a strange town, broke, and with-out a friend within 450 miles, while on out a friend within 450 miles, while on her way to her own wedding was the unique and painful experience of Miss Edna Dillard of Dallas, Texas. The intended bride was on her way to Tacoma, where she was to become the wife of Rudolph Schultz of that city. The groom was communicated with and he immediately telegraphed a ticket, adding for her not to worry, as the wedding would come off as planned when she reached Tacoma.

The Northern Pacific conductor put

Miss Dillard off at Cheney because she had no ticket. She declares it was stolen and that the burglar also took her purse containing \$10 in cash and a check for \$140.

Taken to Hospital. (Special Dispatch to The Journal.)

MOVING AN HISTORIC RELIC AT THE DALLES

The Dalles, Or., Aug. 18.—An historical relic is being moved to make room for the new city hall, which will be erected at the cost of \$20,000. The relic is an old building erected in 1858 and used as a courthouse when Wasco county extended from the Cascades to the Rocky mountains and comprised territory in which are now located the cities of Walla Walls, Spokans, Boise and Butte, Montana. In this courthouse Judges Walts, Olney, Wilson, McArthur and Whitten, all long ago dead, have presided. The Historical society of this city may make an effort to keep the old building in its present condition. The Dalles, Or., Aug. 16.—An his-
