Practical Temperance

Pabst Blue Ribbon Beer is brewed as a temperance beverage—not as a stimulant.

As the consumption of beer increases, the sale of strong drink decreases. Beer is primarily a food, and its regular use satisfies the natural craving for a mild stimulant and prevents the desire for intoxicating liquors.

Pabst Blue Ribbon The Beer of Quality

is richer in food values and lower in the percentage of alcohol than any other beer. The Pabst Eight-Day Malting Process retains all of the food values of the barley, while the Pabst Perfect Brewing Process transmits them to the beer in their most wholesome and digestible form.

When ordering beer, ask for Pabst Blue Ribbon.
