PLAIN AND DECENT EXTRAVAGANCE

Movement Started at Mc-Minnville to Amend State Constitution.

TAXATION EXEMPTION TO BE INCORPORATED

Proposals as to Amount Exempt Range From \$300 to \$1,000—Postal Card Voting in Order, to Fix It for Submission.

(Special Dispatch to The Journal.) McMinnville, Or., Aug. 20.—The people of McMinnville have been casting about for some plan to escape the extravagant appropriations of the legislature.

By Request, Judge Vine W. Pearce has drawn an amendment to the constitution providing for a tax on an amount to be decided upon by the grangers and other taxpayers of the state. It reads as follows:

"An amendment of Section 1 of Article IX of the constitution of the state of Oregon, reserving to householders in said state an exemption from taxation of real and personal property of the value of.....dollars.

"Be it enacted by the people of the state of Oregon, that the constitution of the state of Oregon shall be and is hereby amended so as to read as follows:

"Section 1. The legislative assembly shall provide by law for uniform and equal rate of assessment and taxation, and shall prescribe such regulations as shall secure a just valuation for taxation of all property, both real and personal, excepting such property as may be specifically fixed by law for municipal, educational, literary, scientific, religious or charitable purposes as may be specifically fixed by law. Provided, however, that hereafter reserved to each householder within this state, owning such property, the amount of such property, which is real and personal property of the value of.....dollars, which is exempt from taxation."

There is already a law exempting \$300, but it is claimed that it will not stand the test of time, and they intend to put this measure beyond the reach of legislatures and courts and then let them squabble out with those who are able to go and maintain a lobby.

It is the busy season and this measure has not yet been put before the grange here, but it will be soon. The amount to be put into the amendment will be such as will give the grange a favor. Amounts ranging from \$500 to \$2,000 have been proposed. Any one may send a postal card or letter giving the amount they prefer to the amendment, to Milton Richardson, master of grange, McMinnville, Oregon, who will count the votes.

The time for the final counting of the vote has not yet been decided. The first Tuesday in November has been suggested. Grangers throughout the state are requested to send resolutions and votes as to the amount they favor.

BAD MAN IN JAIL —VICTIM IN HOSPITAL (Special Dispatch to The Journal.) Pendleton, Or., Aug. 20.—As a result of trouble in a threshing crew at Juniper, a few miles from here, Sunday night, Jack Monee is in St. Anthony's hospital with a pistol wound in the groin, while Jim Sawyer is in the county jail. Sawyer is charged with the murder of Monee. Sawyer is a member of the crew on the McLeellan place. He had been drinking and secured a pistol for the purpose of cleaning out the crew. Monee was the first man tackled. Sawyer was then held down by the crowd. Monee was then held down by the crowd.

HAD NARROW ESCAPE FROM AWFUL DEATH (Special Dispatch to The Journal.) Albany, Oregon, Aug. 20.—Charles Richardson, Jordan, while cutting grain met with a painful accident that nearly resulted fatally. His team took fright and ran away with the binder, throwing him in front of the platform and driving the guards into his back and breaking several ribs. While the patient is in great pain, it is thought no internal injury was done and that he will soon recover.

FOR SALE—REAL ESTATE. NEW, MODERN HOME WEST SIDE, \$2,250—\$3,000, strictly 6-room house, electric and gas, furnace and full cement basement; best buy on West Side for the money.

MEETING OF GAME AND FISH WARDENS

Association Proposes to Effect Uniformity in Protection.

(Journal Special Service.) Helena, Mont., Aug. 20.—The fourth annual meeting of the National Game and Fish Wardens' association, held at Mammoth Hot Springs, Yellowstone Park, has adjourned.

Seventeen wardens and commissioners were present and the meeting was a most successful one. Game and fish protection was discussed and the bonds of cooperation were strengthened.

Officials from Maine, Massachusetts, Michigan, Minnesota, Colorado, Idaho, California, Wyoming, North Carolina, Tennessee and Montana were present, besides the following: Superintendent of Game and Fish, Washington, District of Columbia, head of the bureau of game protection of the government, E. O. Sherman, district supervisor of the forest service; Colonel Anderson, formerly superintendent of the Yellowstone Park and the office in charge there; Lieutenant-General Young, present superintendent of the park; Major Allen, commander of the troops in the park, and many others.

The purposes of the national association are to secure uniformity in the game laws of the different states as regards the same species of game, under the same general conditions, and better cooperation among officials generally.

Game Warden Scott of Montana was re-elected president of the association. L. E. Carleton of Maine first vice-president, J. P. Fitch of Massachusetts second vice-president, H. Vogelsgang secretary, and William Avery of Minnesota treasurer. Besides the president and secretary, the board of directors is composed of A. Stevens of Idaho and B. Farr of Colorado.

The next meeting-place was left to the board of directors.

NEW AGRONOMY EXPERT AT O. A. C. (Special Dispatch to The Journal.) Corvallis, Aug. 20.—Professor H. D. Scudder of the Kansas Agricultural college has been elected professor of agronomy at the Oregon Agricultural college. This is a position recently created by the board of regents.

Mr. Scudder is a young man of 26 years. He is a graduate of the Illinois College of Agriculture, which is one of the strong institutions of the country in the line of agronomy. He had special training in soils, mechanics and crop production, including soil physics, fertilizers and rotations, drainage and irrigation, and power machinery, road-making, seeds and crops.

He spent two years in botanical work for the United States department of agriculture, and has had special training in the western part of the United States, particularly in the west. In California he has made a special study of water supply, irrigation, fruit growing and soil salinity.

U. OF O. FRESHMAN CLASS TWO HUNDRED (Special Dispatch to The Journal.) Eugene, Aug. 20.—Estimates on the freshman class for the coming year place the number at about 200 students, of whom nearly 100 per cent will be high school graduates from Oregon. This class will be the largest in the history of the institution, and will bring the total attendance close up to the 200 mark and the whole enrollment to 750.

The courses this year will be up to their usual standard, and with the opening of the new library building, which has been accepted, a great deal of additional and badly needed room will be at the disposal of the institution.

SPECIAL LEVY MUST BE MADE (Special Dispatch to The Journal.) Olympia, Wash., Aug. 20.—The state school superintendent has received an opinion from the attorney general's office to the effect that the school district shall be entitled to receive any portion of the public school money unless it is levied by a special levy. At least three mills for the preceding year, and has also maintained five months' school in the preceding year. No excuse can be made for failure to comply with these requirements, says the attorney general.

HILL'S SURVEYORS ON HARRIMAN SOIL (Special Dispatch to The Journal.) Ontario, Or., Aug. 20.—The Oregon Short Line depot of stone and brick is nearing completion and the work of grading for the parks and side tracks is being vigorously pushed. The Short Line is expending \$100,000 in improvements.

Drugs Can't Cure You

Drugs have had their day. They belong to the mystery and superstition of the past. No drug ever cured disease. It simply changes symptoms.—Bernard Macfadden in "Physical Culture."

The reason drugs don't cure is because they do not help nature. Nature needs electricity—nourishment, something that builds up. Drugs contain no nourishment—just poison, which tends down.

My way of curing is to restore electricity where it is needed and pain and sickness will disappear. That's because electricity gives strength, power, to the body, enabling every organ to perform its work properly, and when every organ is in a strong, healthy condition there can be no pain or sickness.

Wear Electro-Vigor while you sleep. It feeds a constant stream of electricity to your nerves, and they carry it to every organ and tissue of your body, restoring health and vim.

Electro-Vigor is a simple electric appliance, constructed on scientific principles, and is the product of my 20 years' experience in treating with electricity.

It is not an electric belt. It never needs charging, for it makes its own power continuously.

It is cheaper than a course of drugging.

S. A. Hall, M. D. 1429 Filmore St., SAN FRANCISCO.
