May Declare Franchise Forfeited.

Never before perhaps has a city at-torney of Portland delivered an opinion involving a point of so much magnitude or of so much importance to the people of the city. It means, in brief, that the council has power to direct the street railway company to make improvements or alterations to its tracks throughout the city whenever the council may deem them necessary at any time thought needful. It empowers the council at the same time to place a time limit upon the completion of such work and, in event of failure or neglect of the company to comply with the directions, thereupon to forfeit the franchise of he company.

FACTS REGARDING TELEGRAPH STRIKE

Telegraphers are the most intelligent body of skilled workmen in the world, and the poorest paid.

A first class man after years of perfecting himself in his skill can look forward to a maximum of \$21.85 a week for six days of nine hours each. As a rule he cannot hope for better than \$19.50

Thousands of operators are employed in branch offices at from \$7 to \$10 per week. These are young operators.

The companies give no vacations. Old age automatically deprives them of work. There has been no increase in wages in 20 The Western Union compels the public to pay interest on tens

of millions of watered stock. If it were not for this it could afford to pay good wages. Both telegraph companies recently increased their tolls to the

public an average of 25 per cent on gross receipts. An increase in wages of 10 per cent was promised employes, but it was offset by The demands of the men are: An increase in wages of 15 per

cent; this would not bring the wages of the highest paid operator up to \$5 a day; equal pay for equal work by women, now paid less; typewriter machines to be furnished by the companies, recognition of the union, but not closed shop.

Which is the most important, good wages for workmen or dividends on watered stock?

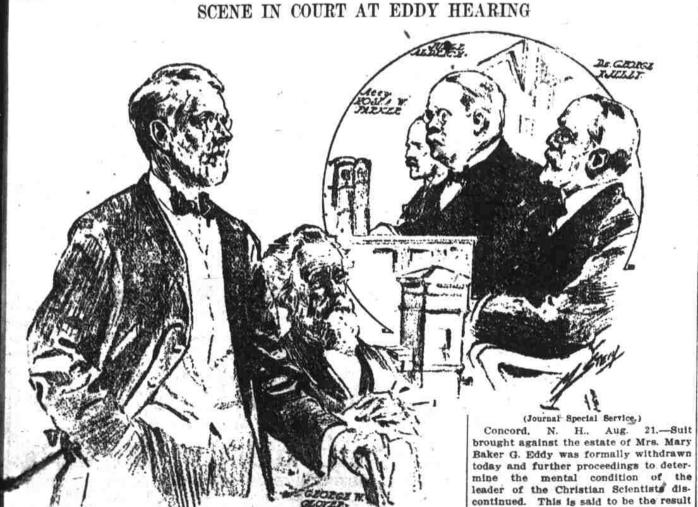

The strike is the only weapon of the employe. He must strike or endure conditions dictated purely by selfish personal reasons.

The cause of the striking telegraphers is a just one, therefore they ask the assistance of the public

The plaintiffs in this action, which ranked as one of the most important in legal history, were George W. Glover, the son and only child of Mary Baker G. Eddy, his daughter. Mary Baker Glover, and George W. Baker, a nephew of Mrs. Eddy.

These plaintiffs declared that Mary Baker G. Eddy was mentally incapable of managing her business affairs and vast fortune, and that there was abundant reason to believe that the venerable and mentally enfeebled woman was helpless in the hands of designing persons who had wrongfully converted to their own uses large sums of money and properties of great value belonging to her.
