## **FODAY'S MARKETS**

Hop Bears or Temporary Bulls Are Now Leaving No Stone Unturned in Order to Get the Growers to Harvest.

# SHARP RISE IN

Supplies Small and Values Are Advanced 1-2 to 1c a Pound Today.

Latest market features:
Peach market begins to stiffen.
Tomatoes selling lower.
All sorts of "cant" prices.
Creamery butter price mixed.
Cheese advanced ½ to 1c a pound.
Eggs are firm but no higher.
Tokay grapes come from Florin.
Watermelons selling at decline.
Nectarines are in larger supply.

Sharp Advance in Cheese.

An advance of ½ to 1c a pound is today quoted in the local cheese market
by both commission merchants and the
wholesale grocery trade. Flats are
quoted up to 17 11 17 2c a pound. The
reason for this sharp advance in the
local price is the great shortage in
supplies as outlined in The Journal
several weeks ago when the market
first began to strengthen. At Tillamook manufacturers are holding their
product for still higher prices and this
may eventually force up the market
here.

here.

Egg market is still very firm but some dealers say they are experiencing difficulty in obtaining the price quoted. However, on the other hand the majority of the trade says the market is firmer than ever with supplies generally scant. Eastern eggs are therefore holding at stiff values. Butter Market Mixed.

Butter Market Mixed.

While several creamerles are still holding out for \$5c a pound for butter, most of the sales of city creamerly were today made at \$7½c a pound. Butter supplies both on Front street and at city creamerles are small for local stock but there is still quite liberal stocks of eastern butter here. However, with the present demoralized telegraphic situation and the uncertain quotations being received from the east the trade here does not anticipate any great arrivals of eastern butter in the near future. The arrivals of butter from the east this season have not affected to any geat extent the local market because the outside stock is handled almost exclusively this season by the city creamerles who would scarcely care to wreck their own trade by bringing outside butter into competition with their own when supplies of the latter were sufficient to supply the wants of the trade.

Chicken Market Better. Chicken Market Better.

There is again an improvement in the demand for chickens and prices in some instances may be said to be a fraction higher. There is now a small call for geese and ducks, the former being in request at \$\@10c\$ a pound. Hens are again wanted and even springs of good size will sell readily at printed values. However, the market will not stand very liberal shipments at the present range of values.

Watermalons Selling at Decline.

#### PEACH CANNING TIME IS NOW CLOSE AT HAND

"This is the time for everyone to consider putting up peaches, for I do not expect supplies to increase from this time forth. Quality is very fine this year.

"Tomatoes will likely get somewhat cheaper within the next few days, so that will be the time for canning. Local toms' are now coming in quite freely, but within a few days the volume of arrivals will be greatly increased."—Billy Dryer of Dryer, Bollam & Co. CALL FOR HENS IS

"Calls for hens have been quite brisk and all arrivals are disposed of freely at prices quoted. Springs seem neglected and are selling lower than hens proportionately

"There seems to be an increasing demand for strictly fresh ranch eggs. The trade has become tired of eastern stock and at last local eggs are commanding an advance, arrivals being lighter and demand better.

"The trade can use a great deal more fancy veal than is being offered. Large and rough stock move at lower values. We would advise shippers to send in their small fancy veal now. The same conditions exist as to hens."-Frank Templeton of Templeton & Graham

## BRISK ALONG STREET STOCK MARKET CLIMBS HIGHER

to Better Tone When Bank Rate Is Unchanged.

New York, Aug. 22.—The stock market closed today at close to the best prices of the day. The decline in the price of copper metal did not affect to any extent the bullish movement in Amaigamated today.

The early London market was lower, but some improvement set in later. There was no change in the Bank of England rate as rumored, and this helped the latter market.

Some of today's rise in New York was due to the covering of shorts who were scared out by the recent raiding of Lawson in their camp. The market today closed with slight concessions in the price.

## BEAR OPERATORS TRYING TO FOOL GROWERS BY BOOSTING

By Hyman H. Cohen.

In a signed statement in The Sunday Journal of August 11 the following appeared:

"Reliable dealers and growers do not hesitate to say that considerable damage has been done the crop by unseasonable weather. Hop lice are multiplying at a lively rate and as the burs are forming the vermin are entering. This will cause the total destruction of every cluster of hops entered. Honeydew is also noted in practically every section where correspondents care to take the trouble to note.

"The same condition exists in Washington and an California. New York yards are making better progress than they were, but the hops are still badly damaged. Reports from England are mixed, but reliable dealers' cables tell of damage and a very slort crop in prospect.

"Just where the dealers stand in all this controversy is hard to explain at

CHICAGO WHEAT VALUES.

Chicago, Aug. 22 .- The wheat market

opened sharply lower even though there was a sharp advance in Liverpool.

There is much difference of opinion as to the frost damage. Some people say mail advices generally confirm the reports but the full extent of the damage cannot be told until warm weather comes.

The big increase in the visible supply was one of the causes of today's wheat drop. The visible:

Wheat—Increased 2,467,000 bushels.
Corn—Decreased 813,000 bushels.
Oats—Decreased 453,000 bushels.
The total visible shows:

TEACUPS DESERTED FOR PRINCE WILHELM

(Journal Special Service.)

Newport, R. I., Aug. 22.—Teacups and tennis courts were deserted by Newport society today, for everyone had a mind for but one thing—the arrival of his royal highness. Prince Wilhelm of recent bank failure.

Shopping will center at the Golden Eagle tomorrow. Everything in the store at exactly one half price. Money must be raised at once on account of his royal highness.

bers. The Union Guarantee Association backed by twenty-two wellknown Portland business men is a safer company for the person seeking Judicial, Contract

or Indemnity Bonds, for instance, than is the concern backed by one or two men of immense wealth. Misfortune is less liable to visit so many at the same time, but may come to an individual at any time. This Association has a paid-up cash capital of One Hundred Thousand Dollars. It parallels every advantage and convenience offered by the oldest outside companies; and money paid to it in premiums accrues to the benefit of Oregon, not to other states. Plate Glass, Steam Boiler, Liability and Accident Insurance; Indemnity Bonds.
