

## THE BOSTON STORE <br> IN THE GRASP OF THE <br> MERCILESS LION-MANAGER <br> PACIFIC COAST"SALVAGE CO. <br> 

Imitators have tried to copy the methods of the Pacific Coast Salvage Company and have done a fairly good job up to PRICE MAKING. But at this point they fell and broke their pencil. When I take hold of a stock I make the PRICES or I don't start in, and I make them so astonishingly at variance with any ever made be fore that a man or woman of ordinary common sense cannot judiciously stay away. Time is money with me. I do things quick, and that's where I save. Now, good people, I want to get the rest of this stock in the delivery wagons in the next few days as I am pretty well tired out and need a little vacation. Look into these prices and you'll bend your efforts in my aid. Signed, DAVID LION, Manager Pacific Coast Salvage Company
