# SPRINGS IN AUTO SEATS

Cars Would Be More Comfortable If

Upholstery Was Not So Light. Upholstery is a detail in connection with the finishing and equipment of the with the finishing and equipment of the user to be not and in the affected by motor car which is at present open to much criticism, says a writer in the wages abroad. In other districts it is Gould & London Field. As far as one can judge from extensive road trials of most of the leading cars of the present season the makers of motor bodies have no: taken into consideration the fact that much greater shocks have to be ab-sorbed than is the case with either a

sorbed than is the case with the source of some cases return with their savings, and rear axles and therefore feel but utile discomfort, except a certain while in others they remit home a large part of their earnings, as was noticed and rear axles and therefore reel but little disconfort, except a certain amount from the back ward and forward motion of the back as the rear axle rises and falls. In the back seat, how-ever, which is usually almost immedi-ately over the rear axle, the vertical jolting is so severe that unless the springs of the chassis are exceptionally springs of the chassis are exceptionally

ever, which is usually almost immedi-ately over the rear axle, the vertical joiting is so severe that unless the springs of the chassis are exceptionally flexible the shocks to one's body are painful and even injurious. When one is constantly driving the discomfort of the rear seat is apt to be lost sight of, but it was brought home to us very forcibly last week when we had to sit in the back of a car driven at a fairly fast speed over the rough Belgian cobbles on our way to the Ardennes races.

Fairv, Silver King 20c, Fairv, Eagle 51.4234. Nevada Hilis 35. Pittsburg SilSt. 4234. Nevada Hilis 36. Pittsburg SilSt. 4344. No. Star Wonder 3c, Sta with the efforts of their coach builders to take counsel with armchair special-ists. Recently we inspected and tried a large number of armchairs in a large furnishing house and found that the seats and backs had springs of at least twice the depth that one finds in the best motor bodies. All that is necessary is to sacrifice

under the cushions some of the room at present occupied by the locker under-neath, so as to get coil springs of nine linches or ten inches deep. The backs

inches or ten inches deep. The backs of the seats should be furnished with similar springs, and by this means the comfort of a badly sprung car can be increased to an extraordinary extent.

### Buy of the Maker.

Duy Of the maker. The making of chandeliers is much more than throwing together so much material. It requires personality of insight and artistic taste in creating designs, shapes and finish to mouid a beautiful and appropriate article. Let our artist submit sketches or designs from your ideas or your architects that will harmonize with the archi-tecture and color scheme of your home. You know your fixtures can be made the most artistic part of your furnish-

Italy Depleted by Emigration. The depletion of large parts of Italy OPEN ON SATURDAYS FROM 9 A. M. TO 1 P. M. report dustion, and the last annual report on the subject causes general alarm. It is not merely that the number of Italian emigrants has risen to 786,977. or 60,000 more than in the previous year, but that an increase is observ-able in provinces where hitherto the inhabitants had been inclined to remain at home. Still however the bread AND ON SATURDAY EVENINGS FROM 5 TO 5 O'CLOCK. WE PAY 4.% INTEREST

Bavings Accounts, Interest Com-pounded Semi-Annually. On

noticeable that people in fairly easy cir-cumstances and even small landed pro-prietors are quitting the land of their fathers, and the cause of this is to be sought in the growing cost of living in Italy under modern conditions. In al-most every small Italian town there

is now an agent of some American line of steamers, and landlords are com-plaining that labor is becoming scarcer.
