Pirst Car Onlone Shipped. The first car of Oregon onions to be sent from Portland to the outside, in fact the first car loaded in this state this season, has been shipped. McKinley Mitchell this morning finished the loading of the initial car at Sherwood and shipments will start for San Francisco during the day. The onions are said to be of unusually good quality this season and are expected to bring good returns to the shipper. The car is probably shipped earlier than any car was ever shipped from this state in any season.

car was ever shipped from this state in any season.

Some small purchases of potatoes are still reported at country points, However, there is a great scarcity of well matured stock and for this reason shippers are sometimes paying a small premium over the printed quotations in order to get something strictly fancy. Locally the potate market is just about holding its own. Receipts are quite fair but the rains of the past few days have stopped the movement from showave stopped the movement from show-ng its usual increase. the stock now coming is rather green and prices therefore are lower than for majured goods.

Eggs are Ranging Righer.

Higher prices are damed in the local market as a result of the very scant arrivals shown from local points. Receipts of late have been very small. This has caused some of their supplies because of the higher prices. Another car of eastern eggs is in today and was delivered this morning to a Front street house. Strictly fancy local eggs are selling at 25c a dozen; higher values being obtained occasionally for single cases.

Chicken market remains with good character. Receipts and demand just about equal. Hens are most eagerly sought and it is this demand that forces the sale of the springs which are not so hadly wanted. Some fair call for young ducks and geese.

Creamery butter market still has mixed values. Three creameries are still charging the high value. One of the leading makers this morning said that he had not seen any great increase in production and that his supplies were no greater than demand. Along Front street the trade is of weak character.

Fancy Peaches Selling High.
While some peaches are selling along Front street today as low as 50c a box; the general run of good stock does not sell below 75c and fancies are ranging around 85c a box.

The first carioad of grapes of the meason was reported in this morning by Pag & Son.
Tomatoes are lower with larger supplies. Quality generally good.
Pineapples from Honolulu are in market and are quoted at \$3 a dozen.
Fancy cantaloupes are holding their price well, some from Hood River pringing \$1.50@1.75 a crate while ordinary stock rules between \$1.50@1.00 a hor.

### NO PICK IDEA FAVORED BY HOP PRODUCERS

By Hyman H. Cohen, "The hop yards are in bad shape and if this rain continues they will be ruined—perhaps it would be better after all if none were picked. I don't know whether we will pick or not."—Julius Wolf, mayor of Silverton and a prominent hopgrower and dealer.

From every side reports continue to come telling of mold, lice, poor quality and a probable short pick of hops this season in Oregon.

"I do not think that anything can save the quality of the hop crop this season," says Mayor Wolf. "The weather does not seem to make very much difference. This deterioration of quality has been going on for about

much difference. This deterioration of quality has been going on for about two months."

Practically every grower who is going to pick his crop of hops in this state the present season will have started harvest before the coming week. Samples of gathered hops received in this city show them to be mostly green and unmatured, growers having contracts at good prices making every effort to deliver.

The scarcity of help is even more pronounced than first believed, some of the larger yards not having a quarter as many pickers as they need to gather their areas. their crop.
Short sellers are putting forth every effort to force growers to pick their hops, because if they do not gather the crop the sellers will be at the mercy of

the brewers.

The no-pick idea is gaining ground and not over half the growers have thus far made any arrangements to sacure harvesters. With a small crop secure harvesters. With a small crop picked in Oregon this season the pros-pects for the coming year will be much

New York, Aug. 29.—James J. Hill of the Great Northern is quoted as saying: "I do not view the situation with any alarm. I should think prices are at about the low mark. I do not see how they will so much lower. how they will go much lower."

New York, Aug. 29.—The stock market was today made up mostly of professionals evening up before the holiday of Saturday and Monday. Floor traders did the principal business all day and the market was left to take its own course. Without recovering, buying or manipulation by the insiders, there appeared profit taking from the there appeared profit-taking from the opening, which, however, was on a small scale. Chicago, Aug. 29.—Wheat opened here at a sharp advance today, May going to \$1.03% and December to 96%c; an advance of % to %c over yesterday's

In all probability the expected advance of 10c a barrel in export grades of flour will be made next Monday morning by Pacific northwest millers. This would put the price of export at \$3.80, and the trade expects no difficulty in maintaining the value at the advance, or a still higher figure.

Advances in wheat, both here and abroad, have been rapid of late and this has put the price to such a figure that an advance in flour rates is necessary.

Thus far no prices have been named on local grades of new flour, but the expectation is that values will be no lower than at present. Sales of old flour are increasing rapidly and some expect an advance in that grade before the new crop product is ready for market.

will bring hearly \$4,000,000 in the county.

With a rush that was unprecedented in this county the wheat market has opened up and it is now estimated that over 2,000,000 bushels of this year's yield have been sold. Of this amount 1,000,000 bushels changed hands in a very short time.

simply overrun with visitors every day, and the suggestion might not be a bad idea to charge a small admission fee to the hordes who are so anxious to see the men of brawn at practice and turn the proceeds over to some worthy cause.

The first of the three contests on the schedule, that between Mike Schreck and Ai Kaufman, will take place at the Auditorium tonight. Each of the big fellows has worked conscientiously, for the result of the bout means a whole lot. The winner will be a step nearer the champlonship goal, while the loser will drop from sight.

Joe Gans put in a full day at Crolis, the portion of his work which proved the most entertaining to the visitors being the boxing bouts which he had with his partners. First LaGrave tackied the lightweight champlon and found him good natured and indulgent. LaGrave was under orders to strike out freely, but as a rule his aim was disarranged by the champlon's timely blocking.

Fred Landers, who is more of a lightwing striker than LaGrave, then took a turn with Gans, and Joe was compelled to move around at a sprightlier gait.

### ANTI-SUICIDE LAW WILL BE ENFORCED

Seattle. Aug. 29.—When Michael Gover, the ex-policeman who shot himself with suicidal intent after he had fired a bullet through his picture and that of Millie Taylor, the girl who ilited him, recovers sufficiently to leave the Seattle General hospital, where he is now confined, he will be arrested. By an act of the legislature of this state, attempted suicide is a misdemeanor, and Chief of Police C. W. Wappenstein intends to enforce it just the same as the Sunday closing law and every other law. Hereafter those young men who wish to end their earthly existence will do well to take a series of lessons in marksmanship before shooting at themselves. If they happen to miss the vital organs they will be in danger of being guests of the city jail. The plan to arrest would-be suicides has been considered seriously by Chief Wappenstein for some time. During the time that Charles H. Burnett, president of the city council, was occupying the seat of the mayor, he suggested to Chief Wappenstein the advisability of prosecuting the would-be suicides.

That was just after Ehrle Bellasis shot himself through the head on the waterfront and worried the police by leaving a note that he intended should lead the officers to believe that he had been murdered. His scheme was discovered and he recovered and was taken away by relatives.

Yesterday Chief Wappenstein issued "Stubble" hogs-light stuff that is will be the means of pulling down the price of good stuff.

"Grain is so high at this time," says Secretary Plummer, "that some stockmen feel they cannot afford to feed the hogs properly. This class of stuff is only a detriment to the trade and will result in a lower range of values all through the hog market. Therefore The Journal should advise these shippers to keep this stuff at home and

The Journal should advise these shippers to keep this stuff at home and fatten them."

Receipts and demand were just about equal in all lines today, although there was quite an easy tone in hogs and sheep. Prices remain at former range. A year ago all livestock values were firm and unchanged.

Official yard prices:
Hogs—Best eastern Oregon, \$6.75; stockers and feeders, \$6.25 @ 6.50; China fats, \$6.50 @ 6.76.

Cattle—Best eastern Oregon steers, \$3.75 @ 4; best cows and helfers, \$2.75 @ 3; bulls, \$1.75 @ 2.

Sheep—Best wethers, \$4; mixed, \$4; lambs, \$4.50 @ 5.

been murdered. His scheme was discovered and he recovered and was taken away by relatives.

Yesterday Chief Wappenstein issued orders to his captains to ascertain when Gover is able to be released from the hospital where he is now confined. When that time comes he will find himself in the arms of the law.

"This enforcement of the suicide law may not stop persons from committing suicide," said the police chief last night. "However, I do believe it will have the effect of making some of the would-be self-destroyers think about the matter more than once before blowing out their brains or trying to consume carbolic acid as a beverage. This man Gover was a policeman and ought to know something of the law. He will be charged with attempting to kill himself and the case will be tried out. He frightened a lot of persons by his shooting through pictures out at his sweetheart's house, for which he should be heart's house, for which he should be punished, anyway."

The prosecution, if instituted, will be the first so far as the local police know under the anti-suicide in wor this state.
